Tropical Marine Mollusks Edward J. Petuch,David P. Berschauer,2020-12-10 Marine biogeography, the study of the spatial distribution of organisms in the world's oceans, is one of the most fascinating branches of oceanography. This book continues the pioneering research into the distributions of molluscan faunas, first studied by biologists over 160 years ago. It illustrates 1778 species of gastropods in full color, many of which are extremely rare and poorly known endemic species that are illustrated for the first time outside of their original descriptions. The spatial arrangements of malacofaunas shown in this book can be considered proxies for worldwide oceanic conditions and used as tools for determining patterns of global climate change. The book's documentation of evolutionary hot spots and geographically restricted endemic faunas can also be used as a base line for future studies on patterns of environmental deterioration and extinction in the marine biosphere. Documenting the evolution of the amazingly rich worldwide gastropod fauna, this book will appeal to physical and chemical oceanographers, systematic and evolutionary biologists, historical geologists, paleontologists, climatologists, geomorphologists, and physical geographers. The authors incorporate aspects of all of these disciplines into a new classification system for the nomenclature of biogeographical spatial units found in tropical, subtropical, and warm temperate seas.

The geographically organized volumes include: * Volume 1: The Americas * [1-884964-00-1] * Volume 2: Northern Europe * [1-884964-01-X] * Volume 3: Southern Europe * [1-884964-02-8] * Volume 4: Middle East & Africa * [1-884964-03-6] * Volume 5: Asia & Oceania * [1-884964-04-4]

Encyclopedia of Sacred Places Norbert C. Brockman, 2011-09-13 Now thoroughly revised and updated, this encyclopedia documents the diversity of shrines, temples, holy places, and pilgrimage sites sacred to the world's major religious traditions, and illustrates their elemental place in human culture. As interest increases in the role of world religions in history and international affairs, the new edition of *Encyclopedia of Sacred Places*—which arrives 15 years after the publication of the original edition—provides new and updated information on site-specific religious practice and spiritually significant locations around the globe. While many of the entries describe specific places, like the Erawan Shrine and the Rock of Cashel, others examine types of sacred sites, pilgrimages, and practices. With articles that describe both the places and their associated traditions and history, this reference book reveals the enormous diversity and cultural significance of religious practice worldwide. For students and teachers of classes ranging from high school geography to university-level courses in religious studies, geography, anthropology, and sociology, this book provides essential reference on places of great significance to the world's various faith traditions.

Gorée Island Taharkah Kush, 2025-10-14 *Gorée Island: Door of No Return* by Taharkah Kush is a powerful journey into one of the most haunting and sacred sites of the African diaspora. Off the coast of Dakar, Senegal, Gorée Island stands as both a place of unspeakable pain and enduring spirit, the last African soil touched by millions before their forced voyage into slavery. Kush masterfully blends history, reflection, and cultural insight to reveal the island's soul, its role in the transatlantic slave trade, and its significance today as a beacon of memory and resilience. This compelling book is more than a historical account; it's a call to remember, reconnect, and reclaim. Rich in emotional depth and historical detail, *Gorée Island: Door of No Return* is essential reading for anyone seeking to understand the legacy of slavery and the enduring strength of African identity. Purchase this book to deepen your connection to this magical and unforgettable island.

Senegal History and Tourism, Goree Sampson Jerry, Anderson Jones, 2015-12-19 Senegal is the center of tourism in West Africa. Sunny Senegal, the westernmost country on the African continent, sees about a million visitors a year. The country's 350 miles of coastline along the Atlantic Ocean traditionally has been one of its major draws. If you are looking for more than a resort vacation, Senegal also has plenty of tourist attractions inland: parks crawling with wildlife, massive mosques and historic sites recalling the dark days of slavery Senegal's beach resorts are the genesis of its modern tourism industry, dating back to the country's first Club Med that opened in the 1970s. Many of these beaches are close to the capital Dakar: Plage Bel-Air, N'Gor Island and Yenn. To its south is a nearly 100-mile stretch of sandy beach known as the Petite Cote, dotted with assorted small fishing villages Goree Island, off Dakar's coast, is one of the country's most-visited historic sites. The island, also a UNESCO World Heritage Site. This eBook titled: *Tourism in Senegal and Goree Island* is provided for your Guide and

St. James Guide to Black Artists Thomas Riggs,1997 St. James's unique biographical dictionary provides information concerning approximately 400 artists, nearly 300 of whom were living at the time of publication. Although the focus is on fine artists--sculptors, painters, and printmakers--the index groups artists by medium, listing photographers, illustrators, ceramists, performance artists, filmmakers, quilt makers, wood-carvers, and fiber artists. An index of nationalities lists 26 groups from Europe, Africa, and the Caribbean, but US artists predominate (approximately 300); Nigerians and Jamaicans are the second largest groups, with 16 listings each. The signed entries profile the artist and list the artist's exhibitions, the institutions holding the artist's work, and the artist's publications. Many entries provide photographs of the artists or examples of their work. All illustrations are black-and-white reproductions and are indexed separately. A four-part subject bibliography covers general works and works on African, African American, and Caribbean art. Profiles of some 80 advisers and contributors constitute the last section. College and university libraries and large public libraries need this survey of black artists. Copyright 1999 American Library Association.
