Galatians: The Christian Standard Commentary Timothy George, 2020-11-01 Galatians is part of The Christian Standard Commentary (CSC) series. This commentary series focuses on the theological and exegetical concerns of each biblical book, while paying careful attention to balancing rigorous scholarship with practical application. This series helps the reader understand each biblical book's theology, its place in the broader narrative of Scripture, and its importance for the church today. Drawing on the wisdom and skills of dozens of evangelical authors, the CSC is a tool for enhancing and supporting the life of the church.

A Textbook of Perioperative Care Kate Woodhead, Paul Wicker, 2005-05-18 Woodhead and Wicker's new text will be the foremost reference source for all perioperative practitioners. The content mirrors the dynamics of modern perioperative practice by focusing on surgical interventions in all the environments in which it is currently practised, including A&E departments, general practice clinics, intensive care units, and at the site of serious accidents. Theatre practice is becoming increasingly specialist; this book does not attempt to reflect the needs of all specialties, but instead concentrates on the principles of practice, applicable to any setting and any specialty. It has a very practical focus - it aims to be the book that nurses and ODPs reach for in order to answer their practical questions - but is not procedure-driven. Instead, it sets out the principles of perioperative practice, from which practitioners will be able to develop their own practice techniques. Reflects principles of practice, applicable to any perioperative environment Strong practical focus Edited by two of the biggest 'names' in the international perioperative nursing sphere, with contributions from other well-known and authoritative sources Excellent opportunities to develop links with the National Association of Theatre Nurses and the European Operating Room Association The team of contributors are experienced practitioners working directly with perioperative patients or in perioperative education An original model for ethical practice is proposed: the Reid model is the first such ethical model to be proposed for the perioperative environment Includes one of the only chapters in any perioperative book which specifically focuses on the care of the elderly. The research chapter encourages the use of evidence based practice and the development of perioperative research The unique chapter on care of the mentally ill will support practitioners who are not qualified in psychiatry to care for mentally ill patients. This is an area where there is a great information deficit Key points listed for each chapter Sections have been completely revised from previous edition - key subject areas now stand-alone chapters rather

than sections within much larger chapters - creates ease of access for user Change of editorship Recognises the diversity of perioperative environments much more explicitly than previous edition.

Law, Business, and Society Tony McAdams,James Freeman,Laura Pincus Hartman,2001 The text takes an interdisciplinary, approach utilizing elements of law, political economy, international business, ethics, social responsibility and management. The authors' primary goal is to produce a compelling holistic picture of the concepts by giving extensive attention to readings, provocative quotes and factual details. Students learn not merely the law but the law in context. It includes many law cases and dozens of articles. There is one or more Internet exercise per chapter, which requires research on the Internet to find the answers.

Sports Illustrated Book of the Apocalypse Jack McCallum,2012-07-25 For the last 20 years, SPORTS ILLUSTRATED has collected and featured weekly signs from the world of sports that the Apocalypse is upon us: Tales of frenzied fans, egomaniacal coaches, Hall of Famers who run afoul of the law, mind-boggling bureaucracy, violent behavior and tastelessness run amok. In 18 humorous chapters, SPORTS ILLUSTRATED brings us all the sports insanity, including examples like: 12/27/93 In an effort to help notoriously dour Norwegians appear more cheerful during the 1994 Winter Olympics in Lillehammer, local officials planned to distribute 80,000 "smile holders—strap-on devices equipped with plastic hooks that tug the wearers' mouths into grins. 9/22/08 A 33-year-old Green Bay woman allegedly stole her estranged 15-year-old daughter's identity and enrolled in high school because she wanted to be a cheerleader. 1/29/07 A Chicago woman had labor induced three days early so her husband could attend the NFC championship game. THE SPORTS ILLUSTRATED BOOK OF THE APOCALYPSE presents two decades of proof that people who play sports, coach sports, run sports, cover sports and watch sports are sometimes out of their collective mind.
