Practices for Gender Equality: Teachers' Sense of Efficacy Wendy Peia Oakes, Ying-Chih Chen, Ali Ait Si Mhamed, Alexander Kurz, Tanya Pinkerton, Nicole L. Thompson, Abdessamad Fatmi, Setrag Hovsepian, 2025-11-24 The United Nations' 2030 Agenda for Sustainable Development established goals (SDGs) for a flourishing global community. Educators play a key role in achieving gender equality (SDG 5) through the use of gender-responsive pedagogical practices that promote inclusive education (SDG 4). Teachers' sense of efficacy influences their use of pedagogical practices. This Research Topic explores teachers' sense of efficacy in their knowledge and awareness, use of gender-responsive pedagogy, and gender equity attitudes (Miralles-Cardona et al., 2021) for preservice and in-service educators in the Middle East and North Africa (MENA) Region. As an example of efforts in the MENA region, following the Kingdom of Morocco's 2030 National Reform Framework, Moroccan professors engaged in primary teacher preparation curricular reform efforts through collaborative research and design groups. The goals of this framework include promoting high-quality inclusive education for all (SDG 4) and gender equity (SDG 5). Educators play an important role in achieving these goals by providing gender-equitable practices in primary and secondary schools. Teacher preparation programs are responsible for preparing teachers with the knowledge, skills, and attitudes to implement gender-equitable practices effectively. To inform teacher preparation curricula, it is important to know the current state of pre-and in-service teachers' sense of efficacy for promoting gender equality during the early implementation of the primary teacher education curriculum. Understanding the current state of teachers' sense of efficacy can inform curricular refinement and future research efforts. This research topic focuses on issues related to gender equity knowledge and understanding, the use of gender-responsive pedagogy, and/or attitudes toward gender equity from a variety of perspectives and educational actors.

The Social Impact of Automating Translation Esther Monzó-Nebot, Vicenta Tasa-Fuster, 2024-12-30 This collection critically examines the practical impacts of machine translation (MT) through the lens of an ethics of care. It addresses the ideological issues in MT development linked to social hierarchies and explores the transformative potential of care ethics for more equitable technological progress. The volume explores the ideological constructs behind MT as a labor-saving technology, how these constructs are embedded in both its development and social reception, and how they manifest in

biased outputs. The chapters cover the cultural roots of translation automation, its legal and political implications, and the needs of various stakeholders. These stakeholders include lay users, Indigenous communities, institutions, educators, and professionals in an increasingly multicultural society. The book also addresses individuals who require translation daily with varying degrees of familiarity with their own translation needs and the tools available. Through critical engagement with the social impacts of MT, the book advocates for an epistemology of care to foster social equity and democratic values in technological progress. This book will interest scholars in translation studies, law, and sociotechnology, as well as practicing translators, policymakers, technologists, and activists seeking ethical and inclusive approaches to machine translation and technological development.

Marriage and the Culture of Peace Cecilia Sarahi de la Rosa Vazquez, Paris A. Cabello-Tijerina, 2023-03-14 This book provides skills for therapists and families to help improve interpersonal communication, promoting a new system of family coexistence and a refreshed concept of the modern marriage in society. Written from a constructivist peace perspective, the book's aim is to reduce the high statistics of intimate partner violence that occurs in Mexico, arguing that the culture of peace and how it is born in the family in turn affects society for better or for worse. Based upon interviews from 150 long-term married couples, the chapters address the components that promote peaceful dialogue in marriages, such as assertive language, active listening, tolerance to frustration, and gender perspectives. Including accessible language and several models of peace, the book uniquely examines same-sex marriages, the role of children in marriage conflicts, and prescribed gender assumptions and roles in relationships. It aims to empower family members to move away from old habits and seek a more equitable existence in marriages and society at large. This interdisciplinary text will be of great interest to family therapists and clinical social workers, as well as to students and researchers in communication and peace studies.

From the City as a Project to the City Project Fernando Carrión Mena,

Ocurrió en Octubre Sergio Micco Aguayo, 2025-09-22 *Ocurrió en octubre*. Lo que los chilenos teníamos por sólido, sagrado e inviolable fue resquebrajado, profanado y violentado. Cientos de miles salieron a las calles protestando en contra de una democracia que algunos creíamos consolidada. Vino la violencia, vidas fueron tronchadas, rostros mutilados, cuerpos quemados, iglesias profanadas, museos saqueados, bienes públicos incendiados y el esfuerzo de miles y miles de vecinos y pequeños comerciantes lanzado a la hoguera de la indignación. Me tocó vivir estos hechos en primera persona, como director ejecutivo del Instituto Nacional de Derechos Humanos (INDH), institución creada bajo el mandato, ahora ilusión, del Nunca más. Sin embargo, a contrapelo de la solemnidad de ese deseo, se produjeron en ese octubre de 2019 y en los meses que vinieron las más graves violaciones a los derechos humanos y los más execrables actos de violencia desde el retorno a la democracia. Salieron a la luz grietas apenas escondidas que estaban allí debilitando, desde hacía años, los muros de nuestra república. ¿Qué pasó? ¿Por qué ocurrió? ¿Qué podemos hacer para que no vuelva a tener lugar? De esto trata este libro, que

es mi crónica, día a día, del estallido y de mi paso por el INDH.

Nuevo ensayo político-social de la República Mexicana. Recuento de las desigualdades y la pobreza en México, 1970-1980. Tomo III Mario Luis Fuentes, Saúl Arellano, 2023-10-16 En este volumen de la colección Historia de los Censos y la Estadística Social corresponde a fotografías sobre las características y la distribución de la población en el territorio de finales de las décadas comprendidas entre 1961 y 1980, en las que ocurrieron cambios de gran trascendencia para el país. Como lo destacan los autores, son décadas donde el modelo de desarrollo centrado en la industrialización y el régimen autoritario presidencialista, comienzan a mostrar sus debilidades y a ser cuestionados por importantes movimientos sociales como el de 1968.
