**Queer Natures, Queer Mythologies** Sam See,2020-01-07 Queer Natures, Queer Mythologies collects in two parts the scholarly work—both published and unpublished—that Sam See had completed as of his death in 2013. In Part I, in a thorough reading of Darwin, See argues that nature is constantly and aimlessly variable, and that nature itself might be considered queer. In Part II, See proposes that, understood as queer in this way, nature might be made the foundational myth for the building of queer communities. With essays by Scott Herring, Heather Love, and Wendy Moffat.

**The Harlem Renaissance: Authors A-H** Janet Witalec,2003 Presents writings by and criticism on sixteen Harlem Renaissance authors, including Langston Hughes and Zora Neale Hurston. This volume covers A-H.

*Langston Hughes* Laurie Leach,2004-06-30 This biography traces Hughes' life and artistic development, from his early years of isolation, which fostered his fierce independence, to his prolific life as a poet, playwright, lyricist, and journalist. Hughes' inspiring story is told through 21 engaging chapters, each providing a fascinating vignette of the artistic, personal, and political associations that shaped his life. Recounted are the pivotal developments in his literary career, with all its struggles and rewards, as well as his travel adventures to Africa, Europe, and Asia, and his political commitments to fight fascism as well as racism. Langston Hughes was raised by a grandmother who actively aided the Underground Railroad, and his first forays into poetry reflected personal tales of slavery and heroism. Through his poetry, Hughes lived up to a proud tradition and continued the uplifting legacy of his race. He was a renaissance man in nearly every aspect of his life, and his name has become synonymous with the Harlem Renaissance movement he helped launch. This biography traces Hughes' life and artistic development, from his early years of isolation, which fostered his fierce independence, to his prolific life as a poet, playwright, lyricist, and journalist. Hughes' inspiring story is told through 21 engaging chapters, each providing a

fascinating vignette of the artistic, personal, and political associations that shaped his life. Recounted are the pivotal developments in his literary career, with all its struggles and rewards, as well as his travel adventures to Africa, Europe, and Asia, and his political commitments to fight fascism as well as racism. A timeline, a selected bibliography of biographical and critical sources, and a complete list of Hughes' writings complete the volume.

*The New Red Negro* James Edward Smethurst, 1999-04-15 The New Red Negro surveys African-American poetry from the onset of the Depression to the early days of the Cold War. It considers the relationship between the thematic and formal choices of African-American poets and organized ideology from the proletarian early 1930s to the neo-modernist late 1940s. This study examines poetry by writers across the spectrum: canonical, less well-known, and virtually unknown. The ideology of the Communist Left as particularly expressed through cultural institutions of the literary Left significantly influenced the shape of African-American poetry in the 1930s and 40s, as well as the content. One result of this engagement of African-American writers with the organized Left was a pronounced tendency to regard the re-created folk or street voice as the authentic voice--and subject--of African-American poetry. Furthermore, a masculinist rhetoric was crucial to the re-creation of this folk voice. This unstable yoking of cultural nationalism, integrationism, and internationalism within a construct of class struggle helped to shape a new relationship of African-American poetry to vernacular African-American culture. This relationship included the representation of African-American working class and rural folk life and its cultural products ostensibly from the mass perspective. It also included the dissemination of urban forms of African-American popular culture, often resulting in mixed media high- low hybrids.

Afro-American Writers from the Harlem Renaissance to 1940 Trudier Harris, Thadious M. Davis, 1987 Contains alphabetically arranged entries that provide career biographies of thirty-four African-American writers active between the Harlem Renaissance and 1940; each with a list of principal works and a bibliography.

**Encyclopedia of American Poetry: The Twentieth Century** Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry: The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems, along with many articles devoted to topics, schools, or periods of American verse in the century. Entries fall into three main categories: poet entries, which provide biographical and cultural contexts for the author's career; entries on individual works, which offer closer explication of the most resonant poems in the 20th-century canon; and topical entries, which offer analyses of a given period of literary production, school, thematically constructed category, or other verse tradition that historically has been in dialogue with the poetry of the United States.

Martin Luther King Jr., Heroism, and African American Literature Trudier Harris, 2014-11-15 Defiance of the law, uses of indirection, moral lapses, and bad habits are as much a part of the folk-transmitted biography of King as they are a part of

writers' depictions of him in literary texts. Harris first demonstrates that during the Black Arts Movement of the 1960s, when writers such as Nikki Giovanni, Sonia Sanchez, and LeRoi Jones (Amiri Baraka) were rising stars in African American poetry, King's philosophy of nonviolence was out of step with prevailing notions of militancy (Black Power), and their literature reflected that division. In the quieter times of the 1970s and 1980s and into the twenty-first century, however, treatments of King and his philosophy in African American literature changed. Writers who initially rejected him and nonviolence became ardent admirers and boosters, particularly in the years following his assassination. By the 1980s, many writers skeptical about King had reevaluated him and began to address him as a fallen hero.

**Harlem Renaissance and Beyond** Lorraine Elena Roses, Ruth Elizabeth Randolph, 1990 In this ground-breaking collection of literary biographies, many with pictures, authors Lorraine Elena Roses and Ruth Elizabeth Randolph chronicle the lives and works of 100 black women novelists, short-story writers, playwrights, poets, essayists, critics, historians, journalists, and editors writing in the United States between 1900 and 1945. Here are insightful portraits of famous black women, among them Zora Neale Hurston, Katherine Dunham, Angelina Weld Grimké, Mary Eliza Church Terrell, and Ida Bell Wells-Barnett. Here, too, are many thoughtful profiles of neglected writers--their works deserving to be rescued from obscurity. Drawing on extensive archival research and interviews with the writers and their families, *The Harlem Renaissance and Beyond* traces its subjects' contributions to literature, their concerns about race and gender, their common themes, their relationships with artistic contemporaries, and the influence of these early writers on their modern-day counterparts in American literature.
