The Science of Adaptation. "A Study in Scarlet" and "A Study in Pink", 2015-04-23 Seminar paper from the year 2014 in the subject English Language and Literature Studies - Comparative Literature, grade: 1,0, University of Frankfurt (Main) (Institut für England- und Amerikastudien), course: Crime Fiction, language: English, abstract: "Holmes is dead," he said. "I have done with him." ("Conan Doyle Dead From Heart Attack") Sir Arthur Conan Doyle must have felt, at times, like the sorcerer's apprentice in Johann Wolfgang von Goethe's famous poem, unable to rid himself of the spirits he had conjured up. The Scot's literary oeuvre comprises up to 200 individual publications, ranging from historical novels like Micah Clarke (1889), the science fiction classic The Lost World (1912), poetry and a wide selection of short stories to non-fictional works on spiritualism, colonial Africa and memoirs. (Keulks) But the diversity of the Conan Doyle canon reflects not only the author's eclectic intellectual interests and approaches to his profession, but also attempts to counteract the popularity of one specific brainchild: Sherlock Holmes. (Keulks) It might not be quite how the author had hoped to be remembered, but the adventures involving the sleuth and Doctor Watson ensured that his literary legacy continues to thrive and inspire the works of others to the present day. On the following pages one particular piece of proof for Holmes' continued popularity, the

immensely successful television format Sherlock, is examined by putting it into context with other, preceding types of Conan Doyle adaptations and comparing the 2010 film version of the detective's first case, entitled A Study in Pink, to its source text. After focusing on the representation of the main characters and their defining traits in both media forms, as well as the relationships they share with each other and supporting characters that appear over the course of the story, the paper then adds final remarks on the process of modernization and cultural modification of not only Conan Doyle's A Study in Scarlet and its protagonist, but also the contemporary movie series for an American audience.

Microbreweries, Nanobreweries, and Brewpubs Joseph Peter Klapatch, 2023-05-09 In the mid-1980s, the American beer market offered far fewer options than what is available today. When microbreweries began to come onto the scene, distributors and retailers were skeptical of their new beers and did not believe that these new American brews would be able to compete with imports. Newer, smaller brewers also had to overcome antiquated laws and strong consumer brand loyalty to major domestic beers. After years of struggles, microbrewers established a foothold in the American beer market, popularized new and previously underappreciated styles, and set the stage for a massive proliferation of nanobreweries across the country. This book takes a look at these microbreweries--prime examples of American enterprise and innovation--from an industry outsider's perspective. The author explores a select number of small breweries from around the United States, covering their signature brews, histories, and what it took for them to claim their niches in the marketplace.

Sherlock Holmes for the 21st Century Lynnette Porter, 2012-08-13 The 21st century is a good time to be Sherlock Holmes. He stars in the Guy Ritchie films, with Robert Downey, Jr.; an internationally popular BBC television series featuring Benedict Cumberbatch; a novel sanctioned by the Arthur Conan Doyle Estate; and dozens of additional novels and short stories, including two by Neil Gaiman. Add to this the videogames, comic books, and fan-created works, plus a potent Internet and social media presence. Holmes' London has become a prime destination for cinematic tourists. The evidence is clearly laid out in this collection of 14 new essays: Holmes and Watson are more popular than ever. The detective has been portrayed as hero, and antihero. He's tech savvy, and scientifically detached--even psychologically aberrant. He has been romantically linked to The Woman and bromantically to Watson. Whether Victorian or modern, he continues to fascinate. These essays explain why he is destined to be with us for years to come. Instructors considering this book for use in a course may request an examination copy here.

The Age of Lovecraft Carl H. Sederholm, Jeffrey Andrew Weinstock, 2016-04-01 Co-winner, Ray & Pat Browne Award for Best Edited Collection in Popular Culture and American Culture Howard Phillips Lovecraft, the American author of "weird tales" who died in 1937 impoverished and relatively unknown, has become a twenty-first-century star, cropping up in places

both anticipated and unexpected. Authors, filmmakers, and shapers of popular culture like Stephen King, Neil Gaiman, and Guillermo del Toro acknowledge his influence; his fiction is key to the work of posthuman philosophers and cultural critics such as Graham Harman and Eugene Thacker; and Lovecraft's creations have achieved unprecedented cultural ubiquity, even showing up on the animated program South Park. The Age of Lovecraft is the first sustained analysis of Lovecraft in relation to twenty-first-century critical theory and culture, delving into troubling aspects of his thought and writings. With contributions from scholars including Gothic expert David Punter, historian W. Scott Poole, musicologist Isabella van Elferen, and philosopher of the posthuman Patricia MacCormack, this wide-ranging volume brings together thinkers from an array of disciplines to consider Lovecraft's contemporary cultural presence and its implications. Bookended by a preface from horror fiction luminary Ramsey Campbell and an extended interview with the central author of the New Weird, China Miéville, the collection addresses the question of "why Lovecraft, why now?" through a variety of approaches and angles. A must for scholars, students, and theoretically inclined readers interested in Lovecraft, popular culture, and intellectual trends, The Age of Lovecraft offers the most thorough examination of Lovecraft's place in contemporary philosophy and critical theory to date as it seeks to shed light on the larger phenomenon of the dominance of weird fiction in the twenty-first century. Contributors: Jessica George; Brian Johnson, Carleton U; James Kneale, U College London; Patricia MacCormack, Anglia Ruskin U, Cambridge; Jed Mayer, SUNY New Paltz; China Miéville, Warwick U; W. Scott Poole, College of Charleston; David Punter, U of Bristol; David Simmons, Northampton U; Isabella van Elferen, Kingston U London.
