Southern First Ladies Katherine A. S. Sibley, 2021-01-20 *Southern First Ladies* explores the ways in which geographical and cultural backgrounds molded a group of influential first ladies. The contributors to this volume use the lens of “Southernness” to define and better understand the cultural attributes, characteristics, actions, and activism of seventeen first ladies from Martha Washington to Laura Bush. The first ladies defined in this volume as Southern were either all born in the South—specifically, the former states of the Confederacy or their slaveholding neighbors like Missouri—or else lived in those states for a significant portion of their adult lives (women like Julia Tyler, Hillary Clinton, and Barbara Bush). Southern climes indelibly shaped these women and, in turn, a number of enduring White House traditions. Along with the standards of proper behavior and ceremonial customs and hospitality demanded by notions of Southern white womanhood, some of which they successfully resisted or subverted, early first ladies including Martha Washington, Dolley Madison, Julia Tyler, and Sarah Polk were also shaped by racially based societal and cultural constraints typical of the eighteenth and nineteenth centuries, some of which have persisted to the present day. The first nine women in this volume, from Martha Washington to Julia Grant, all enslaved others during their lives, inside or outside the White House. Among the seven first ladies in the book’s last section, Ellen Wilson, for example, was profoundly influenced by the reformist ethos of the Progressive Era and set an example for activism that five of her Southern successors—Lady Bird Johnson, Rosalynn Carter, Barbara Bush, Hillary Clinton, and Laura Bush—all emulated. By contrast, Ellen’s immediate successor in the White House, Edith Wilson, enthusiastically celebrated the “Lost Cause.” *Southern First Ladies* is the first volume to comprehensively emphasize the significance of Southernness and a Southern background in the history and work of first ladies, and Southernness’ long-standing influence for the development of this position in the White House as well as outside of it.

Lady Bird Johnson and the Environment Lewis L. Gould, 1988 Gould (American history, U. of Texas-Austin) has dusted off, updated, and thinned his 1988 *Lady Bird Johnson and the Environment* to kick off the new series on the wives of US presidents. He draws on Johnson's White House papers and interviews with her and her close associates to argue that she was one of the most politically active First Ladies though her concern with the environment was overshadowed by protests against the Vietnam War. Fearless Women Elizabeth Cobbs, 2023-03-07 Elizabeth Cobbs traces the American quest for gender equality back to

the Revolution, when the founding principle of equality became a battering ram against hierarchy. These are stories of American women, famous and obscure, who struggled in public and private to secure new rights, defend their freedom, and gain control over their own lives.

Solvable Susan Solomon, 2024-06-11 A compelling and pragmatic argument: Solutions to yesterday's environmental problems reveal today's path forward. We solved planet-threatening problems before, Susan Solomon argues, and we can do it again. Solomon knows firsthand what those solutions entail. She first gained international fame as the leader of an expedition to Antarctica in 1986, making discoveries that were key to healing the damaged ozone layer. She saw a path—from scientific and public awareness to political engagement, international agreement, industry involvement, and effective action. Solomon, an atmospheric scientist and award-winning author, connects this career-defining triumph to the inside stories of other past environmental victories—against ozone depletion, smog, pesticides, and lead—to extract the essential elements of what makes change possible. The path to success begins when an environmental problem becomes both personal and perceptible to the general public. Lawmakers, diplomats, industries, and international agencies respond to popular momentum, and effective change takes place in tandem with consumer pressure when legislation and regulation yield practical solutions. Healing the planet is a long game won not by fear and panic but by the union of public, political, and regulatory pressure. *Solvable* is a book for anyone who has ever despaired about the climate crisis. As Solomon reminds us, doom and gloom get us nowhere, and idealism will only take us so far. The heroes in these stories range from angry mothers to gang members turned social activists, to upset Long Island birdwatchers to iconoclastic scientists (often women) to brilliant legislative craftsmen. Solomon's authoritative point of view is an inspiration, a reality check, a road map, and a much-needed dose of realism. The problems facing our planet are *Solvable*. Solomon shows us how.

Chasing Dirt Suellen Hoy, 1996-10-10 Americans in the early 19th century were, as one foreign traveller bluntly put it, filthy, bordering on the beastly--perfectly at home in dirty, bug-infested, malodorous surroundings. Many a home swarmed with flies, barnyard animals, dust, and dirt; clothes were seldom washed; men hardly ever shaved or bathed. Yet gradually all this changed, and today, Americans are known worldwide for their obsession with cleanliness--for their sophisticated plumbing, daily bathing, shiny hair and teeth, and spotless clothes. In *Chasing Dirt*, Suellen Hoy provides a colorful history of this remarkable transformation from dreadfully dirty to cleaner than clean, ranging from the pre-Civil War era to the 1950s, when American's obsession with cleanliness reached its peak. Hoy offers here a fascinating narrative, filled with vivid portraits of the men and especially the women who helped America come clean. She examines the work of early promoters of cleanliness, such as Catharine Beecher and Sylvester Graham; and describes how the Civil War marked a turning point in our attitudes toward cleanliness, discussing the work of the U.S. Sanitary Commission, headed by Frederick Law Olmsted, and revealing how the efforts of Florence Nightingale in the Crimean War inspired American women--such as Dorothea Dix, Clara

Barton, and Louisa May Alcott--to volunteer as nurses during the war. We also read of the postwar efforts of George E. Waring, Jr., a sanitary engineer who constructed sewer systems around the nation and who, as head of New York City's street-cleaning department, transformed the city from the nation's dirtiest to the nation's cleanest in three years. Hoy details the efforts to convince African-Americans and immigrants of the importance of cleanliness, examining the efforts of Booker T. Washington (who preached the gospel of the toothbrush), Jane Addams at Hull House, and Lillian Wald at the Henry Street Settlement House. Indeed, we see how cleanliness gradually shifted from a way to prevent disease to a way to assimilate, to become American. And as the book enters the modern era, we learn how advertising for soaps, mouth washes, toothpastes, and deodorants in mass-circulation magazines showed working men and women how to cleanse themselves and become part of the increasingly sweatless, odorless, and successful middle class. Shower for success! By illuminating the historical roots of America's shift from dreadfully dirty to squeaky clean, *Chasing Dirt* adds a new dimension to our understanding of our national culture. And along the way, it provides colorful and often amusing social history as well as insight into what makes Americans the way we are today.

America in Quotations Bahman Dehgan, 2015-08-31 "America is a land of wonders, in which everything is in constant motion and every change seems an improvement.... No natural boundary seems to be set to the efforts of man; and in his eyes what is not yet done is only what he has not yet attempted to do"—Alexis de Tocqueville, *Democracy in America* (1835). "Americans will pay a big price for an invention that will help them save time they don't know what to do with"—Anonymous. This collection of quotations—both serious and humorous—about America is divided into 19 main topics: The Nation, The American People, Places, Nature, Mind, The Individual, Human Relations, Social Life, Culture and Media, Literature and Language, Religion and Belief, Past and Future, History, War and the Military, International Relations, Politics and Government, Law and Order, Business and Economy, and Food. Each main topic is divided into subtopics; for example, "Culture and Media" has these: Architecture, Art, Charlie Chaplin, Dance, Fashion, Intellectuals, Marilyn Monroe, Movies, Music, Elvis Presley, and Television. The author attributes each quote to its speaker, author or composer, and wherever possible, provides the date of the quote and the name of the work in which it was published. In the case of uncertainty about the exact date of a quote, the author provides the birth and death dates of the person to whom the quote is attributed. Presidential Temples Benjamin Hufbauer,2005 This book explores the visual and material cultures of presidential commemoration--memorials and monuments, libraries and archives--and the problematic ways in which presidents themselves have largely taken over their own commemoration. The author sees these various commemorative sites as playing a key role in the construction of our collective political and cultural self-images and as another sign of our preoccupation with celebrity culture. Ultimately, he contends, these presidential temples reflect not only our civil religion but also the extraordinary expansion of executive authority--and presidential self-commemoration--since FDR.

Taking Charge Michael R. Beschloss,1997 Taking Charge, the first volume of The Johnson White House Tapes, is filled with revelations about the full-blooded Texan behind the public image. We hear LBJ telling who he thinks really killed JFK, creating the Warren Commission, staking his presidency on a revolutionary civil rights bill, scuttling Robert Kennedy's drive to be his Vice President, using the Tonkin Gulf attack to expand the American beachhead in Southeast Asia, and unveiling his private, tortured early doubts that we could ever win a war in Vietnam. By allowing us to hear LBJ as he applies the Johnson treatment to foes and friends, Taking Charge offers spellbinding insight into how the thirty-sixth President used power. Johnson flatters, provokes, and twists the arms of some of the dominant personalities of our times, including Robert Kennedy, Martin Luther King, Jr., J. Edgar Hoover, Robert McNamara, Katharine Graham and other leading media figures, members of Congress, and many others. We come to understand Johnson's complex, changing relationships with Lady Bird and the rest of his family, Jacqueline Kennedy, ex-Presidents Truman and Eisenhower, and members of his Cabinet and White House staff.
