The book contains an overview, selection, and improvement of chess openings; both for (post-)beginners and intermediate players up till advanced level. Including a unique and timeless 'repertoire', carefully selected for home player level (1.e4) and/or more advanced (chess club) players. The most suitable opening moves were selected by thorough analysis, to build up a rock-solid B/W 'repertoire', for two categories of players. Not only mentioning of the opening names, but also of most sub-variations. Compared with up to date opening books and actual GM games. Many diagrams to enhance memorization and understanding. An ideal study guide, and only opening book most chess players ever need until master level.
