Bibliothek für Zeitgeschichte (Germany)

The Portuguese at War Nuno Severiano Teixeira, 2019-05-28 From war campaigns to peacekeeping operations, *The Portuguese at War* presents an overview of the conflicts, wars and revolutions in which Portugal was involved from the nineteenth century to the present day. From the French invasions to the civil wars, from the African Empire to the wars of decolonisation, from belligerence in the First World War to neutrality in the Second, from participation in the Atlantic Alliance to peacekeeping operations in Kosovo, East Timor, Lebanon and Afghanistan. The book addresses the military interventions in politics and the role of the countrys political regimes in military reform: from the Liberal Revolutions to the Republic, from the military dictatorship and authoritarian regime to the 25th of April Revolution and the transition to democracy. The historical record of Portugals war involvement is not only closely aligned to international and European circumstance but to internal factors: the economy, society, public opinion and political/military power. A historical perspective must of necessity link Portuguese war excursions with the military institutions in place at the time: their recruitment system, social composition and organisation of the army, navy and air force; the military ethos; the evolution of equipment, weapons and military technologies; strategic military doctrine and how this impacted on tactics and military operations; and of course the war outcomes. Special attention is given to the effects of international isolation after the Estado Novo, and post-Cold War europeanisation. The book does not eschew the plurality of interpretative theories. Rather, it seeks to combine historical accuracy of the Portuguese at war within a highly readable literary narrative aimed not only at undergraduate and research levels, but at a broader public audience interested in the complex reach and role of Portugal in world history.

Remembering World War II Refugees in Contemporary Portugal Verena Lindemann Lino, 2021-08-23 This book takes an innovative approach to the study of memories of transit and exile in Portugal between 1933 and 1945 in artistic media. Informed by contemporary debates within memory and translation studies, it develops a translational perspective on transcultural memory and explores its ethical implications. This study provides an in-depth analysis of Daniel Blaufuks's inter-art project *Sob Céus Estranhos*, Domingos Amaral's novel *Enquanto Salazar Dormia* and João Canijo's documentary *Fantasia Lusitana*. It examines the heterocultural networks of signification that these artistic media mobilize to implicate the presence of World War II refugees in Portugal in contemporary negotiations of communality. By approaching memory

through a translational lens on culture, this book also offers new perspectives on remediation, memory transfer and the ethical dimensions of remembrance in the context of transcultural memory and migration.

10 Lisbon Stories Joke Langens, Dirk Timmerman, 2022-06-01 CITIES ARE ENDLESS SOURCES OF STORIES. And Lisbon, lady and lass (menina e moça), is an infinite city: a safe haven for various peoples, home to several dynasties and a starting point of voyages to all corners of the globe. As one of the oldest capital cities in Europe, in one of the continent's oldest countries, Lisbon has been witness to centuries of history. The city of seven hills has a thousand different faces, all carved into its cobblestone pavements and tile-covered walls and hidden in the ruins of past civilisations beneath the monuments still standing to this day. There is no corner, street or nook in this Atlantic city that is not filled with stories to tell, whether forgotten, still very much alive or sui generis. And even for born and raised *alfacinhas* (Lisboners), the obvious can serve as a disguise for the not so obvious. If you wish to discover or rediscover its history, here are ten stories to do so: from the ancient to the old and the modern to the futuristic.

Contemporary Portugal António Costa Pinto, 2003 Liquid Metal brings together 'seminal' essays that have opened up the study of science fiction to serious critical interrogation. Eight distinct sections cover such topics as the cyborg in science fiction; the science fiction city; time travel and the primal scene; science fiction fandom; and the 1950s invasion narratives. Important writings by Susan Sontag, Vivian Sobchack, Steve Neale, J.P. Telotte, Peter Biskind and Constance Penley are included.

The United States, Portugal, and the Azores (1941-1979) Luis Nuno Rodrigues, 1997

Cultural Translation and Knowledge Transfer on Alternative Routes of Escape from Nazi Terror Susanne Korbel, Philipp Strobl, 2021-08-05 The book investigates and compares the role of artistic and academic refugees from National Socialism acting as cultural mediators or agents of knowledge between their origin and host societies. By doing so, it locates itself at the intersection of the recently emerging field of the history of knowledge, transnational history, migration, exile, as well as cultural transfer studies. The case studies provided in this volume are of global scope, focusing on routes of escape and migration to Iceland, Italy, the Near East, Portugal and Shanghai, and South-, Central-, and North America. The chapters examine the hybrid ways refugees envisaged, managed, organized, and subsequently mediated their migrations. It focuses on how they dealt with their escape in their art and science. The chapters ask how the emigrants located themselves--did they associate with ethnic, religious, and/or cultural affiliations, specific social classes, or specific parts of society--and how such identifications were portrayed in their knowledge transfer and cultural translations. Building on such possible avenues for research, this volume aims to offer a global analysis of the multifarious processes not only of cultural translation and knowledge transfer affecting culture, sciences, networks, but also everyday life in different areas of the world.

The Portuguese Economy Since 1974 David Corkill,1993 Now, with the country set to compete with its European rivals on equal terms, David Corkill places it within the context of the EEC and Southern Europe, detailing its economic development and exploring a number of interrelated themes: the legacy of dictatorship; the impact of the 1974 revolution; the economic crisis of the 1970s and early 1980s; and the economic boom following EEC accession.
