Global Maritime Geopolitics Hasret ÇOMAK,,Burak Şakir ŞEKER,Mehlika Özlem ULTAN,2022-01-16 States must develop new approaches, maritime policies, strategies and tactics to cruise through the contemporary maritime politics. Soft power, as well as economic, commercial, and logistics factors are of critical importance in establishing marine power. It is critical to promote maritime-related products such as films, serials, literature and art, maritime journalism, and maritime photography as part of governmental policies. Marine and maritime security challenges are becoming more important in today's world. As a result of all these developments, the preparation of a multidimensional and comprehensive work on the oceans and seas at the global level has been brought to the agenda. Our book has been written to elucidate these concerns and contribute to this important scholarly and policy field. This book can also be useful for wider audiences as a comprehensive volume on maritime geopolitics covering many cases from around the world and discussions from Turkish perspectives. Who Was Who in Egyptology Morris L. Bierbrier,2021-12-31 The civilization of ancient Egypt has been a source of fascination for explorers and scholars for centuries, and has occupied a special place in the imagination of the public ever since early travellers' descriptions and illustrations of the strange culture of temples, tombs and hieroglyphs began to circulate around the world. The story of Egyptology from a hobby for the educated and wealthy to a highly formalized academic discipline provides the key to understanding how and why we know what we know about ancient Egypt. This biographical dictionary tells the stories of the most important contributors and will be an indispensable reference tool for scholars and enthusiasts alike. Who Was Who in Egyptology remains one of the most important reference works for understanding the characters that contributed to the field of Egyptology and Egyptian archaeology from the Napoleonic invasion of Egypt through to the present day. The fifth edition bring entries up to 2019 and is expected to be the last volume produced in print.
