Alfred Austin

Sex Addiction Barry Reay,Nina Attwood,Claire Gooder,2015-08-06 The concept of sex addiction took hold in the 1980s as a product of cultural anxiety. Yet, despite being essentially mythical, sex addiction has to be taken seriously as a phenomenon. Its success as a purported malady lay with its medicalization, both as a self-help movement in terms of self-diagnosis, and as a rapidly growing industry of therapists treating the new disease. The media played a role in its history, first with TV, the tabloids and the case histories of claimed celebrity victims all helping to popularize the concept, and then with the impact of the Internet. This book is a critical history of an archetypically modern sexual syndrome. Reay, Attwood and Gooder argue that this strange history of social opportunism, diagnostic amorphism, therapeutic self-interest and popular cultural endorsement is marked by an essential social conservatism: sex addiction has become a convenient term to describe disapproved sex. It is a label without explanatory force. This book will be essential reading for those interested in sexuality studies, contemporary history, psychology, psychiatry, sociology, media studies and studies of the Internet. It will also be of interest to doctors and therapists currently working in this and related fields.

Love Is the Resistance Ashley Abercrombie,2021-08-31 When it comes to disagreement, we are in perpetual fight-or-flight mode. Rather than respond with a posture of compassion and connection, we are encouraged to resist others personally and politically. Either we engage in fruitless arguments with people who refuse to see things our way or we retreat to our echo chambers where everyone agrees with us. But the real resistance, the kind that helps us grow, is learning to love others-especially those who disagree with us. If you're tired of seeing your real-life and online communities in turmoil and you long to be an agent of peace, understanding, and reconciliation, it's time to join a new kind of resistance movement--one that pushes us toward personal transformation. Grounded in Scripture and illustrated with compelling true stories, this new book from Ashley Abercrombie will help you gain the confidence to communicate and connect with others, stop avoiding necessary tension, and resolve your internal and external conflicts. When we make love our habitual reaction to the conflicts and divisions in our lives, we'll find that we can stay true to our convictions without sacrificing our relationships.

First Love Wendy Austin,2003 What is the adolescent's experience of amorous love? In seeking an answer to this question, Wendy Austin gathered descriptions from individuals who were in love as teenagers, explored literary texts, movies, and songs, and reflected on personal experience. To understand the influences that shape her own pre-understandings of love and that of her society, Austin examined the psychological research, reviewed the explanatory theories of scholars on love and revisited the great love stories that have survived across time to reveal four major descriptive themes - awakening, falling, possessing, and becoming. Adolescence has been called a time of rebirth; in considering the sentimental education of adolescents, Wendy Austin considers ways in which adults may attend this rebirth in a helpful way.

The Fall of the God of Money Keith McMahon, 2002-06-18 In this first truly cross-cultural study of opium, Keith McMahon considers the perspectives of both smokers and non-smokers from China and the Euro-West and from both sides of the issue of opium prohibition. The author stages a dramatic confrontation between the Chinese opium user and the Euro-Westerner who saw in opium the image of an uncanny Asiatic menace. The rise of the opium demon meant the fall of the god of money, that is, Chinese money, and the irreversible trend in which Confucianism gave way to Christianity. The book explores early Western observations of opium smoking, the formation of arguments for and against the legalization of opium, the portrayals of opium smoking in Chinese poetry and prose, and scenes of opium-smoking interactions among male and female smokers and smokers of all social levels in 19th-century China.
