**GAIA LEGACY** Rico Paganini, 2021-08-20 Rico Paganini, one of the leading megalithic, geomantic and spiritual researchers has visited all the Earth's major power points. In this book we travel along with him. And we are able to share in his stirring experiences, in sensitive discoveries and the wondrous insights that he was able to gain. He has not compiled them for himself, but for us all. Perhaps he could only manage his adventures travels, bear the travails and overcome some resistance because the spiritual world was on his side accompanied him, encouraged him and led him with direct guidance. These received messages are also an essential and moving part of this book, and are a special feature is astonishing. As is the telling of the tale of the spiritual and material creation, and the fact that Mother Earth is alive and is conscious; our ancestors had not yet forgotten this. He also leads us through the destruction of the environment, climate changes and the increasing natural catastrophes. What have we done? At the same time, he presents us with solution paths, gives us courage and hope in this dramatic turning point; it is not yet too late! Hence, GAIA LEGACY is much more than a travel report and insight into the power points. It is one can say without exaggeration an incomparable book full of awakening and strength, just as the fifteenth power source

**The Return of Planet-X** Jaysen Q. Rand, 2007 The Return of Planet-X is an educational, informational source examining all aspects of this controversial subject including the record of X's Ancient Science of Prophecy, its Phantom Astronomy, Forbidden Archaeology and the Signs Of Its Approach. This book examines the history and prophecy of Earth's many cultures throughout the millennia and their voluminous references to the reality of X's periodic passages. The most current hypothesis used to examine X's next return through the solar system centers around the fact that X's extended orbit (approximately every 3,600 years -- first passing through the solar system then back out again), suggests that its 'destructive cycle' occurs in two phases. The 'first phase' begins with X's initial pass-through in 2009 separated by three years until its 'second phase.' This passage marks X's return leg back into deep space beginning again its 3,600-year-long trek through the heavens. X's last

return visit through the solar system most likely coincided with the Hebrew's exodus from Egypt estimated around 1447 BC -- roughly 3,459 years ago. Did God somehow come to Moses' aid by staging a cosmic event that no one today understands? The Mayan Celestial Calendar Codex inexplicably ends 21 December 2012. According to ancient Mayan cosmology, 'time' as we know it on Earth will reach its climax on that date. Written across the scroll of time and space, the author believes Planet-X will first return in 2009 and again in 2012.
