On Contemporary Chinese Legal System Xiaobo Dong,Yafang Zhang,2023-05-19 This book delivers a comprehensive, insightful, and updated analytic description of contemporary Chinese legal system. From a macro perspective, it presents, both theoretically and empirically, the evolution of Chinese law, describing its distinctive features, comparing it with other experiences across the world, and exploring the influence of economic, social, cultural, and technological factors thereon. From a micro perspective, based on the latest laws and regulations so promulgated and relevant research, this book briefly summarizes the basic theories and knowledge of existing law in the PRC, including the Constitution, civil law, criminal law, administrative law, procedural law, intellectual property law, economic law, etc. With this book, not only law students, lawyers, and those who have a background in Chinese law but also general readers can catch a penetrating glimpse into the fast-changing Chinese legal system.

A People's University Jacob Gould Schurman,1888

China's Universities, 1895-1995 Ruth Hayhoe,2017-12-12 This reissue (1996) provides an in-depth analysis of the development of the Chinese university during the twentieth century - a period of momentous social, economic, cultural and political change. It brings together reflections on the Chinese university and its role in the two great experiments of modern China: Nationalist efforts to create a modern state as part of capitalist modernisation, and the Communist project of socialist construction under Soviet tutelage. In addition to these two frames of discourse, other models and patterns are examined: for instance, the persistence of cultural patterns, or Maoist revolutionary thought.

Law and Justice in China's New Marketplace Ronald C. Keith,2001-01-11 Law and Justice in China's New Marketplace provides the first comprehensive multidisciplinary analysis of the jurisprudence and related law underlying the contemporary Chinese transition to the 'socialist market economy'. New 'pluralized jurisprudence' has moved beyond Marxist

class analysis to consider a new balance of values relating to economic efficiency and social justice in the marketplace, and yet the interior debates and perspectives concerning these values are virtually unknown in the Western scholarly literature. By analysing the changing Chinese approach in law to the adjustment of social interests in the context of profound economic change, *Law and Justice in China's New Marketplace* provides a unique reference tool. It outlines the new vocabulary of market jurisprudence and law and examines new legal thinking on rights protection with reference to widely ranging and often hot internal debate over human rights, property law and procedural or judicial justice.
