Tough Times Never Last, But Tough People Do! Robert H Schuller, 2006-10 Robert Schuller shares his philosophy of 'Possibility Thinking' and translates it into an action plan for success and shows you how to build a self-image with positive thoughts and know the truth that after every storm, there is a calm. Every problem has a solution. It is our attitude to get going when the going gets tough as well as fight to face the obstructions that deprive us of our mental or physical peace which is the key to every problem in our life. Life is full of ups and downs. All of us have problems, but through this book Schuller show you how to build a positive self-image and emerge a winner. No matter how tough times get, don't give up, manage the problem creatively and constructively and you will succeed. We need to tackle our problems with courage, confidence and action. There's an old Chinese saying that goes, If you live with a problem long enough, it could eventually become a blessing. Within every hardship in life, there is always a seed of an equivalent or greater benefit. All we have to do is look for it and act on it.

Almighty God Enakeme S. Mariere-Dogun, 2012-10-11 I was inspired to write this book after a fire disaster was averted in my home by the power of Almighty God. The purpose is to honor God and to encourage people going through tough times to trust God and move on, for better days lie ahead. This message of hope, faith and victory will inspire you daily. Enakeme Dogun.

School Leadership in India N. Mythili, 2024-08-28 This book explores how school leadership plays a significant role in addressing the issues of poor learning among students in India. It presents in-depth discussions on critical leadership practices that are influenced by the interaction between leadership styles, functions, behaviours and practices of school leaders using theoretical discourse. Besides, a conceptual framework is developed to understand the leadership phenomenon in the Indian context for the overall improvement of schools, student learning and self-development of leaders. While highlighting the issues and challenges faced by schools and school leaders, the book presents a number of vignettes created from the data on various aspects of school leadership practices indicating the styles, behaviours and functions in every chapter. The nature of the analysis is also unique to the discourse on educational leadership as it culminates in tracing the path traversed by the school leaders. The analysis is thematically organised into purpose-process-outcome that spreads

across seven chapters. Besides the rigour of vast data that substantiates the arguments using mixed methods, it also vividly discusses the national initiatives undertaken in India to transform instructional and pedagogical leadership of principals and improve students learning in the past one decade or so. The book will be of interest to researchers of education, leadership education and development and school education in university departments of education, management, public administration, development studies and sociology that use interdisciplinary approaches. It will also be useful for school educators, academicians, school leaders, policymakers and teacher educators not only for teaching and research but also for school leadership development for practitioners.

A gifted and moving storyteller, Schuller offers a personal and inspirational look at the principles that have guided his life and work and explains how they can guide our lives as well. Starting with the message of *Don't Throw Away Tomorrow*, he discusses such powerful and universal principles as starting with optimism, choosing positive values, keeping focused, clearing the channels of communication, and—most importantly—looking to the Ultimate
