University College, London

Passing the UKCAT and BMAT 2010 Glenn Hutton,Rosalie Hutton,Felicity Taylor,2010-04-06 This revised and updated 2010 edition is now the most comprehensive guide available to the UK Clinical Aptitude Test and BMAT. Readers will find all they need to face the tests with confidence, fulfil their potential and succeed in their application - whichever universities they are applying to. In addition to an extensive and comprehensive bank of questions, this essential text takes would-be doctors through everything they need to know from writing their personal statements and preparing for interviews to time management and test-taking strategies.

Passing the UKCAT and BMAT 2011 6e Glenn Hutton,Rosalie Hutton,Felicity Taylor,2011-04-11 This revised and updated 2011 edition is the most comprehensive guide available to the UKCAT and BMAT. Readers will find all they need to face the tests with confidence, fulfil their potential and succeed in their application - whichever universities they are applying to. New questions have been added to the extensive practice sections of both the UKCAT and BMAT. In addition this essential text takes would-be doctors through everything they need to know from writing their personal statements and preparing for interviews to time management and test-taking strategies.

So you want to be a Doctor? David Metcalfe,Harveer Dev,Michael Moazami,2021-03-04 So you want to be a doctor? Be confident and fully prepared for every step of your medical school application. Packed with insight, tips, and information you won't find anywhere else, this essential guide helps applicants succeed against tough competition. Full of practical advice from those in the know! Over 100 medical students and admissions tutors have contributed to unique profiles of every medical school in the UK with rankings and detailed explanations of what it is really like to study at each one. Discover how often students encounter patients, how teaching is delivered, what the facilities are like, and most importantly, what admissions tutors are looking for. Every medical school is different and this book helps students choose the school they are best suited to. There is advice at every turn, providing support all the way from choosing A-levels, finding work experience, and writing personal statements, to strong strategies for interview success. The authors, who have all been through the process themselves, bring together insider information such as: - How much medical school really costs - How graduates of each medical school perform after they qualify - Which work experience is best, and how to get it - How to perform well on standardised admissions tests, such as the UCAT and BMAT, plus sample questions

Passing the UKCAT and BMAT 2012 Rosalie Hutton, Glenn Hutton, Felicity Taylor, 2012-07-06 Expert guidance and essential practice questions to help you succeed when taking both the UKCAT and BMAT.

Getting Into Medical School 2021 Entry Adam Cross (College vice-principal), Emily Lucas, 2020-04-01

Steps Towards Educational Excellence Gilbert Gbedawo, 2015-09-09 This book addresses the issues confronting parents, students, schools, and governments as they struggle to cope with the challenges of new migrants, migration, and to how to effectively educate them. The book examines the causes of underachievement among ethnic minorities in the United Kingdom, especially people of African and Afro-Caribbean descent. It highlights the frustrations of teachers in mainstream schools as they interact with children from overseas and some ethnic minorities. It also gives an insight into the problems and challenges facing black children's education and how supplementary schools are positioned to narrow the gap in underachievement among such communities in collaboration with parents and mainstream schools. The book offers practical but crucial steps and strategies that are necessary to actualize the educational aspirations of parents for their children. The book discusses the seven behaviors of outstanding students, how to maximize learning, and seven things every parent should know about their children, seven decisions that will guarantee a stronger home among other things. This is a call to action for all involved. The role of students is vital, so this book reveals the steps all students should take and how to develop the behaviors, attitudes, and dispositions that will guarantee educational excellence and success. The author reviews the importance of education through the lenses of social and human capital theories and challenges all parents regardless of their socioeconomic status to play active roles in the educational development of their children in the hope of developing the capabilities of each child. There is something in this book for every child, every parent, every career, every teacher, everyone with responsibility over children and young people and for policy makers and governmental agencies concerned about creating a culture of excellence in education and schools through partnership with the various stakeholders.

The English Doctor Dr Richard Sloan, 2012 The book describes what goes on behind the scenes in undergraduate and postgraduate medical education, scientific research and general medical practice in the United Kingdom. It covers the years 1945 to 2012 and is an account of a unique medical journey. The author was brought up by parents who were general practitioners in Yorkshire. His upbringing was thoroughly middle class and his observations of his parents work and lifestyle resulted in his wanting to be a doctor. Medical student life at University College London was hard work. Several of his teachers were eminent and world famous. Two of them were Professors J Z Young (anatomy) and Andrew Huxley (Physiology and Nobel Prize winner). Life-long friendships were made with fellow students who worked together dissecting a human body. Experiments were performed on one another. The social life in the 1960s of a group of medical student friends is described. Studying octopuses and squid in Naples, Italy. Was part of an extra degree course which was undertaken before starting hospital clinical studies? These were at The London Hospital, Whitechapel, in the east end of London. There was so

much to learn before being allowed to practice as a doctor. Clinical studies were undertaken at The London Hospital, Whitechapel. This is one of the oldest hospitals in the UK. There is a huge learning curve which resulted in a doctor just about able to deal with patients. A year of pre-registration work started on the medical wards at Mile End Hospital followed by a period in the Receiving Room (Accident and Emergency Department) at The London Hospital. The pre-registration house jobs sometimes involved working 100 hours a week. Nights in the accident emergency department were manned by one pre-registration house officer and a nurse. There is a description of what is involved undertaking research to PhD level in physiology. A new clinical thermometer was designed, tested and eventually manufactured and sold by the instrument developer Muirhead Ltd. So soon after being a student, the wheels had turned and the author was teaching students himself. There is an account of starting work as a General Practitioner in Cheltenham having not seen a single patient for the previous three years. After that he worked for a short time in a London practice and then in Castleford, West Yorkshire from 1978 to 2005. He and his wife build the practice up from a zero base to a thriving training practice housed in a large modern clinic. Doing this was financially risky as well as stressful. The development of postgraduate general practice education in Yorkshire in the last two decades of the twentieth century is described. There are descriptions of becoming a trainer of prospective GPs and then organising and managing trainers. The role of a GP tutor in the education of GPs was undertaken as a specific job. Work on the assessment of the competence of trainee GPs was overseen in the Yorkshire Deanery, based in Leeds, West Yorkshire. Work on the monitoring of the GP contract with the NHS and the GP appraisal scheme was undertaken by NHS Wakefield district, a Primary Care Trust. The author worked for both these bodies and what was involved in GP appraisal and inspection of practices' target achievements is examined in detail. Work with ill and underperforming general practitioners is described as well as mentoring GPs with problems and worries. Very few patient problems and cases are included in this book which rather tells of the work that went on in the background. It is that work that produces high quality doctors and also year on year improvement in patient care. The last chapter involved informal interviews in 2012 with people studying and working in the same fields experienced over the years by the author and outlined above. Readers are asked to judge whether the present day situation is an improvement on

How to Write a Personal Statement Jonty Purvis,2019-07 How to Write a Personal Statement will revolutionise the way you think about your university application. Written in collaboration with teachers, private tutors, and Cambridge

University admissions staff, this book provides the ultimate guide to mastering your university personal statement. Our simple yet highly effective personal statement template, the 'five step formula', will ensure you achieve your highest potential in your UCAS application. Whilst this book concentrates on the UCAS personal statement and UK university applications, the formula will be equally as effective when applying for most US and other international universities. Personal Statement Examples The most unique aspect of this book is the way in which it presents real personal statement examples. The example personal statements presented here allowed the students that wrote them to achieve offers from some of the world's best universities, including Cambridge, UCL, and LSE. However, this does not simply present example statements, but it critically analyses them, showing exactly what each student did well, and what each student failed to do. Through the combination of personal statement structure and real student examples, we believe this book offers a quick and easy guide to personal statement writing. Personal Statement Template The '5 Step Formula' template in this book is based around the 5 paragraphs every personal statement should have in order to be successful. Each of these paragraphs is covered in a different chapter of the book, with chapter 9 offering a summary of the '5 Step Formula' to ensure you are using the best personal statement structure. About the Author Jonty Purvis is a Cambridge University graduate, bestselling education author, and full-time private tutor. After working with students for many years, he established a very simple personal statement structure that saw his students achieve offers from top universities every single time. He then collaborated with teachers and admissions tutors from Cambridge to publish this book, aiming to provide students with the best UCAS personal statement template on the market. This book covers the following personal statement tips: How to start a personal statement How to structure a personal statement Personal statement conclusions How to write a personal statement for masters Medicine personal statement template Medicine personal statement examples Geography personal statement examples Economics personal statement examples UCAS personal statement advice And much more! If you are interested in quickly learning how to write an expert personal statement, then purchase this book now! If you are looking for more information on personal statement templates or want more personal statement examples, then visit this website: <https://revisionhive.com/>

The Grants Register 2008 Palgrave Macmillan, 2007-07-15 The most authoritative and comprehensive guide available to postgraduate grants and professional funding worldwide. For twenty-six years The Grants Register has been the leading source for up to date information on the availability of, and eligibility for, postgraduate and professional awards.
