Meditations Journal Marcus Aurelius,2022-12-06 Drawing from the iconic Stoic text Meditations by Marcus Aurelius, Meditations Journal invites the millions of readers who have learned from him to deepen their understanding of his philosophy and reflect on how to better their lives. “It’s silly to try to escape other people’s faults. They are inescapable. Just try to escape your own.”—Marcus Aurelius, Meditations Marcus Aurelius wrote this in his journal almost 2000 years ago—and he might have written it this morning. He was Emperor of Rome in A.D. 161, a statesman, a philosopher, and a constant, thoughtful journaler. He was also one of the first adopters of Stoicism, the original self-help philosophy that believes happiness can be achieved by leading a virtuous and ethical life, which has stayed relevant for 2000 years. Pulling from the basic tenets of Stoicism, Meditations Journal presents thoughtful reminders, prompts, and advice to help readers look inward, find fulfillment in the present moment, and build a meaningful future, such as: • Nothing that goes on in anyone else’s mind can harm you. • It’s time you realized that you have something in you more powerful and miraculous than the things that affect you. • Frightened of change? But what can exist without it? • Our own worth is measured by what we devote our energy to. • Practice really hearing what people say. Whether or not you've read Meditations, Meditations Journal offers pithy, inspiring comments drawn from the core text that give readers simple but profound ways to take control of their lives, identify obstructions, and above all, live a good life.

Immortality Stephen Cave, 2012-04-03 If you could live forever, would you want to? Both a fascinating look at the history of our strive for immortality and an investigation into whether living forever is really all it's cracked up to be. A fascinating work of popular philosophy and history that both enlightens and entertains, Stephen Cave investigates whether it just might be possible to live forever and whether we should want to. He also makes a powerful argument that it's our very preoccupation with defying mortality that drives civilization. Central to this book is the metaphor of a mountaintop where one can find the Immortals. Since the dawn of humanity, everyone – whether they know it or not—has been trying to climb that mountain. But there are only four paths up its treacherous slope, and there have only ever been four paths. Throughout history, people have wagered everything on their choice of the correct path, and fought wars against those who've chosen differently. In drawing back the curtain on what compels humans to “keep on keeping on,” Cave engages the reader in a number of mind-bending thought experiments. He teases out the implications of each immortality gambit, asking, for example, how long a person would live if they did manage to acquire a perfectly disease-free body. Or what would happen if a super-being tried to round up the atomic constituents of all who've died in order to resurrect them. Or what our loved ones would really be doing in heaven if it does exist. We're confronted with a series of brain-rattling questions: What would happen if tomorrow humanity discovered that there is no life but this one? Would people continue to please their boss, vie for the title of Year's Best Salesman? Would three-hundred-year projects still get started? If the four paths up the Mount of the Immortals lead nowhere—if there is no getting up to the summit—is there still reason to live? And can civilization survive? Immortality is a deeply satisfying book, as optimistic about the human condition as it is insightful about the true arc of history.

Essential Quotes for Scientists and Engineers Konstantin K. Likharev, 2021-02-27 This book brings together about 2,500 quotations on various topics of interest to scientists and engineers, including students of STEM disciplines. Careful curation of the material by the editor provides the reader with far greater value than can be obtained by searching the internet. The quotes have been selected for various attributes including: importance of topic, depth of insight, and - not least - wit, with many of them satisfying all these criteria. To make sequential reading of the quotes more engaging, they are grouped into broad topical sections, and the entries within each section are organized thematically, forming quasi-continuous narrative threads. The text and authorship of each quote have been carefully verified, and the most popular cases of misquotation and misattribution are noted. The book represents a valuable resource for those writing science and engineering articles as well as being a joy to read in its own right.

The Meditations of Marcus Aurelius Marcus Aurelius, 2017-04-29 About Marcus Aurelius Meditations Meditations is a series of personal writings by Marcus Aurelius, Roman Emperor from 161 to 180 AD, recording his private notes to himself and ideas on Stoic philosophy. Marcus Aurelius wrote the 12 books of the Meditations in Koine Greek as a source for his own guidance and self-improvement. It is possible that large portions of the work were written at Sirmium, where he spent much time planning military campaigns from 170 to 180. It is unlikely that Marcus Aurelius ever intended his Meditations to be published and the work has no official title, so Meditations is one of several titles commonly assigned to the collection. These writings take the form of quotations varying in length from one sentence to long paragraphs. About this translation of Marcus Aurelius Meditations This is the classic and official translation of the Meditations as produced by George Long and originally printed in The Harvard Classics. What you get when you buy this edition of Meditations This edition of Meditations is an 80 page long 9x6 trade paperback edition in creme paper and a black glossy cover. Famous quotes from this edition of Meditations Do not act as if thou wert going to live ten thousand years. Death hangs over thee. While thou livest, while it is in thy power, be good. Why do you hunger for length of days? The point of life is to follow reason and the divine spirit and to accept whatever nature sends you. To live in this way is not to fear death, but to hold it in contempt. Death is only a thing of terror for those unable to live in the present. Pass on your way, then, with a smiling face, under the smile of him who bids you go. Do not then consider life a thing of any value. For look at the immensity of time behind thee, and to the time which is before thee, another boundless space. In this infinity then what is the difference between him who lives three days and him who lives three generations? A cucumber is bitter. Throw it away. There are briars in the road. Turn aside from them. This is enough. Do not add, And why were such things made in the world? If thou art pained by any external thing, it is not this that disturbs thee, but thy own judgment about it. And it is in thy power to wipe out this judgment now. What a reader says about Marcus Aurelius Meditations We find several recurring themes in The Meditations: develop self-discipline to gain control over judgments and desires; overcoming a fear of death; value an ability to retreat into a rich, interior mental life (one's inner citadel); recognize the world as a manifestation of the divine; live according to reason; avoid luxury and opulence. But generalizations will not approach the richness and wisdom nuggets a reader will find in Marcus's actual words.-Glenn Russel

Aspects of Death and Correlated Aspects of Life in Art, Epigram, and Poetry Frederick Parkes Weber,1922

Foreigners Jay Zhou,2017-09-28 These are tenebrous, ominous days. The armies, Lifeseekers and Scavengers have learned that their mother planetEarth, is now the battlefield of a galactic war. Two superior species seek domination through technological and physical powers. Earth is suffering in a sea of flames, and only the true heroes can prevent the ultimate demise. With their limited resources and fearsome enemies, can the humans defend their own planet against invaders, or shall the entire planet fall into the hands of invaders from outer space?

Catholic and Reformed Traditions in International Law Paulo Emílio Vauthier Borges de Macedo,2017-08-28 This book compares the respective concepts of the law of nations put forward by the Spanish theologian Francisco Suárez and by the Dutch jurist Hugo Grotius. This comparison is based on the fact that both thinkers developed quite similar notions and were the first to depart from the Roman conception, which persisted throughout the entire Middle Ages and the early Renaissance. In Rome, *jus gentium* was a law that applied to foreigners within the Empire, and one which was often mistaken for Natural Law itself. These two features can be found even in the works of writers such as Francisco de Vitória and Alberico Gentili. In Suárez and Grotius, the law of nations is applicable to an extra-national domain and inarguably becomes positive law. Yet, it also contains an ethical element that prevents it from transforming into a mere reflection of state interests. This work argues that this resemblance is hardly a coincidence: Grotius has read Suárez, and that influence has

modified the foundations of his early thoughts on jus gentium. This should not be taken to imply that the Dutch jurist wasn't original: in both authors, the definition of the law of nations pursues his own internal logic. Nevertheless, Suárez's oeuvre allowed Grotius to solve a fundamental problem touched on in his early writings that had remained unanswered. Accordingly, his oeuvre promises to clarify one of the most significant moments in the History of International Law.
