**Aspects et sens du droit international privé** Hague Academy of International Law, 1985-05-13 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects. The work of the Hague Academy receives the support and recognition of the UN. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law .

**Les bases éthiques pour le droit et la société** , 1986-10-20 Problèmes de Conflits de Lois en Matière de Filiation, Jacques Foyer Jacques Foyer, Professor at the University of Paris II, notes in introduction of his course that it can be enlightening to compare the different modern methods of solution of the conflict of laws regarding filiation. The study of the different systems shows that there exist at least three methods to contradict the classic choice-of-law rule. The course is structured around the analysis of these three methods. Firstly, it is the criticism of the rigid character and the unpredictability of the traditional rule that triggers the temptation of a manipulation of the choice of law rule. The author then points out that one could question its abstract and arbitrary character, which leads on the one hand to an attempt to hierarchization, and on the other hand, to a diversification of the choice-of-law rules. Lastly, it is the principle of the foreign law's purpose to govern legal relationships in the same way as the lex fori that is questioned, which leads to its partial elimination to the profit of a more or less systematic application of the territorial law or of the one of the court hearing the action. General Course on Private International Law, Friedrich K. Juenger According to Friedrich Juenger, Professor at the University of California in Davis, the outstanding characteristic of the conflict of laws is the lack of consensus on the discipline's goals and methods. He proposes to put the accent in his course on the events for which public international law must find a solution in order to avoid the constant danger that threatens the discipline: that is, to become a simple academic game. Three examples of reported cases and the kinds of issues they raise are given in the Introduction. Professor Juenger next gives a detailed historical overview of the conflict of laws, from Antiquity to Mancini. In addition, the author presents the emergence of new orthodoxies, or rather proposes to re-examine the traditional doctrines, and points out the advantages

of a teleological approach. That allows him to revisit the three cases mentioned in the Introduction. Les Bases éthiques pour le Droit et la Société Perspectives de la Commission indépendante sur les questions humanitaires internationales, Sadruddin Aga Khan Conference of July 30, 1985 Sadruddin Aga Khan, President of the Independent Commission on International Humanitarian Issues, recalls in his course on the ethical bases of law and society that the role of the commission he presides is to remind us of the basic elements of a code of ethics which has the same spiritual significance as that found in all major religions. Lawyers as well as scientists, adds the author, must mobilize their immense resources, bearing in mind that the rule of law should never disregard moral appreciation.

*Status of NGOs in International Humanitarian Law* Claudie Barrat,2014-07-24 In Status of NGOs in International Humanitarian Law, Claudie Barrat examines the legal framework applicable to NGOs in situations of armed conflict. The author convincingly demonstrates, contrary to convention, that in addition to the ICRC, the National Societies and the IFRC, numerous other NGOs referenced in humanitarian law treaties have a legal status in IHL and therefore legitimate claim to employ IHL provisions to respond to current challenges. On the basis of clear and thorough definitions of these entities, Barrat argues that existing NGOs meeting stringent definition can benefit from customary rights and obligations in both international and non-international armed conflict.
