*Spiders: Spinners of the Sticky Web* Caitlind L. Alexander, 2012-01-14 You've seen them in your house, and in your yard. They're spiders. But there is more to these little guys than just their cobwebs. Spiders can be interesting if you take the time to get to know them. For example: do you know: What part of a spider's body contains the lungs? What are book lungs? How many eyes does a spider have? Why a spider doesn't stick to his own web? How many kinds of spiders there are? Find out what a spider looks like, where it lives, what it eats, what eats it, how babies are born, and other fun facts. All measurements in American and metric. **All You Need to Know About Spiders** Wolfgang Nentwig,Jutta Ansorg,Angelo Bolzern,Holger Frick,Anne-Sarah Ganske,Ambros Hänggi,Christian Kropf,Anna Stäubli,2022-04-07 All You Need to Know About Spiders Spiders are super predators and devour everything they can overpower. To do this, they have developed incredibly good catching techniques and, with spider silk, a tool that makes material technology green with envy. The males are usually smaller than the females and, in order to have sex, they have to come up with a lot to avoid being misunderstood as easy prey: Dancing, drumming, and gifts almost always help. Spiders use their venom in very precise doses, and since humans are not on their menu, they are harmless to us. Many people's (unnecessary) fear of spiders finds cultural roots as early as the Middle Ages. Nevertheless, spider fear is easily treatable. There is no habitat or building without spiders. And that's a good thing, because spiders have fascinating properties and their world is full of surprises. Everything you need to know about them is explained in this book in understandable language by experts for laymen. In addition, some of the most common spider species in the house and garden are briefly presented with tips for observation. The authorsThis book is authored by eight scientists, all of them members of the Association for the Promotion of Spider Research: Wolfgang Nentwig, Jutta Ansorg, Angelo Bolzern, Holger Frick, Anne-Sarah Ganske, Ambros Hänggi, Christin Kropf und Anna Stäubli

**The Confessions of Nat Turner** William Styron,2010-05-04 The “magnificent” Pulitzer Prize-winning and #1 New York Times-bestselling novel about the preacher who led America’s bloodiest slave revolt (The New York Times). The Confessions of Nat Turner is William Styron’s complex and richly drawn imagining of Nat Turner, the leader of the 1831 slave rebellion in Virginia that led to the deaths of almost sixty men, women, and children. Published at the height of the civil rights movement, the novel draws upon the historical Nat Turner’s confession to his attorney, made as he awaited execution in a Virginia jail. This powerful narrative, steeped in the brutal and tragic history of American slavery, reveals a Turner who is neither a hero nor a demon, but rather a man driven to exact vengeance for the centuries of injustice inflicted upon his people. Nat Turner is a galvanizing portrayal of the crushing institution of slavery, and Styron’s deeply layered characterization is a stunning rendering of one man’s violent struggle against oppression. This ebook features a new illustrated biography of William Styron, including original letters, rare photos, and never-before-seen documents from the Styron family and the Duke University Archives.

**Exploring Values Through Literature, Multimedia, and Literacy Events** Patricia Ruggiano Schmidt,Ann Watts Pailliotet,2008-09-01 Exploring Values Through Multimedia, Literature and Literacy Events was written by teachers and

educational researchers for classrooms and schools interested in developing learning communities that develop critical and compassionate future citizens. Through the use of specific multimedia, literature and literacy events, this book presents numerous ways for classroom teachers and schools to promote respectful, responsible, caring, and sharing students in a democratic society. Beginning with Plato's message that we cannot let the formation of good citizens to chance, *Exploring Values Through Multimedia, Literature and Literacy Events* takes the reader through a brief history of character education and moral development and a summary of multimedia's impact on our lives. The chapters that follow are devoted to teacher tested classroom and school programs, activities, and resources for the understanding of diverse human perspectives. Included in several chapters are the unique ways classes might analyze how and why information is presented in the media. Due to the constant media bombardment on our lives, the goal of this volume is to support our students as they discern the meanings of truth and justice.
