Common Core Curriculum Maps in English Language Arts, Grades K-5 Great Minds, 2011-10-19 The first books to present specific guidance for teaching the Common Core State Standards Forty-three states plus the District of Columbia and the U.S. Virgin Islands have signed on to adopt the Common Core State Standards (CCSS). The need for curriculum guides to assist teachers in helping students meet these standards has become imperative. Created by teachers, for teachers, the research-based curriculum maps in this book present a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS, yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans, and more Teachers can use the maps to plan their year and craft their own more detailed lesson plans Any teacher, school, or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.

Common Core Curriculum: English, Grades K-5 Great Minds, 2014-05-06 Common Core's English resources empower educators to meet the expectations of the Common Core State Standards (CCSS) for English Language Arts (ELA) and build essential content knowledge for students in grades K-5. Each grade in The Wheatley Portfolio features a comprehensive, coherent sequence of thematic units that engage students in deep study of worthwhile texts and topics. Features of this book include: Six thematic units for each grade, each centered on a curated collection of literary and informational texts Focus standards for each unit that complement the topic and promote student mastery of essential literacy skills Suggested texts and activities to incorporate science, art, and history into English instruction This revised second edition includes a sample text study that guides students through a close read of an exemplary text, updated web resources, and refreshed suggested works. Educators who create their curriculum based on Common Core's Wheatley Portfolio guarantee that students are exposed to content-rich instruction and have ample opportunity to master the reading, writing, speaking, listening, and language skills articulated in the CCSS for ELA.

Snow Is Falling Franklyn M. Branley, 2000-01-05 Snow is falling. Snow is wonderful - for sledding, for skiing, and for

building snowmen. But did you know that snow can actually keep things warm? Find out how snow helpf plants, animals, and people to survive. But when a blizzard blows, watch out! The snow that is so useful can be dangerous too. Franklyn M. Branley and Holly Keller team up for a fun and colorful exploration of the world of snow, including experiments and activities for cold winter days. A Let's Read and Find Out Science book, for Stage 1.

Be a Friend to Trees Patricia Lauber,1994-01-30 Why should you be a friend to trees? Trees are a valuable natural resource. People depend on trees for food, and animals depend on trees for food and shelter. But most important, we depend on trees because they add oxygen, a gas we all need, to the air. While trees give us many wonderful products, we must also protect them because we can't live without them.

Building Foundations of Scientific Understanding Bernard J. Nebel Ph.D.,2014-10-09 Building Foundations of Scientific Understanding (BFSU) - BFSU is for teachers, homeschoolers, and other educators to deliver a first-rate science education to K-8 students and older beginning-science learners. Vol. I (here) is for grades K-2 and older beginning-science learners. Volumes II and III are for grades 3-5, and 6-8, and older progressing science learners. BFSU provides both teaching methodologies and detailed lesson plans embracing and integrating all the major areas of science. BFSU lessons follow structured learning progressions that build knowledge and develop understanding in systematic incremental steps. BFSU lessons all center around hands-on experience and real-world observations. In turn, they draw students to exercise their minds in thinking and drawing rational conclusions from what they observe/experience. Therefore, in following BFSU, students will be guided toward conceptual understanding of crosscutting concepts and ideas of science, as well as factual knowledge, and they will develop mind skills of scientific thinking and logical reasoning in the process. Implementing BFSU requires no particular background in either science or teaching. Teachers/parents can learn along with their children and be excellent role models in doing so. Already widely used and acclaimed in its 1st edition form, this second edition of BFSU contains added elements that will make it more useful in bringing students to master the Next Generation Science Standards (NGSS).
