Landscape and Power in Geographical Space as a Social-Aesthetic Construct Olaf Kühne, 2018-02-13 This book examines the power definiteness of landscape from a social constructivist perspective with a particular focus on the importance of aesthetic concepts of landscape in development. It seeks to answer the question of how societal notions of landscape emerge, how they are individually updated and how these ideas affect the use and design of physical space. It also analyzes how physical manifestations of societal activity impact on understandings of individual and societal landscapes and addresses the essential aspect of the social construction of landscape, cultural specificity, which in turn is discussed in the context of the expansion of a western landscape concept. The book offers an unprecedented, comprehensive and detailed examination of societal power relations in the context of landscape development. The numerous case studies from the physical manifestation of modern spatial planning in the United States, the power discourses concerning the design of model railway landscapes, and the medial production of stereotypical landscape notions shed light on the complex and multilayered interactions of collective and individual landscape references. It is a valuable resource for geographers, sociologists, landscape architects, landscape planners and philosophers.

European Integration and Rural Development Michael Kull, 2016-04-22 To understand fully the process of European integration, it is necessary to consider developments at the sub-national and local level. EU integration scholars have been examining the local level using the concept of multi-level governance (MLG) since the 1990s. While MLG was the first concept to scrutinize the position of local levels of public administration and other actors within the EU polity, it overestimates the degree of influence it ascribes to local levels, particularly as far as the rural is concerned. Focusing on Germany and Finland, with country specific information from all EU member states, this book combines MLG with the concept of structural constructivism, in order to reveal some of the hidden aspects of EU integration. Bringing together these concepts and methodologies and replacing mainstream theories of integration with this new approach, offers a more accurate picture of multi-level interaction in rural policy and of the impacts of European integration at the local level. By examining the Community Initiative LEADER+ and setting this within a discussion of the state and structure of rural development policy, this book looks at the challenges, opportunities and policy options which are available and have been

implemented in rural development. It shows that these are often context dependent and that the future of rural development policies, their shape and institutional configuration depend on reforms put in place at all levels of governance. Finally, it argues that the MLG of rural development policy must be built with people who have the know-how and the (local) knowledge to implement development projects and who have made LEADER a success in the past.

From the Highlands to Hollywood Siegfried Gruber, Dominik Gutmeyr, Sabine Jesner, Elife Krasniqi, Robert Pichler, Christian Promitzer, 2020-09-24 This volume is dedicated to the academic achievements of Karl Kaser and to the 50th anniversary of Southeast European History and Anthropology (SEEHA) at the University of Graz. Its editors are collaborators of SEEHA and experts in various fields of Southeast European Studies: Siegfried Gruber, Dominik Gutmeyr, Sabine Jesner, Elife Krasniqi, Robert Pichler, and Christian Promitzer. The Festschrift covers diverse approaches toward the study of societies and cultures in Southeastern Europe, both with respect to history and current affairs, and brings together contributions from several of Kaser's former doctoral students, colleagues, collaborators and friends from across Europe.

Landscape Handbook Olaf Kühne, Florian Weber, Karsten Berr, Corinna Jenal, 2025-10-21 This handbook presents different perspectives on landscapes and illuminates various landscape understandings from different disciplines. Written by experts in the field, it provides an overview of landscape research's current status and sheds light on the future of the field. The handbook examines theoretical perspectives of landscape research, landscape in the context of disciplinary references, meta-perspective approaches to landscape, methods of landscape research and practice, and fields of investigation of landscape research. Therefore, this handbook is an excellent resource for students, lecturers and researchers of landscape architecture, urban and regional planning, social sciences, and geography.

Science, Space, Society Olaf Kühne, Karsten Berr, 2022-09-23 This volume provides a basic introduction to the philosophy of science and its central concepts, theories, and philosophical, scientific, and spatial positions and approaches.

Doing Identity in Luxembourg IPSE – Identités Politiques Sociétés Esp, 2014-03-15 Luxembourg – international financial center, European administrative center, destination country for immigration? This empirical study provides insights about a society that has hitherto largely eluded scientific investigation and observes the processes of identity construction in globalised conditions. The interdisciplinary team of authors exposes the processes of subjective appropriations and institutional attributions at work in the fields of languages, spaces, perceptions of self and others as well as everyday cultures, and identifies for the first time socio-cultural milieus in the Grand Duchy. The findings of the three-year research project uncover the ambivalences and dynamics of a multicultural and multilingual society.

Anti PC-Strategies. How Actors of the Political Right Use the Concept of Political Correctness to Maintain Power and Influence the American Public Jessica Ulrich, 2023-04-21 Examination Thesis from the year 2020 in the subject American

Studies - Culture and Applied Geography, grade: 1,0, University of Würzburg, language: English, abstract: This paper first examines and looks into the definitions, development and sources of political correctness as a cultural concept, which has significantly been coined in a certain direction since its first occurrence. Beforehand, as a framework and to put it into a sociological relevant perspective, Pierre Bourdieu, Bruno Latour and their findings about the connection of language, society and their mutual influence will be discussed. Furthermore, putting theory into practice, three speeches of three different politicians representing anti-PC-strategies via three different sorts of media will be analysed. Moreover, respective repercussions in society will be outlined and associated with results of the analysis. Political Correctness belongs in the dustbin of history, Alice Weidel, faction leader of the far-right populist German party AFD enthusiastically demanded on the nationwide party's conference in 2017. This statement made her and her party's position regarding political correctness perfectly clear. When it comes to the emotional debate about being pro or anti political correctness, it seems to be that the far-right parties across Europe and many conservative politicians in the United States have similar attitudes to this topic. The urgency of exploring and revealing strategies which connect PC and far-right propaganda and thereby coin a dangerous cultural narrative, can be observed for instance in Germany in respect of the predominantly anti-muslim blog Politically Incorrect News (PI news), which is under surveillance of the Bavarian constitution protection and counts 10.000 daily visitors in 2017. The blog's operators describe their site as against mainstream, pro-American and pro-Israeli, and in a constant battle for the German constitution against the 'ideology' of multiculturalism. Now, the United States of America have been functioning and still work in many diverse realms of cultural and respective political changes as a blueprint and virtually as a forecast for developments in Europe. This has been and still is the case with political correctness as a phenomena, which seems to be a connecting piece of society and politics. Consequently, examining and understanding PC and anti-PC as a presumed strategy of politicians of the right means tracing it back to its origins in the U.S.. Eventually, analysing its effects and consequences can possibly provide an idea how to counteract the difficulties which it also causes in Europe.
