Kucer,2009-03-23 This popular text, now in its third edition, unpackages the various dimensions of literacy - linguistic (the nature of language, oral-written language relationships, language variation); cognitive (constructive nature of perception, the reading process, understanding written discourse, the writing process); sociocultural (literacy as social practices, authority of written discourse); and developmental (constructing the written language system) - and at the same time accounts for the interrelationships among them.
