**Think and Grow Rich** Napoleon Hill, 2014-04-09 Think and Grow Rich - The Thirteen Steps to Riches - The Complete Edition by Napoleon Hill - Brand New Copy - Think and Grow Rich is a 1937 motivational personal development and self-help book by Napoleon Hill and inspired by a suggestion from Scottish-American businessman Andrew Carnegie. While the title implies that this book deals with how to get rich, the author explains that the philosophy taught in the book can be used to

help people succeed in all lines of work and to do or be almost anything they want. Jim Murray (sportswriter) wrote that Think and Grow Rich was credited for Ken Norton's boxing upset of Muhammad Ali in 1973. The Reverend Charles Stanley writes, I began to apply the principles of (Think and Grow Rich) to my endeavors as a pastor, and I discovered they worked! The book was first published during the Great Depression. At the time of Hill's death in 1970, Think and Grow Rich had sold more than 20 million copies and by 2011 over 70 million copies had been sold worldwide. It remains the biggest seller of Napoleon Hill's books. BusinessWeek Magazine's Best-Seller List ranked it the sixth best-selling paperback business book 70 years after it was published. Think and Grow Rich is listed in John C. Maxwell's A Lifetime Must Read Books List. The text of Think and Grow Rich is founded on Hill's earlier work The Law of Success, the result of more than twenty years of research based on Hill's close association with a large number of individuals who achieved great wealth during their lifetimes. At Andrew Carnegie's bidding, Hill studied the characteristics of these achievers and developed 16 laws of success meant to be applied by people to achieve success. Think and Grow Rich condenses these laws further and provides the reader with 13 principles in the form of a philosophy of personal achievement. International Speaker Mark Victor Hansen says time has proven 2 of the laws/principles to be most important: 1) The MasterMind principle/process and 2) Know very clearly where you want to go. It is noted in the book that an individual with desire, faith and persistence can reach great heights by eliminating negative energy and thoughts and focusing on the greater goals in hand. The 13 steps listed in the book are: 1. Desire 2. Faith 3. Autosuggestion 4. Specialized Knowledge 5. Imagination 6. Organized Planning 7. Decision 8. Persistence 9. Power of the Master Mind 10. The Mystery of Sex Transmutation 11. The Subconscious Mind 12. The Brain 13. The Sixth Sense

distilled a success formula so simple that anyone can apply it--and yet so demanding that only a minority of the population ever fully lives it out. Upon it was built a success philosophy that explains how human desires can be translated into material reality, a framework that rests upon the power of thoughts to seek expression in physical form. Through this singular concept, the world's wealthiest and most successful individuals--rich in money, relationships, power, peace of mind, and social standing--have built and maintained their prosperity. It is the foundational principle of Napoleon Hill's Science of Success program, an achievement philosophy that effectively helped end the Great Depression and that has since made more millionaires, cultural icons, and thought leaders than any other. Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age thirteen as a mountain reporter for small-town newspapers. During that interview, Carnegie shared the secrets that had enabled him to acquire hundreds of millions of dollars--a magic law of the human mind, a little-known psychological principle that was amazing in its power. Believing that this magic formula should be shared with those who did not have the time or resources to discover it on their own, Carnegie tasked Hill with spending twenty years or more developing this principle into a philosophy of personal success. This research would be conducted without pay; Carnegie merely provided Hill with access to over five hundred of America's greatest business leaders in order to test his success formula. In 1937, after twenty-nine years of research and writing, Hill published *Think and Grow Rich*, which contains the thirteen success principles that form the core of the Science of Success. Since its release, it has sold over one hundred million copies worldwide. No literary work in the personal development genre has had a greater creative impact than *Think and Grow Rich*.
