Hanser, 2023-05-12 Introduction to Corrections provides students with a comprehensive foundation of corrections that is practitioner-driven and grounded in modern research and theoretical origins. Experienced correctional practitioner, scholar, and author Robert D. Hanser shows students how the corrections system works, from classification, security, and treatment, to demonstrating how and why correctional practices are implemented. The Fourth Edition includes a special emphasis on the role of technology in each chapter; new topics on medical care in jail, female drug offenders, and controversies around the death penalty; and the impact of the COVID-19 pandemic on correctional practices. Data and examples drawn from federal government documents, along with exercises that reinforce concepts in the text, further aid student learning.

The Meritocracy Myth Stephen J. McNamee, Robert K. Miller Jr., 2013-07-18 The Meritocracy Myth challenges the widely held American belief in meritocracy—that people get out of the system what they put into it based on individual merit. The third edition has been revised and streamlined, with fresh examples and updated statistical information throughout. Chapters eight and nine have been combined into a comprehensive chapter about discrimination as a non-merit barrier to upward mobility. The book also features a new section on “The Great Recession.” The Meritocracy Myth examines talent, attitude, work ethic, and character as elements of merit, and evaluates the effect of non-merit factors such as social status, race, heritage, and wealth on meritocracy. A compelling book on an often-overlooked topic, The Meritocracy Myth has become a classroom classic to introduce students to this provocative topic.
