Dance on the American Musical Theatre Stage Ray Miller,2023-05-17 Dance on the American Musical Theatre Stage: A History chronicles the development of dance, with an emphasis on musicals and the Broadway stage, in the United States from its colonial beginnings to performances of the present day. This book explores the fascinating tug-and-pull between the European classical, folk, and social dance imports and America's indigenous dance forms as they met and collided on the popular musical theatre stage. This historical background influenced a specific musical theatre movement vocabulary and a unique choreographic approach that is recognizable today as Broadway-style dancing. Throughout the book, a cultural context is woven into the history to reveal how the competing values within American culture, and its attempts as a nation to define and redefine itself, played out through developments in dance on the musical theatre stage. This book is central to the

conversation on how dance influences and reflects society, and will be of interest to students and scholars of Musical Theatre, Theatre Studies, Dance, and Cultural History.

Psychiatry PRN: Principles, Reality, Next Steps Sarah Stringer, Laurence Church, Susan Davison, Maurice Lipsedge, 2009-03-05 Psychiatry PRN contains core content for psychiatry education, but gives prominence to clinical and practical skills, as well as exam preparation. PRN is a Latin medical acronym meaning Pro Re Nata (as required). These letters also inform the structure of the book into the parts: Principles, Reality and Next Steps. Each of the main chapters opens with Principles, which cover the key characteristics of a psychiatric condition. This is the typical ground of textbooks, and this book covers all the necessary ground as concerns undergraduate learning outcomes, but is arguably more succinct than standard works on the subject. Nevertheless, illustrations and the careful use of pedagogic features (prominence given to key facts, tips and points of reflection, as well as effective use of tables) lift even this most standard area of coverage. The Reality section is where this book begins to really distinguish itself, with a practical articulation of clinical skills for the novice. This involves sample dialogue which might form part of the psychiatric interview, which bravely, yet skilfully reflects the reality with which patients present, and the difficulties often encountered by medical students. The content in this section includes a general approach (Tips, Tricks and Cautionary Tales), leading to a sample interview, moving on to indicative stations for Objective Structured Clinical Examinations (OSCEs). The Next Steps section puts psychiatry into the context of early working life as a doctor, and highlights where psychiatric considerations overlap with medical and surgical management, as exemplified by scenarios dealing with capacity to consent to treatment. Psychiatry PRN exists to enable students to engage with psychiatry. In addition to the framework described above, the book is rich in illustrative content, be that an original impressionistic picture of a condition, or an allusion to contemporary cultural representations of mental health and illness, to which students may relate, albeit if they haven't previously encountered psychiatric disease. To catalyse this process, the book opens with Vincent Van Gogh as its first patient, and continues in a vivid, humane fashion to prepare the student for the typical content of undergraduate psychiatry, with particular flair in terms of practical interactions with patients and associated assessment. Online Resource Centre: www.oxfordtextbooks.co.uk/orc/stringer · Video clips of key psychiatric interviews e.g. mini mental state examination, history taking of depression. Clips accompanied by guidance on usage. · Illustrative content from the book, including clinical signs drawings (with exercise), visual mnemonics of side effects and risk factors, and impressionistic drawings of psychiatric conditions. · Self-assessment resources, including sample OSCEs and interactive cases.

The Curious Incident of the Dog in the Night-time Mark Haddon,2012-08-02 Fifteen year old Christopher is about to embark on an investigation... Lots of things are mysteries. But that doesn't mean there isn't an answer to them. It was 7 minutes after midnight. The dog was lying on the grass in the middle of the lawn in front of Mrs Shears' house. Its eyes were closed. It looked as if it was running on its side, the way dogs run when they think they are chasing a cat in a dream. But the dog was not running or asleep. The dog was dead. This is Christopher's murder mystery story. There are also no lies in this story because Christopher can't tell lies. Christopher does not like strangers or the colours yellow or brown or being touched. On the other hand, he knows all the countries in the world and their capital cities and every prime number up to 7507. When Christopher decides to find out who killed the neighbour's dog, his mystery story becomes more complicated than he could have ever predicted. 'Outstanding... a stunningly good read' Observer 'A superb achievement. He is a wise and bleakly funny writer with rare gifts of empathy' Ian McEwan **ONE OF THE GUARDIAN'S 100 BEST BOOKS OF THE 21st CENTURY**

A Spot of Bother Mark Haddon,2007-08-14 A Spot of Bother is Mark Haddon's unforgettable follow-up to the internationally beloved bestseller *The Curious Incident of the Dog in the Night-Time*. At sixty-one, George Hall is settling down to a comfortable retirement. When his tempestuous daughter, Katie, announces that she is getting married to the deeply inappropriate Ray, the Hall family is thrown into a tizzy. Unnoticed in the uproar, George discovers a sinister lesion on his hip, and quietly begins to lose his mind. As parents and children fall apart and come together, Haddon paints a disturbing yet amusing portrait of a dignified man trying to go insane politely. A Washington Post Best Book of the Year

The Curious Incident of the Dog in the Night-Time Mark Haddon,Simon Stephens,2015-07-30 This schools' edition of Mark Haddon's multi-award-winning novel adapted for the stage of the National Theatre by Simon Stephens is perfect for Key Stages 3 and 4. Featuring the play script from the Modern Plays edition but with the language adjusted for school use*, this edition includes a wealth of classroom activities for the English and drama classrooms. Christopher, fifteen years old,

stands beside Mrs Shears's dead dog. It has been speared with a garden fork, it is seven minutes after midnight, and Christopher is under suspicion. He records each fact in the book he is writing to solve the mystery of who murdered Wellington. He has an extraordinary brain and is exceptional at maths, but he is ill-equipped to interpret everyday life. He has never ventured alone beyond the end of his road, he detests being touched and he distrusts strangers. But Christopher's detective work, forbidden by his father, takes him on a frightening journey that turns his world upside-down. This educational edition in Methuen Drama's Critical Scripts series has been prepared by national Drama in Secondary English experts Ruth Moore and Paul Bunyan. Building on a decade of highly effective work and publications endorsed by national organisations and supported by teachers and consultants across Britain, each book in the series: > meets the requirements at KS3 and GCSE > features detailed, structured schemes of work utilising drama approaches to improve literary and language analysis > places pupils' understanding of the learning process at the heart of the activities > will help pupils to boost English GCSE success and develop high-level skills at KS3 > will save teachers considerable time devising their own resources. Simon Stephens's adaptation of Mark Haddon's bestselling, award-winning novel, *The Curious Incident of the Dog in the Night-Time* offers a richly theatrical exploration of this touching and bleakly humorous tale. * The instances of stronger language have been tempered in this edition specifically for school use. Teachers may still wish to satisfy themselves that it is suited to the age of their pupils.
