The Design of Dissent Milton Glaser, Mirko Ilic, 2006-10-01 Chosen by the Editors at Amazon.com as one of the top 50 Best Books of 2005 - Now in paperback! With the world's economy in a slump, the Middle East's never ending conflict, and the on-going war on terrorism, there is a heightened awareness in the world community of the many sides of the numerous issues that both directly and indirectly affect our lives. Increasingly, people are feeling powerless and underrepresented because they have no voice. Designers, however, have a voice. They are among the most influential bystanders because their skills enable them to communicate a message easily through the Web or through posters and printed pieces. A picture is worth a thousand words and designers have used this adage to their advantage for years by creating simple yet powerful designs that immediately convey the message to the viewer. The Design of Dissent focuses on graphic work that designers have made as a result of social and political concerns. The time is certainly ripe as the U.S., and world, flares in opposition on so many important issues.

Constitutional Change and Transformation in Latin America Richard Albert, Carlos Bernal, Julian Zaiden Benvindo, 2019-07-25 Over the past 30 years, Latin America has lived through an intense period of constitutional change. Some reforms have been limited in their design and impact, while others have been far-reaching transformations to basic structural features and fundamental rights. Scholars interested in the law and politics of constitutional change in Latin America are turning increasingly to comparative methodologies to expose the nature and scope of these changes, to uncover the motivations of political actors, to theorise how better to execute the procedures of constitutional reform, and to assess whether there should be any limitations on the power of constitutional amendment. In this collection, leading and emerging voices in Latin American constitutionalism explore the complexity of the vast topography of constitutional developments, experiments and perspectives in the region. This volume offers a deep understanding of modern constitutional change in Latin America and evaluates its implications for constitutionalism, democracy, human rights and the rule of law.

The Design of Dissent, Expanded Edition Milton Glaser, Mirko Ilic, Steven Heller, 2017-08-01 The Design of Dissent is a global collection of socially and politically driven graphics on issues including Black Lives Matter, Trump protests, refugee crises, and the environment. Dissent is an essential part of keeping democratic societies healthy, and our ability as citizens to voice our opinions is not only our privilege, it is our responsibility. Most importantly, it is a human right, one which must be

fervently fought for, protected, and defended. Many of the issues and conflicts visited in the first edition of this book remain vividly present today, as simmering, sometimes throbbing reminders of how the work of democracy and pace of social change is often incremental, requiring patience, diligence, hope, and the continuing brave voices of designers whose skillful imagery emboldens, invigorates, and girds us in the face of struggle. The 160+ new works in this edition document the Arab Spring, the Obama presidency, Occupy Wall Street, Black Lives Matter, the election of Donald Trump, Putin's continuing influence, the Women's March, the ongoing refugee crises, immigration, environment and humanitarian issues, and much more. This powerful collection, totaling well over 550 images, stands not only as a testament to the power of design but as an urgent call to action.

Por qué y como cayó Porfirio Díaz Ricardo García Granados,1928

DE PRIMERA MANO Manuel Cuadra,2019-09-23 Las entrevistas aquí presentadas ofrecen incursiones en el mundo que significa La Arquitectura de la Revolución Cubana a través de relatos siempre de primera mano: siempre personales, siempre tal como vividos, siempre tal como sentidos e integrados en una visión del momento, del pasado y el futuro. Quienes hablan son arquitectos, principalmente arquitectos proyectistas, pero también arquitectos dedicados a la enseñanza universitaria y a la reflexión histórica y teórica de la arquitectura. Toman la palabra arquitectos que vivieron el triunfo de la Revolución en 1959 ya en pleno ejercicio profesional, otros que se formaron en los años 60 y más adelante, y finalmente otros a los que, a la hora de cerrar la redacción del presente volumen en 2018, se los podía calificar de arquitectos jóvenes, por su edad y por buscar abrir nuevos caminos.
