Industrial Society and the Science Fiction Blockbuster Mark T. Decker, 2016-03-08 Can blockbuster films be socially relevant or are they just escapist diversions to entertain the masses and enrich the studios? Not every successful film contains thoughtful commentary, but some that are marketed as pure entertainment do seriously engage social issues. Popular science fiction films of the late 1970s and early 1980s--such as George Lucas' Star Wars trilogy, Ridley Scott's Alien and Aliens, and James Cameron's Terminator films--present a critique of our engagement with technology in a way that resonates with 1960s counterculture. As challengers of the status quo's technological underpinnings, Luke Skywalker, Ellen Ripley and Sarah Connor echo the once-popular social criticism of philosopher Herbert Marcuse and speak directly to the concerns of people living in a technologically complex society. The films of Lucas, Scott and Cameron made money but also made us think about the world we live in.

**The Bloomsbury Introduction to Postmodern Realist Fiction** T.V. Reed, 2021-03-25 Postmodern realist fiction uses realism-disrupting literary techniques to make interventions into the real social conditions of our time. It seeks to capture the complex, fragmented nature of contemporary experience while addressing crucial issues like income inequality, immigration, the climate crisis, terrorism, ever-changing technologies, shifting racial, sex and gender roles, and the rise of new forms of authoritarianism. A lucid, comprehensive introduction to the genre as well as to a wide variety of voices, this book discusses more than forty writers from a diverse range of backgrounds, and over several decades, with special attention to 21st-century novels. Writers covered include: Kathy Acker, Chimamanda Ngozi Adiche, Julia Alvarez, Sherman Alexie, Gloria Anzaldua, Margaret Atwood, Toni Cade Bambara, A.S. Byatt, Octavia Butler, Angela Carter, Ana Castillo, Don DeLillo, Junot Diaz, Jennifer Egan, Awaeki Emezi, Mohsin Hamid, Jessica Hagedorn, Maxine Hong Kingston, Ursula K. Le Guin, Daisy

Johnson, Bharati Mukherjee, Toni Morrison, Vladimir Nabokov, Tommy Orange, Ruth Ozeki, Ishmael Reed, Eden Robinson, Salman Rushdie, Jean Rhys, Leslie Marmon Silko, Art Spiegelman, Kurt Vonnegut, and Jeannette Winterson, among others.

**American Popular Culture in the Era of Terror** Jesse Kavadlo, 2015-09-15 Bringing together the most popular genres of the 21st century, this book argues that Americans have entered a new era of narrative dominated by the fear—and wish fulfillment—of the breakdown of authority and terror itself. Bringing together disparate and popular genres of the 21st century, *American Popular Culture in the Era of Terror: Falling Skies, Dark Knights Rising, and Collapsing Cultures* argues that popular culture has been preoccupied by fantasies and narratives dominated by the anxiety—and, strangely, the wish fulfillment—that comes from the breakdowns of morality, family, law and order, and storytelling itself. From aging superheroes to young adult dystopias, heroic killers to lustrous vampires, the figures of our fiction, film, and television again and again reveal and revel in the imagery of terror. Kavadlo's single-author, thesis-driven book makes the case that many of the novels and films about September 11, 2001, have been about much more than terrorism alone, while popular stories that may not seem related to September 11 are deeply connected to it. The book examines New York novels written in response to September 11 along with the anti-heroes of television and the resurgence of zombies and vampires in film and fiction to draw a correlation between Kavadlo's *Era of Terror* and the events of September 11, 2001. Geared toward college students, graduate students, and academics interested in popular culture, the book connects multiple topics to appeal to a wide audience.

**Adaptation in Young Adult Novels** Dana E. Lawrence, Amy L. Montz, 2020-09-03 *Adaptation in Young Adult Novels* argues that adapting classic and canonical literature and historical places engages young adult readers with their cultural past and encourages them to see how that past can be rewritten. The textual afterlives of classic texts raise questions for new readers: What can be changed? What benefits from change? How can you, too, be agents of change? The contributors to this volume draw on a wide range of contemporary novels – from Rick Riordan's *Percy Jackson* series and Megan Shepherd's *Madman's Daughter* trilogy to Jesmyn Ward's *Salvage the Bones* – adapted from mythology, fairy tales, historical places, and the literary classics of Shakespeare, Charles Dickens, Jane Austen, and F. Scott Fitzgerald, among others. Unpacking the new perspectives and critiques of gender, sexuality, and the cultural values of adolescents inherent to each adaptation, the essays in this volume make the case that literary adaptations are just as valuable as original works and demonstrate how the texts studied empower young readers to become more culturally, historically, and socially aware through the lens of literary diversity.

**Science Fiction Literature through History** Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics, authors, works, and subgenres written by a distinguished scholar. This encyclopedia deals with written science

fiction in all of its forms, not only novels and short stories but also mediums often ignored in other reference books, such as plays, poems, comic books, and graphic novels. Some science fiction films, television programs, and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language, though due attention is given to international authors whose works have been frequently translated into English. Since science fiction became a recognized genre and greatly expanded in the 20th century, works published in the 20th and 21st centuries are most frequently discussed, though important earlier works are not neglected. The texts are designed to be helpful to numerous readers, ranging from students first encountering science fiction to experienced scholars in the field.

**All of This Is True: A Novel** Lygia Day Peñaflor, 2018-05-15 “Devious, delicious, and gasp-worthy.” (Kathleen Glasgow, New York Times bestselling author of *Girl in Pieces*) In this genre-defying page-turner from Lygia Day Peñaflor, four teens befriend their favorite novelist, only to find their deepest, darkest secrets in the pages of her next book—with devastating consequences. Miri Tan loved the book *Undertow* like it was a living being. So when she and her friends went to a book signing to hear the author, Fatima Ro, they concocted a plan to get close to her. Soleil Johnston wanted to be a writer herself one day. When she and her friends started hanging out with her favorite author, Fatima Ro, she couldn’t believe their luck—especially when Jonah Nicholls started hanging out with them, too. Penny Panzarella was more than the materialist party girl everyone at the Graham School thought she was—and she was willing to share all her secrets with Fatima Ro to prove it. Jonah Nicholls had more to hide than any of them. And now that Fatima’s next book is out in the world, he’s the one who is paying the price... Perfect for fans of *One of Us Is Lying*—and told as a series of interviews, journal entries, and even pages from the book within the book—this gripping story of a fictional scandal will keep you on the edge of your seat from beginning to end.

**Judging a Book By Its Lover** Lauren Leto, 2012-10-02 "Leto is as funny as she is well-read; a delight for bibliophiles and wannabes alike." —Wylie Overstreet, author of *The History of the World According to Facebook* Lauren Leto, humor blogger and co-author of *Texts from Last Night*, now offers a fascinating field guide to the hearts and minds of readers everywhere. *Judging a Book by Its Lover* is like a literary Sh\*t My Dad Says—an unrelentingly witty and delightfully irreverent guide to the intricate world of passionate literary debate, at once skewering and celebrating great writers, from Dostoevsky to Ayn Rand to Jonathan Franzen, and all the people who read them. This provocative, smart, and addictively funny tome arose out of Leto's popular "book porn" blog posts, and it will delight and outrage literature fans, readers of *Stuff White People Like* and *I Judge You When You Use Poor Grammar*—people obsessed with literary culture and people fed up with literary culture—in equal measure.

Concepts of Nature in Young Adult Dystopian Fiction. Suzanne Collins' The Hunger Games Series Lisa Kubatzki, 2018-02-26 Bachelorarbeit aus dem Jahr 2016 im Fachbereich Amerikanistik - Literatur, Note: 2,0, Universität Rostock (Anglistik/Amerikanistik), Sprache: Deutsch, Abstract: The aim of this paper is to show that nature and ecocritical topics are a significant aspect of young adult dystopian novels, since they are supposed to remind the readers that to respect nature and live in harmony with it is an important feature of their lives and a key to happiness. Contemporary dystopian young adult fiction is also supposed to remind the readership that exploiting or manipulating nature or avoiding environmental issues – next to the other features of our today's society that are criticized in young adult dystopian novels, like reality TV, the restriction of individual freedom and constant surveillance by the government – will lead to the destruction of the world as they know it and the development of a dystopian world. An oppressed society, a young hero and extreme settings – young adult dystopia is the rising star of genres in literature and film in today's society. Because it raises questions about the world we live in and creates rebellious and authentic protagonists, it appears to be charming for the adolescent readership. Throughout the last years, especially *The Hunger Games* by Suzanne Collins has been extremely successful. Starting with the books, over the films, to little Mockingjay pins in the shops, Collins's trilogy took over the world

of teenagers. The story is about a teenage girl, named Katniss, who lives in one of the poorest parts of her country, Panem. Every year there are the annual Hunger Games where teenagers are forced to fight each other to death until there is only one winner. After Katniss survives the 74th Hunger Games by tricking the government, a rebellion of the oppressed people of Panem starts and Katniss becomes the symbol of it. Nature and the manipulation of it, as well as the benefits of knowing nature, play a major role in The Hunger Games series since Katniss has a special relationship to the natural world which helps her to survive in the Games, and later, is the anchor to her sanity. The Hunger Games series shows that the strict separation of people from nature and the creation of a fake, artificial nature that is manipulated by an oppressing power is a central way to control people by taking away a source of sustenance and a place of freedom. The nature outside of the districts of Panem symbolizes freedom, refuge and escape, while the artificial 'nature' in the arena causes distance and fear of nature for the citizens of Panem, as it is the only access to nature they are allowed to have.

Visions of the Wasteland in "Maze Runner". The Scorch Trials as Climate Fiction Sara Bauer, 2023-12-08 Seminar paper from the year 2023 in the subject English Language and Literature Studies - Literature, grade: 1.0, Humboldt-University of Berlin (Anglistik & Amerikanistik), course: Genre: Fiction, language: English, abstract: This seminar paper will deep dive into the origins of climate fiction, and the imagery used in the novel, as well as compare it to current realities, to unveil how The Scorch Trials serves as an allegory of the pressing issues of climate change and a possible future we might face and why it can be categorized as cli-fi. Is climate fiction merely a subgenre of science fiction, or could we already classify it as a genre of its own? How do we understand the cultural context of such narratives, and what realities do climate fiction draw from? A link to James Dasher's novel Maze Runner: The Scorch Trials is to be made by looking into dystopian narratives and current pressing climate issues portrayed in The Maze Runner: Scorch Trials through climate fiction narration.

**Crises** Carsten Springer, 2001 Paul Auster's works enjoy a lasting popularity as examples of late-twentieth century American fiction. Auster criticism, however, has so far mainly focused on a few selected writings - notably the novels of The New York Trilogy, and Moon Palace - and their characteristics. The writer's overall theme as well as his recent works are rarely taken into consideration. This study closes the gap by providing a comprehensive appraisal of this author's complete oeuvre. By virtue of its detailed analysis of Paul Auster's central theme and delineation of its development, the writer's works can be positioned within the framework of contemporary American literature, and a tendency within the general development of postmodernist literature can be made out.
