The Bonds of Love, Revisited Eyal Rozmarin,2016-03-17 Jessica Benjamin is one of the most important and influential psychoanalysts of the last 4 decades. She is one of the founders of relational psychoanalysis, a movement that has by now expanded over the globe and was also one of the first to introduce feminism and gender studies into psychoanalytic thought. Jessica Benjamin is the most known and quoted representative of these two movements within world psychoanalysis and beyond, in philosophy, gender/women's studies, and cultural studies department everywhere. The publication of her book, *Bonds of Love* (1989) was nothing short of a revolution. Psychoanalysis was until then a field immune to a changing world, to the unrest of the 60s, to the feminist and queer liberation movements, to the new philosophies of the Frankfurt School in Germany and post-structuralism in France. The book was a game changer. It called psychoanalysis to doubt its most basic premises on the human condition. It read Freud through a feminist framework, and through Hegel, forever tipping our perspective on infancy, gender, and the interplay of power and dependence that drives human relationships from the start. This volume marks the 25th anniversary of Benjamin's work. Pulling together 15 international scholars, it looks back on the book's first impact, as well as on its continued relevance to psychoanalysis and gender studies today. Chapters offer

theoretical deliberations and elaborations of the book's original themes as well as reflecting on it from more intimate angles, as a source of personal and professional inspiration for feminists and clinicians around the world. This book was originally published as a special issue of *Studies in Gender and Sexuality*.

Antitrust and Global Capitalism, 1930-2004 Tony A. Freyer, 2006-10-09 The international spread of antitrust suggested the historical process shaping global capitalism. By the 1930s, Americans feared that big business exceeded the government's capacity to impose accountability, engendering the most aggressive antitrust campaign in history. Meanwhile, big business had emerged to varying degrees in liberal Britain, Australia and France, Nazi Germany, and militarist Japan. These same nations nonetheless expressly rejected American-style antitrust as unsuited to their cultures and institutions. After World War II, however, governments in these nations - as well as the European Community - adopted workable antitrust regimes. By the millennium antitrust was instrumental to the clash between state sovereignty and globalization. What ideological and institutional factors explain the global change from opposing to supporting antitrust? Addressing this question, this book throws new light on the struggle over liberal capitalism during the Great Depression and World War II, the postwar Allied occupations of Japan and Germany, the reaction against American big-business hegemony during the Cold War, and the clash over globalization and the WTO.

*Nursing, Physician Control, and the Medical Monopoly* Thetis M. Group, Joan I. Roberts, 2001-10-03 This history of physicians' efforts to dominate the healthcare system reviews the activities of early women healers and nurses, and examines the nurse-physician relationship. The authors then examine the results of medical monopolies, from the impact of patients' health and safety, to the development of HMOs and the current overpriced and fragmented healthcare system.

**Powers of the Weak** Elizabeth Janeway, 1981 This provocative and intellectually ingenious book explodes the mystique of power to show the true relationship between the ruled and those who rule them. With the originality and marvelous sanity that have distinguished all her writings on human and social issues and made her one of the most admired voices of the Women's movement, Elizabeth Janeway here ventures boldly into new territory. By analyzing the power not in terms of the strong but of the weak -- especially women -- she uncovers the tools available to the seemingly powerless. Powers of the Weak is for all those who want not only to command their own lives but to help influence, even invent, our collective future. -- Publisher's description.
