Film Narratology Peter Verstraten, 2009-01-01 In Film Narratology, Peter W.J. Verstraten makes film narratives his primary focus, while noting the unexplored and essentially different narrative effects that film can produce with mise-en-scène, cinematography, and editing.

The Journey of Israel - Teacher's Manual PDF Dr. Brian J. Bailey, 2020-01-10 The study of Israel's journey from Egypt to the Promised Land is in reality a picture of the spiritual progression of a believer from new born babes in Christ to becoming mature fathers and mothers in the faith. Dr. Bailey will take you on a journey, where you will be given keys to attaining ever-greater heights in your relationship with Christ, until you come unto spiritual Mount Zion, and can say with the Apostle Paul, "I press toward the mark for the prize of the high calling of God in Christ Jesus."

Outside the "Comfort Zone" Tatiana Klepikova, Lukas Raabe, 2020-07-06 Traditionally, privacy studies have focused on the liberal democratic societies of the global West, whereas non-democratic contexts have played a marginal role in the discussion of the private and public spheres, not in the least because of the political stances of the Cold War era. This volume offers explorations of highly diversified performances and discourses of privacy by various actors which were embedded into the culturally, economically, and politically specific constructions of late socialism in individual states of the Warsaw Pact. While the experience of socialism varied across the Bloc, there were also some reactions to socialism and some reverse responses of socialist regimes to these reactions that one can trace through all states. Contributions to this volume take us across the Eastern Bloc and beyond it—from the Soviet Union, into late socialist Poland, Romania, and East and West Germany. While looking at specific countries, they provide a glimpse into a broader perspective that reaches beyond the borders of individual late socialist states. Together, these articles document a palette of paradigms of the construction and transformation of the private spheres that overcame the national borders of individual states and left an imprint across the Eastern Bloc, thereby contributing to rethinking Cold War rhetoric in regard to these states.

Social Work in Times of Neoliberalism Vishanthie Sewpaul, Dorothee Hölscher, 2004 Tracing the social, political, economic and ideological factors that have impacted the development of social work from both a global and a local perspective, the authors identify the historical and contemporary conflicting and competing strands.

Airline Passenger Security Screening National Research Council, Division on Engineering and Physical Sciences, National Materials Advisory Board, Commission on Engineering and Technical Systems, Panel on Passenger Screening, Committee on Commercial Aviation Security, 1996-07-19 This book addresses new technologies being considered by the Federal Aviation Administration (FAA) for screening airport passengers for concealed weapons and explosives. The FAA is supporting the development of promising new technologies that can reveal the presence not only of metal-based weapons as with current screening technologies, but also detect plastic explosives and other non-metallic threat materials and objects, and is concerned that these new technologies may not be appropriate for use in airports for other than technical reasons. This book presents discussion of the health, legal, and public acceptance issues that are likely to be raised regarding implementation of improvements in the current electromagnetic screening technologies, implementation of screening systems that detect traces of explosive materials on passengers, and implementation of systems that generate images of passengers beneath their clothes for analysis by human screeners.
