Read This Book on a Silent Hill: Meditations, that they won't tell you Norbert Szász, 2022-10-31 Read This Book on a Silent Hill – aims to be a spiritual and intellectual journey through many fields. With shamans, psychonauts, hackers and non-believers, through the imperfect records of history, to the uncertainty of future, it deals with the most interesting and important topics. Life's contradictory nature is examined through short, but dense chapters, that aim to bring the reader into the present moment. To provide a compass, it draws from a wide range of topics. On its pages, you will find about witch trials, psychedelics and their surrounding taboos, secret government programmes like the MKUltra, meditative techniques and reality perceptions, as well as an examination of our current state of being. What the monetary system and work culture of today holds for the human soul, how we got to this point and what cryptography and the power of free thinking can do for us. What the Matrix and french philosophy have in common. Whether things are getting better, or worse and what we can learn from tales of long dead grapevines, snails, fields of poppies and living bread. Ultimately, we will look at concepts such as time and marvel at the beauty of reality with all its separate, yet connected features and stare into the swirling fractal just a bit too long.

*The Unbegun* Micah T. Dank, *The Unbegun*, Book Seven, the continuation of *Into the Rabbit Hole*: 5 years later: A murder at the Kaaba in Mecca, two thieves and the purest gold that was ever created leads to the world's markets being destroyed. A device waits in waiting to cover the world in ash while the elites make their way to the underground cities they've created for just this moment. Against his better judgment Graham who is fully involved as a religious commentator has a 5 year old son who is dragged back into murder, mystery and one last chance to save the world.

**The Actualization of Self Transcendence** Patrick Mooney, 2021-09-13 Sadly, western civilization has seemingly lost its sense of Christian identity and heritage. In recent decades, humanity has become so indoctrinated by the atheistic paradigm that our matrix is controlled by corporate greed and competition rather than cooperation and compassion. While reflecting on a world that is ever changing, Patrick Mooney shares essays that explore the effect of atheism on a variety of topics that include sexuality, the most binary aspect of humanity that is love, the courage of conviction, endowments and the elite as it relates to education, the reality of death, an inner-city Dublin schoolmistress, and much more. Throughout his writings, Mooney reminds us that although the modern world has brought us to a moral impasse, it is possible to adopt the spirituality

that Christ preached, embrace our destiny to be spiritual, and refine our higher selves to search for and find meaning and divine purpose in our lives. The Actualization of Self-Transcendence is a collection of personal essays that shares a priest's candid reflections on the effects of the atheistic paradigm on the modern world.

*Tesla* D. D. Vujic, Sharon Rich, 2024-11-20 He electrified the world. But Nikola Tesla's secrets remained hidden... until now. A vast number of today's electronics and appliances for use in homes and businesses are based on at least one of Nikola Tesla's patents. Tesla is credited with creating the electric car, wireless communication, and laying the foundation for smartphones and the Internet. History remembers him as a celibate, eccentric recluse who did not smoke or drink alcohol. This is how certain authorities want the world to remember Tesla. However, a recent discovery in the basement storage of the official Tesla Museum in Belgrade, Serbia reveals a collection of artifacts hidden from the eyes of the world. The collection includes intimate letters disclosing a long time passionate love affair. There is also a fancy gold cigarette case given to Tesla for his birthday by the prolific industrialist George Westinghouse. And more ominously, there is a crystal whiskey decanter set with glasses gifted to Tesla by the original godfather of the Italian Mafia, Charles 'Lucky' Luciano. Perhaps the most interesting artifacts in this secret collection are drawings, notes, incomplete diagrams and schematics that tell the secret of a radio that can communicate with the past. Possibly right the wrongs of history. But what if this radio were to fall into the wrong hands? What of the future then? Is our present the present that was intended or has it already been

altered? These artifacts whisper of a Tesla the world never knew, a man entangled in a web of intrigue, murder, romance, and secret inventions never before brought to light. Written as a novel by a best-selling biographer and an accredited screenwriter and Tesla historian, this book combines elements of fact and fiction and uncovers the tragic personal life and many secrets of Nikola Tesla.
