Christianity and the Roman Empire Ralph Martin Novak, 2001-02-01 The rise of Christianity during the first four centuries of the common era was the pivotal development in Western history and profoundly influenced the later direction of all world history. Yet, for all that has been written on early Christian history, the primary sources for this history are widely scattered, difficult to find, and generally unknown to lay persons and to historians not specially trained in the field. In *Christianity and the Roman Empire* Ralph Novak interweaves these primary sources with a narrative text and constructs a single continuous account of these crucial centuries. The primary sources are selected to emphasize the manner in which the government and the people of the Roman Empire perceived Christians socially and politically; the ways in which these perceptions influenced the treatment of Christians within the Roman Empire; and the manner in which Christians established their political and religious dominance of the Roman Empire after Constantine the Great came to power in the early fourth century CE. Ralph Martin Novak holds a Masters Degree in Roman History from the University of Chicago. For: Undergraduates; seminarians; general audiences

Christianity and the Roman Empire William E. Addis, 2024-11-07 *Christianity and the Roman Empire* by William E. Addis offers a thorough exploration of the growth and eventual dominance of Christianity within the Roman world. Written with scholarly depth, the book traces the origins of Christianity, its development in the context of the Roman Empire, and its transformation from a persecuted sect into the official religion of the state. Addis begins by examining the historical and cultural environment of the Roman Empire during the rise of Christianity, showing how the political, philosophical, and religious landscape shaped early Christian thought. He discusses the challenges faced by early Christians, including state-sponsored persecution, internal doctrinal disputes, and tensions with both Jewish and pagan communities. Through this lens, readers gain insight into the resilience and adaptability of the early church. The narrative progresses through pivotal moments, such as the spread of Christian teachings through missionary work, the writings of early Church Fathers, and the role of martyrdom in strengthening the faith. Addis also highlights the impact of key events, including Constantine's conversion and the Edict of Milan, which marked the beginning of Christianity's ascent to imperial favor. The book delves into the complex relationship between Christian doctrine and Roman governance, illustrating how Christianity influenced the moral, social, and political fabric of the empire. Addis reflects on how the alliance between church and state shaped both

institutions, laying the groundwork for the development of medieval Christendom. Christianity and the Roman Empire provides readers with a nuanced understanding of the intersection between faith and power in ancient history. For those interested in early Christianity, Roman history, or the dynamics of religious transformation, Addis's work offers a compelling and informative account of a pivotal period in the history of Western civilization.

Christianity and the Roman Games Richard F. DeVoe, 2003-03-14 Christians to the lions! The image of early Christian victims of pagan blood - lust in the Roman arenas are as familiar as a catechism to Christians of all ages. Dr. Richard DeVoe parallels the development of these two great social forces of the Roman Empire: Christianity; the Roman games which included not only the arena, but also the circus and the theatre. He questions why Christianity did not have more effect on the Roman games, as both institutions grew apace for four centuries. He concludes, contrary to traditional church history, that Christianity did not limit, but, in fact absorbed and perpetuated the games. Why? With regard not only to the games, but also education, the military and the imperial cult, Rome was not Christianized: Christianity was paganized! Christianity and the Roman Games traces this process of paganization from the first through the fifth centuries, discovering surprising consequences both for Christianity and subsequent history.

Christianizing the Roman Empire Ramsay MacMullen, 1984-01-01 Offers a secular perspective on the growth of the Christian Church in ancient Rome, identifies nonreligious factors in conversion, and examines the influence of Constantine

Christianity in the Roman Empire Robert E. Winn, 2018 Christianity in the Roman Empire is a topical and biographical introduction to Christianity before Constantine. While its focus is the historical development of the proto-orthodox community, Robert Winn aims to bridge the gap between contemporary Christians and those who lived in the Roman Empire. To do this, his chapters discuss particular topics such as prayer, biblical interpretation, worship, and persecution, as well as prominent and controversial individuals such as Ignatius of Antioch, Justin Martyr, Melito of Sardis, and Tertullian. Part One addresses the world of the apostolic fathers, Part Two addresses hostility to Christianity and the response of Christians to this antagonism, and Part Three addresses doctrinal and communal issues of the third century. The book will pique readers' interest and provide them with a deeper appreciation for the religious identity of early Christians in the Roman Empire: what they believed and how they lived. Augustus to Constantine Robert McQueen Grant, 2004-01-01 This masterful study of the early centuries of Christianity vividly brings to life the religious, political, and cultural developments through which the faith that began as a sect within Judaism became finally the religion of the Roman empire. First published in 1970, Grant's classic is enhanced with a new foreward by Margaret M. Mitchell, which assesses its importance and puts the reader in touch with the advances of current research.

Impulsore Chresto Jakob Engberg, 2007 Impulsore Chresto reassesses opposition to Christianity AD 50-250. The Roman authorities' persecutions have caught the attention of both the public, intrigued by martyrs, and scholars, arguing that executions were relatively rare. This is not challenged, but the executions are placed in context as the most dramatic aspect of a spectrum of opposition including rumors, polemic, harassment and accusations. Such opposition was taken for granted and rarely described. When studying the preserved texts on trials against Christians, however, it appears that even here relatives, plaintiffs, spectators or local officials played crucial roles. There were as many reasons for opposition as opponents, but some motives reappear in clusters: Christians were perceived as superstitious and ungodly, as endangering peace with the gods and social order.

Christianity in the Later Roman Empire: A Sourcebook David M. Gwynn, 2014-11-20 This sourcebook gathers into a single collection the writings that illuminate one of the most fundamental periods in the history of Christian Europe. Beginning from the Great Persecution of Diocletian and the conversion of Constantine the first Christian Roman emperor, the volume explores Christianity's rise as the dominant religion of the Later Roman empire and how the Church survived the decline and fall of Roman power in the west and converted the Germanic tribes who swept into the western empire. These years of crisis and transformation inspired generations of great writers, among them Eusebius of Caesarea, Ammianus Marcellinus, Julian 'the Apostate', Ambrose of Milan, John Chrysostom, Jerome and Augustine of Hippo. They were also years which saw Christianity face huge challenges on many crucial questions, from the evolution of Christian doctrine and the rise of asceticism to the place of women in the early Church and the emerging relationship between Church and state. All these themes will be made accessible to specialists and general readers alike, and the sourcebook will be invaluable for students and teachers of courses in history and church history, the world of late antiquity, and religious studies.

Christianity in Ancient Rome Bernard Green,2010 The reader is taken on a journey from the earliest roots of Christianity to its near acceptance as religion of the Roman Empire. The reader is taken from the very first generation of Christians in Rome, a tiny group of Jews who acknowledged Jesus as the Messiah, down to the point when Christianity had triumphed over savage persecution and was on the verge of becoming the religion of the Roman Empire. Rome was by far the biggest city in the Roman world and this had a profound effect on the way Christianity developed there. It became separate from Judaism at a very early date. The Roman Christians were the first to suffer savage persecution at the hands of Nero. Rome saw the greatest theological movements of the second century thrashing out the core doctrines of the Christian faith. The emergence of the papacy and the building of the catacombs gave the Roman Church extraordinary influence and prestige in the third century, another time of cruel persecution. And it was in Rome that Constantine's patronage of the Christian faith was most evident as he built great basilicas and elevated the personal status of the Pope.

Christianity and the Roman Empire William Edward Addis,2008

Christianity and the Roman Empire from Nero to Theodosius Paul Allard,2017 Several emperors persecuted the Christians: Nero, Domitian, Marcus Aurelius, Sulpicius, Decius, Valerian, and especially Diocletian, who unleashed the great prosecution from 303 to 312. Diocletian's Persecution Edict stated that all churches throughout the empire were to be destroyed and all sacred books burned. Many Christians lost their social rank and privileges, while Christian slaves could not be freed. In some places, the Christians were tortured, beheaded, exiled, or sent to the beasts. But the Church found defenders in the second-century apologists, such as Justin Martyr, Athenagoras, Theophilus of Antioch, and Tertullian, who argued that the persecutions were illegal and unjust. Tertullian's statement became axiomatic: the blood of the martyrs is the seed of Christians. When Constantine converted from sun worship to Christianity in 310, he prepared the ground for the Byzantine state. Christianity was recognized as a lawful religion in 313. But much more lay in store for the early Church, including the tumultuous years of Emperor Julian, who sought to return the empire to the worship of the old gods, and initiated repressive measures against Christians. Only in 380 did Theodosius I make Christianity the official religion of the Roman empire. The history of the persecutions reminds us that the spread of Christianity took place against considerable opposition. In our own day, Christians face another kind of test in a world that is increasingly secularized. Allard's book offers timely reminders of how early Christians maintained their identity as a minority in the midst of official suspicion. -- from back cover.

Early Christians Adapting to the Roman Empire Niko Huttunen,2020-03-31 In *Early Christians Adapting to the Roman Empire: Mutual Recognition* Niko Huttunen challenges the interpretation of early Christian texts as anti-imperial documents. He presents examples of the positive relationship between early Christians and the Roman society. With the concept of “recognition” Huttunen describes a situation in which the parties can come to terms with each other without full agreement. Huttunen provides examples of non-Christian philosophers recognizing early Christians. He claims that recognition was a response to Christians who presented themselves as philosophers. Huttunen reads Romans 13 as a part of the ancient tradition of the law of the stronger. His pioneering study on early Christian soldiers uncovers the practical dimension of recognizing the empire.

Christian Intellectuals and the Roman Empire Jared Secord,2021-05-06 Early in the third century, a small group of Greek Christians began to gain prominence and legitimacy as intellectuals in the Roman Empire. Examining the relationship that these thinkers had with the broader Roman intelligentsia, Jared Secord contends that the success of Christian intellectualism during this period had very little to do with Christianity itself. With the recognition that Christian authors were deeply engaged with the norms and realities of Roman intellectual culture, Secord examines the thought of a succession of Christian literati that includes Justin Martyr, Tatian, Julius Africanus, and Origen, comparing each to a diverse selection of his non-Christian contemporaries. Reassessing Justin’s apologetic works, Secord reveals Christian views on martyrdom to be less distinctive than previously believed. He shows that Tatian’s views on Greek culture informed his reception by Christians as a heretic. Finally, he suggests that the successes experienced by Africanus and Origen in the third century emerged as consequences not of any change in attitude toward Christianity by imperial authorities but of a larger shift in intellectual culture and imperial policies under the Severan dynasty. Original and erudite, this volume demonstrates how distorting the myopic focus on Christianity as a religion has been in previous attempts to explain the growth and success of the Christian movement. It will stimulate new research in the study of early Christianity, classical studies, and Roman history.

The Making of a Christian Empire Elizabeth DePalma Digeser,2000 *The Making of a Christian Empire* is the first full-length book to interpret the *Divine Institutes* as a historical source. Exploring Lactantius's use of theology, philosophy, and rhetorical techniques, Digeser perceives the *Divine Institutes* as a sophisticated proposal for a monotheistic state that

intimately connected the religious policies of Diocletian and Constantine, both of whom used religion to fortify and unite the Roman Empire.--BOOK JACKET.

Christianity and the Roman Empire (Classic Reprint) William E. Addis, 2015-06-28 Excerpt from Christianity and the Roman Empire The early history of Christianity cannot be uninteresting to those who wish to be counted among the disciples of Jesus. During the first three hundred years of its existence, the tendencies which afterwards marked the great Churches of Christendom, began clearly to display themselves. And even within this short period the complex movement to which we give the name of Christianity, may be treated from several different points of view. It may be regarded as the manifestation of a great moral and religious impulse, and the stress will then fall on its power of quickening the inner forces of character, and transforming the whole standard of feeling and action. Roman Faith and Christian Faith Teresa Morgan, 2015-05-29 This study investigates why 'faith' (pistis/fides) was so important to early Christians that the concept and praxis dominated the writings of the New Testament. It argues that such a study must be interdisciplinary, locating emerging Christianities in the social practices and mentalités of contemporary Judaism and the early Roman empire. This can, therefore, equally be read as a study of the operation of pistis/fides in the world of the early Roman principate, taking one but relatively well-attested cult as a case study in how micro-societies within that world could treat it distinctively. Drawing on recent work in sociology and economics, the book traces the varying shapes taken by pistis/fides in Greek and Roman human and divine-human relationships: whom or what is represented as easy or difficult to trust or believe in; where pistis/fides is 'deferred' and 'reified' in practices such as oaths and proofs; how pistis/fides is related to fear, doubt and scepticism; and which foundations of pistis/fides are treated as more or less secure. The book then traces the evolution of representations of human and divine-human pistis in the Septuagint, before turning to pistis/pisteuein in New Testament writings and their role in the development of early Christologies (incorporating a new interpretation of pistis Christou) and ecclesiologies. It argues for the integration of the study of pistis/pisteuein with that of New Testament ethics. It explores the interiority of Graeco-Roman and early Christian pistis/fides. Finally, it discusses eschatological pistis and the shape of the divine-human community in the eschatological kingdom.
