Literacy Intervention in the Middle Grades Kevin Flanigan,Latisha Hayes,2022-12-27 No two students in grades 4-8 are identical, and many struggle with literacy for different reasons. Using a teacher-friendly, hands-on approach, this eminently practical book walks educators through the nuts and bolts of literacy intervention in the middle grades. Highlights include “North Star” principles to orient instruction, an assessment flowchart, and extended case studies of three middle-grades learners. The book offers evidence-based intervention practices for targeting specific literacy components, including word recognition, fluency, vocabulary, and comprehension. Teachers are guided to plan structured but flexible interventions that promote literacy growth and engagement. Sample lesson plans and clear, engaging figures illustrate how to make literacy intervention work for all students.

Curriculum Reform in the European Schools Sandra Leaton Gray, David Scott, Peeter Mehisto, 2018-05-29 This book is open access under a CC BY 4.0 license. This open access book examines the modern role of the European School system within the European Union, at a time when the global economy demands a new vision for contemporary education. The European schools are currently in a state of crisis: their 60-year-old tradition of bilingual and multilingual education is being strained by rapid EU expansion and the removal of English speaking teachers as a result of Brexit. Their tried and tested model of mathematics and science education has rapidly been overtaken by new developments in pedagogy and assessment research, while recruitment and retention of students and teachers has become increasingly fraught as European member states review what they are, and what they are not, prepared to fund. The authors draw on original and empirical research to assess the European Schools' place in a new Europe where the entire post-war European Project is potentially at risk. This well-researched volume will be of interest to practitioners working in European schools as well as students and scholars of EU politics and international education.
