Minority Languages, National Languages, and Official Language Policies Gillian Lane-Mercier, Denise Merkle, Jane Koustas, 2018-12-30 In a context where linguistic and cultural diversity is characterized by ever-increasing complexity, adopting official multilingual policies to correct a country's ethno-linguistic, socio-economic, and symbolic imbalances presents many obstacles, but the greatest challenge is implementing them effectively. To what degree and in what ways have official multilingualism and multiculturalism policies actually succeeded in attaining their goals? Questioning and challenging foundational concepts, *Minority Languages, National Languages, and Official Language Policies* highlights the extent to which governments and international bodies are unable to manage complex linguistic and cultural diversity on an effective and sustained basis. This volume examines the principles, theory, intentions, and outcomes of official policies of multilingualism at the city, regional, and national levels through a series of international case studies. The eleven chapters - most focusing on lesser-known geopolitical contexts and languages - bring to the fore the many paradoxes that underlie the concept of diversity, lived experiences of and attitudes toward linguistic and cultural diversity, and the official multilingual policies designed to legally enhance, protect, or constrain otherness. An authoritative source of new and updated information, offering fresh interpretations and analyses of evolving sociolinguistic and political phenomena in today's global world, *Minority Languages, National Languages, and Official Language Policies* demonstrates how language policies often fail to deal appropriately or adequately with the issues they are designed to solve.

LGBTQ+ Visibilities in the Caucasus and Central Asia Jasmin Dall'Agnola, Cai Wilkinson, 2025-03-19 This book discusses the ongoing challenges of queer visibilities, activism, and knowledge production and demonstrates that there are lessons to be learned from the experiences of queer people in the Caucasus and Central Asia. The idea for this book emerged from a desire to showcase queer scholarship in and on the region, following a panel discussion about the visibility of queer communities in the post-Soviet space at the ASEES virtual convention in December 2021. The contributions in this book explore questions, including but not limited to: Under what circumstances and conditions does the Internet play a polarizing or liberalizing role in relation to sexual and gender diversities? What accounts for the divergent trajectories of LGBTQ+ rights recognition in different states and regions of the world? How is expanding access to the Internet and persistent government censorship and queerphobia changing LGBTQ+ identities, visibilities, and activism? Via their engagements with

the questions outlined above, this book amply demonstrates not just the relevance of scholarship about LGBTQ+ communities and activism for both area studies and queer studies but the ongoing need to interrogate existing political economies of knowledge production. The chapters in this book were originally published in Central Asian Survey and are accompanied by a new Foreword, an updated Introduction, an Epilogue, and an Afterword.

The Routledge International Handbook of Language Education Policy in Asia Andy Kirkpatrick, Anthony J. Liddicoat, 2019-04-17 This must-have handbook offers a comprehensive survey of the field. It reviews the language education policies of Asia, encompassing 30 countries sub-divided by regions, namely East, Southeast, South and Central Asia, and considers the extent to which these are being implemented and with what effect. The most recent iteration of language education policies of each of the countries is described and the impact and potential consequence of any change is critically considered. Each country chapter provides a historical overview of the languages in use and language education policies, examines the ideologies underpinning the language choices, and includes an account of the debates and controversies surrounding language and language education policies, before concluding with some predictions for the future.
