Handbook of Native American Literature Andrew Wiget, 2013-06-17 The Handbook of Native American Literature is a unique, comprehensive, and authoritative guide to the oral and written literatures of Native Americans. It lays the perfect foundation for understanding the works of Native American writers. Divided into three major sections, Native American Oral Literatures, The Historical Emergence of Native American Writing, and A Native American Renaissance: 1967 to the Present, it includes 22 lengthy essays, written by scholars of the Association for the Study of American Indian Literatures. The book features reports on the oral traditions of various tribes and topics such as the relation of the Bible, dreams, oratory, humor, autobiography, and federal land policies to Native American literature. Eight additional essays cover teaching Native American literature, new fiction, new theater, and other important topics, and there are bio-critical essays on more than 40 writers ranging from William Apes (who in the early 19th century denounced white society's treatment of his people) to contemporary poet Ray Young Bear. Packed with information that was once scattered and scarce, the Handbook of Native American Literature - a valuable one-volume resource - is sure to appeal to everyone interested in Native American history, culture, and literature. Previously published in cloth as The Dictionary of Native American Literature

Inventing the American Primitive Helen Carr, 1996-07 Inventing the American Primitive examines a body of work, both literary and anthropological, that describes, inscribes, translates and transforms Native American myths and poetry. Drawing on post-colonial and feminist theory, as well as ethnography's recent textual turn, Carr reveals the conflicts and ambivalence in these texts. Through their writings, the writers and anthropologists studied were attempting to preserve a culture which their country, with their help or connivance, sought to destroy. The contradictions and tensions of this position run throughout their work. Although there is no simple narrative of progress in this story as it moves from the eighteenth-century primitivism to twentieth-century modernism, the book shows the process by which the richness and complexity of Native American traditions came to be acknowledged.

A Clown in a Grave Michael Skau, 1999 Skau covers the complete works of Corso, one of the four major Beat Generation writers (with Jack Kerouac, Allen Ginsberg, and William S. Burroughs) who attempted to provide an alternative to what they saw as the academic forms of literature dominating American writing through the 1940s and 1950s.--BOOK JACKET.

Interpretation of the Indian Burying Ground by Philip Freneau Petra Hühnert, 2011-08 Seminar paper from the year 2009 in the subject American Studies - Literature, grade: 1,0, Johannes Gutenberg University Mainz (FTSK Germersheim), course: Democracy Ma Femme. Looking for Liberty in American Letters., language: English, abstract: Philip Freneau describes in his romantic poem from 1787 *The Indian Burying Ground* the differences between European funeral traditions, influenced by Christianity, and the traditions for funerals of some Native American tribes. He shows in detailed pictures the activity that is still visible in the Native American dead opposing the sleeping posture given to European dead. He also points out how close the Native American way of life and death is to nature in its partially wild and savage way by describing their habits and clothes. Their natural concept of handling life and especially death is here seen as superior to the civilized European world. The European people could have learnt something from the Indians instead of attempting to civilize them according to their ideas and ideals.

Encyclopedia of the Environment in American Literature Geoff Hamilton, Brian Jones, 2014-01-10 This encyclopedia introduces readers to American poetry, fiction and nonfiction with a focus on the environment (broadly defined as humanity's natural surroundings), from the discovery of America through the present. The work includes biographical and literary entries on material from early explorers and colonists such as Columbus, Bartolome de Las Casas and Thomas Harriot; Native American creation myths; canonical 18th- and 19th-century works of Jefferson, Emerson, Thoreau, Whitman, Hawthorne, Twain, Dickinson and others; to more recent figures such as Jack London, Ernest Hemingway, Norman Mailer, Stanley Cavell, Rachel Carson, Jon Krakauer and Al Gore. It is meant to provide a synoptic appreciation of how the very concept of the environment has changed over the past five centuries, offering both a general introduction to the topic and a valuable resource for high school and university courses focused on environmental issues.

Native American Writers of the United States Kenneth M. Roemer, 1997 Contains forty-three alphabetically arranged essays that provide biographical and critical information about Indian authors from throughout history--most of whom live or lived in the U.S. and who wrote or write primarily in English--who have made significant contributions to the body of Native American literature.

Frontier Fictions Rebecca Weaver-Hightower, 2018-11-28 This book compares the nineteenth-century settler literatures of Australia, Canada, South Africa, and the United States in order to examine how they enable readers to manage guilt accompanying European settlement. Reading canonical texts such as *Last of the Mohicans* and *Backwoods of Canada* against underanalyzed texts such as *Adventures in Canada* and *George Linton or the First Years of a British Colony*, it demonstrates how tropes like the settler hero and his indigenous servant, the animal hunt, the indigenous attack, and the lost child cross national boundaries. Settlers similarly responded to the stressors of taking another's land through the stories they told about themselves, which functioned to defend against uncomfortable feelings of guilt and ambivalence by creating new versions of reality. This book traces parallels in 20th and 21st century texts to ultimately argue that contemporary settlers continue to fight similar psychological and cultural battles since settlement is never complete.
