If These Walls Could Talk Carmel Phillips, 2025-08-05 Aspiring decorators will learn to bring their homes to life and show off their family's unique personality through personal and deliberate design choices. Look around your home right now. Are your spaces filled with furnishings and decor that represent who you are or who you want to be? Or do your rooms reflect someone else's vision you saw online or in a book? Much like a skilled author carefully crafts each setting in a novel, your home should tell the story of you. Rather than adopting the next newest style trending on social media, home decorating expert Carmel Phillips, creator of the Our Fifth House blog shows you how to break free from the pressure of comparison and make thoughtful design decisions that display your family's one-of-a-kind tastes, interests, and aspirations. With practical help, tips, and tricks, Carmel helps you reframe the way you see your home and encourages you to embrace slow decorating—collecting meaningful new, heirloom, and thrifted items over time—and incorporating vibrant colors and patterns that energize you. Your home has a story to tell. It's time to make it yours.

Retirement Income Mark Warshawsky, 2012 Strategies, products, and public policies that will help a new generation of retirees maximize income and minimize risk. As members of the baby boom generation head into retirement, they face an economic environment that has changed noticeably since their parents retired. Most of these new retirees will not be equipped, as many in the earlier generation were, with private pension plans, early retirement options, and fully paid retiree health benefits in addition to Social Security and Medicare. Today it is increasingly left to retirees themselves to plan how to maximize retirement income and minimize risk. In *Retirement Income*, Mark Warshawsky and his colleagues describe strategies, products, and public policies that will help a new generation achieve financial security and income growth in retirement. Warshawsky, a noted expert in the field who has worked in both government and private industry, analyzes two insurance vehicles, life annuities and long-term care insurance, and their capacity to protect against the extra costs arising from longevity and disability. He proposes two innovations. The first is a strategy that includes a set percentage withdrawal from a balanced portfolio, which is gradually used to purchase a ladder of life annuities. The second proposal, which includes a description of the potential choices in product design and available tax characteristics, is a product that integrates the immediate life annuity and long-term care insurance. With *Retirement Income*, Warshawsky offers practical ideas based on the results of empirical investigations and analyses, which can be applied to household decision making by retirees and their financial planners and to the design of insurance products and public policy.

Portfolio Theory and Management H.
