Additional material is available online providing relevant spreadsheets and simulation files for all the models and examples presented in the book.

The Light at the End John Skipp, Craig Spector, 1986 The groundbreaking novel of new age horror from the masters of Splatterpunk, Skipp and Spector. A brutal killer is stalking New York City's underground--a killer the tabloids call the Subway Psycho. But what they're looking for isn't even human. His kind has ruled the night for centuries, and down in the tunnels, the night lasts forever.

Fischer-Tropsch Refining Arno de Klerk, 2011-08-29 The Fischer-Tropsch process is gaining recognition again due to the world-wide increase in energy needs and decrease in oil availability. The increasing interest in utilizing biomass as a potential renewable feedstock in energy generation is further supporting this development. The book covers the production and refining of Fischer-Tropsch syncrude to fuels and chemicals systematically and comprehensively, presenting a wealth of new knowledge and material. As such, it deals extensively with aspects of engineering, chemistry and catalysis. This handbook and ready reference adopts a fundamental approach, looking at the molecules and their transformation from feed to product. Numerous examples illustrate the possibilities and limitations of Fischer-Tropsch syncrude as feedstock. Of great interest to everyone interested in refining - not just Fischer-Tropsch specialists.
