Moments of Malevolence T.L Smith, Alaska I lie to one of the city's most ruthless men. And it feels so good. Deception is a drug, and I'm quickly becoming an addict. Each time we speak, Zuko has no idea it's me. The lie tastes sweet leaving my mouth. I couldn't stop now, even if I wanted to—which I don't. He thinks our conversations are more than just sex. He's wrong. The intimacy he feels is all a facade. Until the day an embodiment of my darkest fantasies walks into my bar, and his unmistakable voice sends a shiver down my spine. It turns out I'm not the one in control. But when he calls tonight, and he will, I'll be ready... ... with a lie. Zuko My job is to hunt. Dispose of problems like they never existed. And I'm incredibly good at my job. It's brutal and violent. But, then again, so I am. I crave destruction. Death is merely a consequence of my dark pursuits. And I won't lose a wink of sleep over it, either. Nothing bothers me. No one affects me. Except the vixen with the lilac hair. When I reveal my true self to her, she laughs it off, enticed by the game we play. She's keeping secrets. And I know all about prying information out of people. She won't like my methods. But I'll keep playing her little game until I decide what to do about her. I can't tell if she is destined to be my wife... ... or my next victim.

Road of Bones Christopher Golden,2022-01-25 An American documentarian travels a haunted highway across the frozen tundra of Siberia in New York Times bestselling author Christopher Golden's *Road of Bones*, a "tightly wound, atmospheric, and creepy as hell" (Stephen King) supernatural thriller. Surrounded by barren trees in a snow-covered wilderness with a dim, dusky sky forever overhead, Siberia's Kolyma Highway is 1200 miles of gravel packed permafrost within driving distance of the Arctic Circle. A narrow path where drivers face such challenging conditions as icy surfaces, limited visibility, and an average temperature of sixty degrees below zero, fatal car accidents are common. But motorists are not the only victims of the highway. Known as the Road of Bones, it is a massive graveyard for the former Soviet Union's gulag prisoners. Hundreds of thousands of people worked to death and left where their bodies fell, consumed by the frozen elements and plowed beneath the permafrost road. Fascinated by the history, documentary producer Felix "Teig" Teigland is in Russia to drive the highway, envisioning a new series capturing Life and Death on the Road of Bones with a ride to the town of Akhust, "the coldest place on Earth", collecting ghost stories and local legends along the way. Only, when Teig and his team reach their destination, they find an abandoned town, save one catatonic nine-year-old girl—and a pack of predatory wolves, faster and smarter than any wild animals should be. Pursued by the otherworldly beasts, Teig's companions confront even more uncanny and inexplicable phenomena along the Road of Bones, as if the ghosts of Stalin's victims were haunting them. It is a harrowing journey that will push Teig beyond endurance and force him to confront the sins of his past.

Sensate Haven Abyss Aaisha Daniel,2024-02-03 Sensate Haven is profoundly influenced by augmented reality and artificial intelligence, and it symbolizes and acts as an excellent example of technological progress. Nevertheless, there's a shadow—an unintended result of unbridled expansion—somewhere amid the glistening skyline. A digital turbulent strikes the city, revealing the murky side of networked progress. The Bodhisattvas, discovers a malevolent force that seeks revenge with a technological weapon of unimaginable power and threatens to annihilate their worlds. An unfathomable power threatens to destroy their worlds with a diabolical force that demands retribution. The menacing sound of hopelessness reverberates through Sensate Haven's broken urban landscapes, pressing the Bodhisattvas to discover the evil force's mysteries and avert the ultimate convergence—a pit of unending fear. The haunting chorus of despair echoes through misty woods and shattered cityscapes, challenging the Bodhisattvas to unravel the malevolent force's secrets and prevent the ultimate abyss of

perpetual dread. The previously praised innovations are now upending the delicate balance between creation and chaos, from holographic illusions to virtual horrors. This is a compelling story about using code to play god. Will the shadows cast by its own advancements kill Sensate Haven, or can the hesitant hero face the nightmare and find a way to restore balance to a planet on the verge of technological chaos? Travel into the digital shadows, a future where creativity as well as ethics collide and where unintended consequences of technology disruption wreak havoc.
