**EBOOK: SCHOOLING SEXUALITIES** Debbie Epstein, Richard Johnson, 1998-01-16 In Schooling Sexualities, Debbie Epstein and Richard Johnson bring together contemporary debates about sexuality with the study of schooling. They pose controversial questions. How far is schooling influenced by wider public debates and scandals about sexuality? How can we

understand the role and limits of moral traditionalism? What has the impact of feminism and the lesbian and gay movement been? How have these radical influences been recuperated? What part does schooling play in the production of sexual and other identities? Why is sex education in schools so 'impossible'? What are the strategies for improving it? They have written the first sustained study of these questions - accessible, engaging and argumentative. This will be a key text for teachers and policy makers, for those concerned with sexual and educational politics and for students of sexuality, gender, cultural studies and the history and sociology of education.

**EBOOK: Deconstructing Special Education** Gary Thomas, Andrew Loxley, 2007-08-16 This revised edition of a popular text offers students an updated and comprehensive overview across special education. It critically examines the intellectual foundations of special education and considers the consequences of their influence for professional and popular thinking about learning difficulties. The chapters place inclusion within a social and political context to highlight how concepts have been influenced by theory and ideology across the years. The book offers guidance to students on specific issues such as reading and behavioural difficulties with theoretically grounded information. With a fresh chapter discussing current research, intersectionality and increased marketisation within education this book reflects the new landscape and legislation of special education. "Essential reading for anyone studying or working in either special or inclusive education... Few could build the case as well as Thomas and Loxley." Melanie Nind, Professor of Education, University of Southampton, UK "Few books in the field of education merit the soubriquet 'must read'. This is one such. Philip Garner, Professor, Brunel University, UK "An absolute must-read for all of us committed to realising genuine inclusion within schools and society!" Jan Valle, The City College of New York, USA Finishing your first reading of their book makes you realise that you must return to it, such is the richness of the analysis and reach of its detail. This is a tour de force, a line in the sand for all successive work in the field of inclusive education. Roger Slee, Diamond Jubilee Professor of Disability Studies, University of Leeds, UK

**EBOOK: TEACHING THROUGH PLAY** Neville Bennett, 1997-01-16 This book is based on the findings of a research project into Reception Teachers' Theories of Play funded by the Economic & Social Research Council. There is strong ideological and theoretical support for a play-based curriculum in the early years. But evidence suggests that teachers find this difficult to translate into practice. The educational potential of play is not realized. This study focuses on nine reception class teachers, ranging from novices to experts, in order to discover their theories of play and how these relate to classroom practice. The data reveal new insights into how they strive to incorporate play into the curriculum in contrasting ways and the constraints they encounter in this process. There is a need to improve the quality of teaching and learning through play. *Teaching Through Play* makes a valuable contribution to this process.

**EBOOK: Education and the Struggle for Democracy** Wilfred Carr, Anthony Hartnett, 1996-03-16 During the past decade there has been a series of radical changes to the educational system of England and Wales. This book argues that any serious study of these changes has to engage with complex questions about the role of education in a modern liberal democracy. Were these educational changes informed by the needs and aspirations of a democratic society? To what extent will they promote democratic values and ideals? These questions can only be adequately addressed by making explicit the political ideas and the underlying philosophical principles that have together shaped the English educational system. To this end, the book provides a selective history of English education which exposes the connections between decisive periods of educational change and the intellectual and political climate in which it occurred. It also connects the educational policies of the 1980s and 90s to the political ideas of the New Right in order to show how they are part of a broader political strategy aimed at reversing the democratic advances achieved through the intellectual and political struggles of the nineteenth and twentieth centuries. The book proposes that a democratic educational vision can only effectively be advanced by renewing the 'struggle for democracy' - the historical struggle to create forms of education which will empower all citizens to participate in an open, pluralistic and democratic society.

**EBOOK: Childhood and Human Value: Development, Separation and Separability** Nick Lee, 2005-07-16 At the centre of Nick Lee's new book is a subtle exploration of the 'separability' of adults and children. Through this the recent

emergence of children as participants in social life is given a fresh perspective, one that is unsettling to opponents and proponents of children's rights alike. Crucial to this, he addresses the relationship between children and adults as part of their shared but problematic human becoming, thus setting out what should, in my view, be the main terrain of childhood studies. This is a book that all scholars of childhood should read and from which they will gain immensely. Alan Prout, Professor of Sociology, University of Stirling For millennia children have been valued as possessions - valued by their parents as 'my' child and valued by communities and cultures as 'belonging' to them. Recently, a new way of valuing children has emerged - valuing them as people in possession of themselves, as people who have rights. This has led to fears that rights will erode love between parents and children, and separate children from their communities and cultures. Childhood and Human Value explains why people feel this way and argues that they are mistaken. Adults in modern societies have separation anxieties about children's rights, because they are used to measuring human value against a standard of 'separateness'. The more separate you appear to be from the opinions and control of others, the more valuable you seem. This highly original and accessible book shows us how to resolve the conflict between 'love' and 'rights' in contemporary relationships between adults and children. Examining a number of Twentieth Century developmental thinkers, including Vygotsky, Winnicott, Gilligan and Deleuze and Guattari, Nick Lee argues that a more flexible and realistic understanding of the sources of human value is available to us, based on 'separability'. Childhood and Human Value is key reading for students in a variety of fields including sociology of childhood, family studies, sociology of education, psychology of development, and childhood studies. It is also of interest to professionals who work with children, for example social workers, teachers, and the police.

**The AGE of INNOCENCE Annotated Book** Edith Wharton,2020-07-20 Mrs. Julius Beaufort, on the night of her annual ball, never failed to appear at the Opera; indeed, she always gave her ball on an Opera night in order to emphasise her complete superiority to household cares, and her possession of a staff of servants competent to organise every detail of the entertainment in her absence. The Beauforts' house was one of the few in New York that possessed a ball-room (it antedated even Mrs. Manson Mingott's and the Headly Chiverses'); and at a time when it was beginning to be thought provincial to put a crash over the drawing-room floor and move the furniture upstairs, the possession of a ball-room that was used for no other purpose, and left for three-hundred-and-sixty-four days of the year to shuttered darkness, with its gilt chairs stacked in a corner and its chandelier in a bag; this undoubted superiority was felt to compensate for whatever was regrettable in the Beaufort past. Mrs. Archer, who was fond of coining her social philosophy into axioms, had once said: We all have our pet common people-- and though the phrase was a daring one, its truth was secretly admitted in many an exclusive bosom. But the Beauforts were not exactly common; some people said they were even worse. Mrs. Beaufort belonged indeed to one of America's most honoured families; she had been the lovely Regina Dallas (of the South Carolina branch), a penniless beauty introduced to New York society by her cousin, the imprudent Medora Manson, who was always doing the wrong thing from the right motive. When one was related to the Mansons and the Rushworths one had a droit de cite (as Mr. Sillerton Jackson, who had frequented the Tuileries, called it) in New York society; but did one not forfeit it in marrying Julius Beaufort?
