An absorbing and emotionally riveting story about what it's like to live during times of crisis." —The New York Times Book Review A dazzling novel of friendship and redemption in the face of tragedy and loss set in 1980s Chicago and contemporary Paris In 1985, Yale Tishman, the development director for an art gallery in Chicago, is about to pull off an amazing coup, bringing in an extraordinary collection of 1920s paintings as a gift to the gallery. Yet as his career begins to flourish, the carnage of the AIDS epidemic grows around him. One by one, his friends are dying and after his friend Nico's funeral, the virus circles closer and closer to Yale himself. Soon the only person he has left is Fiona, Nico's little sister. Thirty years later, Fiona is in Paris tracking down her estranged daughter who disappeared into a cult. While staying with an old friend, a famous photographer who documented the Chicago crisis, she finds herself finally grappling with the devastating ways AIDS affected her life and her relationship with her daughter. The two intertwining stories take us through the heartbreak of the eighties and the chaos of the modern world, as both Yale and Fiona struggle to find goodness in the midst of disaster. Pandemics in American Popular Culture James Craig Holte, 2025-04-03 From Cold War-era fears of biological warfare to zombie plagues as metaphors for contagion to portrayals of recent experiences with Covid-19, pandemics have featured prominently in American popular culture for decades. Discover more than 90 books, movies, television shows, video games, and other forms of media that focus on historical or fictional disease outbreaks and their devastating results. Readers will find fan-favorites such as *The Stand*, *28 Days Later*, *The Last of Us*, and *Plague Inc.*, as well as many others. Each entry begins with a concise plot summary before delving deeper into the work's key thematic elements and cultural impact. Across a diverse spectrum of media and varied representations of contagion, readers will also better understand the common thematic threads - human fragility and resilience, social responsibility and the search for a cure - connecting these

portrayals.

Already Toast Kate Washington,2021-03-16 The story of one woman’s struggle to care for her seriously ill husband—and a revealing look at the role unpaid family caregivers play in a society that fails to provide them with structural support. Already Toast shows how all-consuming caregiving can be, how difficult it is to find support, and how the social and literary narratives that have long locked women into providing emotional labor also keep them in unpaid caregiving roles. When Kate Washington and her husband, Brad, learned that he had cancer, they were a young couple: professionals with ascending careers, parents to two small children. Brad’s diagnosis stripped those identities away: he became a patient and she his caregiver. Brad’s cancer quickly turned aggressive, necessitating a stem-cell transplant that triggered a massive infection, robbing him of his eyesight and nearly of his life. Kate acted as his full-time aide to keep him alive, coordinating his treatments, making doctors’ appointments, calling insurance companies, filling dozens of prescriptions, cleaning commodes, administering IV drugs. She became so burned out that, when she took an online quiz on caregiver self-care, her result cheerily declared: “You’re already toast!” Through it all, she felt profoundly alone, but, as she later learned, she was in fact one of millions: an invisible army of family caregivers working every day in America, their unpaid labor keeping our troubled healthcare system afloat. Because our culture both romanticizes and erases the realities of care work, few caregivers have shared their stories publicly. As the baby-boom generation ages, the number of family caregivers will continue to grow. Readable, relatable, timely, and often raw, Already Toast—with its clear call for paying and supporting family caregivers—is a crucial intervention in that conversation, bringing together personal experience with deep research to give voice to those tasked with the overlooked, vital work of caring for the seriously ill.

Writing Backwards Alexander Manshel, 2023-11-21 Finalist, 2025 SHARP Book History Book Prize, Society for the Study of the History of Authorship, Reading, and Publishing Contemporary fiction has never been less contemporary. Midcentury writers tended to set their works in their own moment, but for the last several decades critical acclaim and attention have fixated on historical fiction. This shift is particularly dramatic for writers of color. Even as the literary canon has become more diverse, cultural institutions have celebrated Black, Asian American, Latinx, and Indigenous novelists almost exclusively for their historical fiction. *Writing Backwards* explores what the dominance of historical fiction in the contemporary canon reveals about American literary culture. Alexander Manshel investigates the most celebrated historical genres—contemporary narratives of slavery, the World War II novel, the multigenerational family saga, immigrant fiction, and the novel of recent history—alongside the literary and academic institutions that have elevated them. He examines novels by writers including Toni Morrison, Viet Thanh Nguyen, Colson Whitehead, Julia Alvarez, Leslie Marmon Silko, Michael Chabon, Julie Otsuka, Yaa Gyasi, Ben Lerner, and Tommy Orange in the context of MFA programs, literary prizes, university syllabi, book clubs, and the National Endowment for the Arts. Manshel studies how historical fiction has evolved over the last half century, documenting the formation of the newly inclusive literary canon as well as who and what it still excludes. Offering new insight into how institutions shape literature and the limits of historical memory, *Writing Backwards* also considers recent challenges to the historical turn in American fiction.
