**Research Methods for Environmental Studies** Mark Kanazawa, 2023-07-20 The methodological needs of environmental studies are unique in the breadth of research questions that can be posed, calling for a textbook that covers a broad swath of approaches to conducting research with potentially many different kinds of evidence. Fully updated to address new developments such as the effects of the internet, recent trends in the use of computers, remote sensing, and large data sets, this new edition of Research Methods for Environmental Studies is written specifically for social science-based research into the environment. This revised edition contains new chapters on coding, focus groups, and an extended treatment of hypothesis testing. The textbook covers the best-practice research methods most used to study the environment and its connections to societal and economic activities and objectives. Over five key parts, Kanazawa introduces quantitative and qualitative approaches, mixed methods, and the special requirements of interdisciplinary research, emphasizing that methodological practice should be tailored to the specific needs of the project. Within these parts, detailed coverage is provided on key topics including the identification of a research project, hypothesis testing, spatial analysis, the case study method, ethnographic approaches, discourse analysis, mixed methods, survey and interview techniques, focus groups, and ethical issues in environmental research. Drawing on a variety of extended and updated examples to encourage problem-based learning and fully addressing the challenges associated with interdisciplinary investigation, this book will be an essential resource for students embarking on courses exploring research methods in environmental studies.

Independent Thinking on MFL Crista Hazell, 2020-03-09 Crista Hazell's Independent Thinking on MFL: How to make modern foreign language teaching exciting, inclusive and relevant takes teachers on a tour of how to get the teaching of a new language right. Foreword by Ian Gilbert. Learning a new language has the power to transform a life, as well as help break down the barriers that seem to be re-emerging between nations, cultures and people. In the UK, MFL teaching has always had to battle with the 'everyone speaks English' argument, not to mention that, for so many, all that remains of their years learning a foreign language is *bitte*, *por favor* or *s'il vous plait*. But with teachers like Independent Thinking Associate Crista Hazell at the front of the class, things can be very different. Drawing on her many years of experience as an MFL teacher and head of department, Crista shares tips, techniques and inspirational ideas geared to help teachers build confidence, increase enjoyment and improve outcomes as they take their MFL teaching to a whole new level. Crista provides

a range of strategies from how to hook students in the minute they enter the classroom to ensuring that the vocabulary sticks designed to help learners develop confidence, take risks and enjoy the challenge that learning a new language brings. She also offers ideas and advice on how to make learning new vocabulary and grammar a great deal more effective and empowers teachers to open up the benefits and enjoyment of learning a language to all students, not just those in the top sets. Ultimately, however, her book sets out to help teachers create engaging, relevant and memorable learning experiences in the MFL classroom and encourage their learners to become lifelong and passionate linguists. For MFL teachers and heads of languages departments in primary schools, secondary schools and colleges. Independent Thinking on MFL has been shortlisted for the Educational Book Award in the 2021 Education Resources Awards!

From Shame to Glory Nancy Regensburger, Valerie Fons, 2014-10-31 Each woman named in Matthews record of the genealogy of Jesus made a journey from shame to glory. Grandmothers of Jesus included a prostitute, an adulterer, a nomad, and a trickster. His mother became pregnant before marriage. Certainly, Jesus heard the stories of his ancestors and utilized their life lessons as he made his way to the cross. For in spite of the laws and mores of their culture, these women displayed qualities of vision, risk, courage, truthfulness, and openness to Gods gifts all qualities Jesus would rely on in his own journey from shame to glory. Reverend Valerie Fons and Christian Educator Nancy Regensburger share a unique, compelling, and positive presentation of the five women in the first book of Matthew while highlighting how God acts through the weak and powerless to bring forth glory. Through bible study, history lessons, introspective questions, poignant anecdotes, and opportunities for personal reflection, Fons and Regensburger provide a pathway to glory and inspiration for modern women seeking insight on their own spiritual journeys. *From Shame to Glory* offers an interpretation of the genealogy of the significant women in the heritage of Jesus Christ that provides bible study group guidance and inspiration for anyone passionate about embracing Gods grace and wisdom.

**Authentic Classroom Management** Barbara Larrivee, 2005 It is essential for classroom teachers to be reflective. It is critical that they be aware of their own biases and prejudices. Larrivee does an excellent job of gently guiding the teacher through a look at his/her past. The first chapter creates a comfort zone with which the teacher continues to look at his/her past and consequently at his/her treatment of children. Dr. Patricia A. Pinter, St. Mary-of-the-Woods College *Authentic Classroom Management* addresses the basics of classroom management by narrowing the gap between theory and practice to provide realistic and collaborative management options. This easy-to-read, practical text presents a broad theoretical background while focusing on the belief that effective classroom management requires careful preparation and goes beyond learning discrete skills. The text promotes a multi-dimensional and reflective perspective for managing classrooms that will prepare prospective and in-service teachers to successfully manage today's diverse classrooms. Highlighting a comprehensive range of strategies and philosophies, the text encourages alternative ways to support positive classroom behaviors. Its many exercises offer opportunity for skill development through reflection and self-questioning, emphasizing proactive ways of interacting with students to create and sustain a supportive learning community.
