Italian Lighting Design 1945-2000 Alberto Bassi,2004 Following World War II, Italian industrial designers began to earn worldwide acclaim for their lamp and lighting designs; since then the country has produced landmark models that have become classics of modern and contemporary design, such as lamps by the Castiglioni brothers and Artemide. This richly illustrated book documents the evolution of Italian lamp and lighting design from 1945 to the end of the twentieth century. A collection of essays by design historian Alberto Bassi, organized in seventeen sections, traces the industry's critical and commercial successes and the unique relationship between tradition, decorative quality, technology, and production. Included are profiles of individual designers such the Castiglioni brothers, Vico Magistretti, Gino Sarfatti and Pietro Chiesa, and manufacturers such as Flos, Fontana Arte, and Luceplan. The book reproduces more than 300 archival and new photographs, original advertisements, product displays, and installations of lights and lighting. This volume is the second in a new series, inaugurated by ABC: Twentieth-Century Graphic Design, aimed not just at a traditional readership of architects but also at people working in the field of graphics and students at the new faculties of design.

**Design for Living** David A. Hanks,Anne H. Hoy,Musée des arts décoratifs de Montréal,Montreal Museum of Fine Arts,2000 A lively and lavishly illustrated history of decorative arts from 1950 through 2000, this survey presents 130 key examples of later twentieth-century design in their cultural contexts. The primary focus is furniture-- both one-of-a-kind examples and mass-produced works-- by international designers and architects. Here are classic designs for chairs, shelving units, and lamps by well-known masters from Aarnio to Zanuso, as well as provocative works by newcomers. All the works in Design for Living are from the Liliane and David M. Stewart Collection of the Montreal Museum of Decorative Arts/Montreal Museum of Fine Arts. The furniture is presented in five chapters which establish decade by decade, the historical, artistic, and technical currents that led from Good Design and traditional Modernism to Pop Art and Post-Modernism, and to concerns for ecology, pluralism, and spirituality. Full-color photographs and entries on each object profile the design process and the designer, while illustrations show these works in their original period settings. All this recommends Design for Living to the general reader, as well as to the designer, collector, and scholar. Here is an accessible guide and resource to the fifty years of exuberant creativity that mark the second half of the twentieth century.
