Routledge Handbook of NFT Law Pınar Çağlayan Aksoy,Larry Dimatteo,Saskia Hufnagel,2025-11-04 Non-fungible tokens (NFTs) are types of crypto-assets that function on the blockchain. Anything that one can digitize has the potential of becoming an NFT. While NFTs raise similar issues as other crypto-assets, there are many use cases and characteristics that are unique and call for special attention. At a time when individual countries have started responding to various legal issues, this volume examines these matters from a comparative law perspective. The book approaches NFTs from a multidisciplinary perspective and provides in-depth information about the potential legal problems that arise from their use and transfer. The work looks at NFTs from different areas of law to determine the problems and how they can be resolved. Divided into seven parts, Part I introduces the key elements of NFTs and lays the foundation for the understanding of subsequent chapters. Part II focuses on NFTs from the perspective of contract law and discusses if/how they conflict with its traditional principles. Part III examines issues around intellectual property, trademark and patent law. Part IV reflects on how NFTs will transform business law. Part V deals with complex public law aspects. Part VI focuses on data and consumer protection problems that arise when NFTs become mainstream. Finally, Part VII focuses on how NFTs will change the dispute resolution process and the courts. The book will be an essential resource for academics, researchers and policymakers working in the areas of technology and law.

Sustainable Transition of Meat and Cured Meat Supply Chain Anna Maria Fellegara,Riccardo Torelli,Andrea

Caccialanza,2023-08-22 This edited volume provides an innovative perspective on the future of food systems. The contributors analyse relevant issues for a sustainable and responsible food consumption and cover fundamental steps for a broader approach to the sustainability of meat-based products. The book presents several issues and solutions to engage food firms in a measurable ecological transition. Topics discussed include not only the pedagogical perspective on sustainable food consumption, the evolution of (meat-based) food production systems and the animal welfare perspective, but also the adaptation of firm's strategies to the sustainable transition, the effects of climate change on agri-food firms' governance structures and the evolution of consumers perceptions on meat-based products and the role of CSR labels. This book targets managers and entrepreneurs who work in the meat industry and are seeking to improve their socio-environmental performance and governance, accountants that works at the production of sustainability reports for food companies, researchers working at the cutting edge of the food and environmental fields, professionals working in the meat industry and researchers interested in the investigation of novelties in European food regulation.

Complexity and Sustainability in Megaprojects Franca Cantoni,Laura Corazza,Ernesto De Nito,Primiano Di Nauta,Edoardo Favari,2024-05-20 This book showcases the discussion about megaprojects carried out at the MeRIT (Megaproject Research Interdisciplinary Team) workshop 2023: the crisis, discontinuity, rising prices, and supply chains disruption force radical reflection for those involved in megaprojects. It raises a modern-day challenge, the creation of value for stakeholders. Indeed, the aim of the volume is to encourage readers to think more broadly, articulately and less stringently than the mainstream claims. There is a need to design, implement, and manage megaprojects by abandoning the old paradigm that leveraged solely on time and cost. We need to move beyond that by going to explore the value generated, the positive impact on people, communities and territories. Economic, social and environmental sustainability takes on a new and broader articulation: issues of the circular economy applied to megaprojects are addressed and ample space is ensured for the inclusion of social needs in current practices.

Guida al transfer pricing Antonella Della Rovere, Pietro Schipani, Carola Valente, Piergiorgio Valente, Federico Vincenti, 2024-06-24 Il Volume "Guida al Transfer Pricing. Documentazione, analisi economiche e casi applicativi" si rivolge a tutti gli operatori economici e fornisce suggerimenti pratici e spunti tecnico-operativi per l'adozione, da parte dei gruppi di imprese, delle best practice in tema di prezzi di trasferimento. La normativa in materia di prezzi di trasferimento prevede, infatti, che le transazioni intercorrenti tra imprese appartenenti al medesimo gruppo multinazionale debbano riflettere le stesse condizioni previste nei rapporti con e tra soggetti indipendenti. Sarà necessario predisporre specifiche analisi aventi l'obiettivo di comprendere la value chain del gruppo, le singole operazioni intercompany, il ruolo funzionale e di rischio di ogni impresa con l'obiettivo finale di selezionare la metodologia di determinazione dei prezzi di trasferimento che meglio si presta alle specifiche circostanze del caso e dimostrare la conformità delle politiche di transfer pricing adottate al principio di libera concorrenza. L'applicazione al caso concreto richiede pertanto una visione completa del transfer pricing e di tutte le problematiche ad esso connesse nonché una corretta comprensione del modello di business, delle caratteristiche peculiari del settore di riferimento e della catena del valore adottata dai gruppi multinazionali. La Collana Fiscalità Internazionale, diretta da Piergiorgio Valente, affronta in maniera esaustiva le tematiche di principale attualità nel panorama della fiscalità internazionale, tenendo conto dello scenario economico nel quale le imprese, italiane ed estere, si trovano ad operare. Mediante lo studio teorico-analitico, l'approfondimento tecnico-applicativo, le esemplificazioni in casi di studio e i riferimenti alla prassi professionale, la Collana ha l'obiettivo di fornire a studiosi, professionisti, manager d'azienda e funzionari dell'amministrazione risposte adeguate alle problematiche concrete degli investimenti all'estero.
