Secondary Sources in the History of Canadian Medicine Charles G. Roland,Jacques Bernier,2010-11-22 Volume Two of this retrospective bibliography is both a continuation and an expansion of Volume One (1984). It contains references to Canadian medical-historical literature published between 1984 and 1998, and also includes much additional material

published prior to 1984. Finally, it substantially enlarges the content of French-language material. Every effort has been made to be as inclusive as possible of articles, theses, book chapters and books, both in English and in French, relating to the history of medicine. No single electronic source can replace this bibliography. The contents are divided into three sections. The first is a listing of material expressly biographical. Section two lists material under a wide variety of subject headings related to medicine, and the third is a complete listing of the authors who have contributed these articles. Simply organized and easy to use, this bibliography will be of value to historians, archivists, librarians, and anyone interested in the history of medicine.
