Key Dates in Art History Roslin Mair,1979 What were the most important paintings done in France between 1650 and 1700? While Picasso was working on Les Demoiselles d'Avignon, who was making the most important paintings, sculptures, and buildings in the United States? Key Dates in Art History from 600 BC to the Present provides fast, accurate, pictorial and factual reference in the history of Western painting, sculpture, and architecture. The book functions in at least four different ways. Firstly, the reader can discover within any one period the parallel developments in various geographical areas. Secondly, the pictures reinforce the idea of period and style. Thirdly, the accompanying chronology of social historical and art historical events enables the reader to place the art history in a wider context. Fourthly, a comprehensive index of all works of art and artists mentioned allows the book to be used as reference from particular to the general period and style.-- Publisher's description.

Renaissance Theory James Elkins,Robert Williams,2008-04 Renaissance Theory presents an animated conversation among art historians about the optimal ways of conceptualizing Renaissance art, and the links between Renaissance art and contemporary art and theory. This is the first discussion of its kind, involving not only questions within Renaissance scholarship, but issues of concern to art historians and critics in all fields. Organized as a virtual roundtable discussion, the contributors discuss rifts and disagreements about how to understand the Renaissance and debate the principal texts and authors of the last thirty years who have sought to reconceptualize the period. They then turn to the issue of the relation between modern art and the Renaissance: Why do modern art historians and critics so seldom refer to the Renaissance? Is the Renaissance our indispensable heritage, or are we cut off from it by the revolution of modernism? The volume includes an introduction by Rebecca Zorach and two final, synoptic essays, as well as contributions from some of the most prominent thinkers on Renaissance art including Stephen Campbell, Michael Cole, Frederika Jakobs, Claire Farago, and Matt Kavalier.
