La individualidad y sus máscaras. Víctor Manuel Carrasco Belmont,2022-01-05 ¿Quién soy? ¿Por qué me comporto de esta manera? ¿Cómo fue que definí mi personalidad? ¿Qué o quién influyó para que sea así? ¿De qué manera puedo comprender mis actitudes y formas de pensar y sentir? Esta obra, como continuación de nuestra serie psicológica, tiene como principal objetivo explicar, de manera teórica y práctica, los factores que intervienen en la construcción de la personalidad del Ser, tomando en cuenta no solo los factores psicosociales y biológicos, sino que también incentiva a ir más allá de la realidad establecida por el principio de materia, es decir, trasciende las barreras de la vida en un cuerpo físico, buscando así, elucidar de manera amplia los comportamientos estructurados a través de los pasajes encarnatorios y semimateriales del propio Ser, demostrando el sentido evolutivo y amplio que estas personalidades construidas tienen para la integración de la individualidad del Ser, la cual busca su individuación y Pleno estado de Consciencia. En ese sentido, las reencarnaciones jugarán un papel indispensable en el entendimiento de los comportamientos del Ser, comprendiendo que la personalidad actual no empieza como una hoja en blanco, tal como Aristóteles argumentaba, sino que esta es construida a partir de sus vivencias anteriores, es decir, en vez de la personalidad partir de cero en la presente encarnación, esta será influenciada, desde el inicio, por un conjunto de pensamientos psicoafectivos, los cuales se encuentran plasmados en las capas más profundas de su Psique, o sea, en el Inconsciente. No obstante, las reminiscencias de encarnaciones anteriores no serán los únicos factores a ser contemplados en la construcción de la personalidad actual, el entorno Antroposociopsicológico jugará un papel indispensable para la reconstrucción de sentido en el propio Ser. Por otro lado, ese conjunto de experiencias, adquiridas a través de las reencarnaciones, permitirá al Ser estructurar una individualidad que incentive su proceso de evolución, esto con el objetivo de alcanzar su propia perfección, o en las palabras de Kardec (1857); “El Ser parte, en cada nueva existencia, del punto en que llegó en su existencia anterior”. Aunado a lo anterior, esta obra presentará diferentes métodos y procesos terapéuticos que consigan encaminar al estudio crítico de lo expuesto en la parte teórica de la presente obra y en el libro I (El Ser y el Arquetipo Universal). Así mismo, se presentarán un conjunto de estudios empíricos que comprueban la influencia de las vidas pasadas en la presente encarnación del Ser, así como se explicará, con base en el Modelo Psíquico Universal, como esos recuerdos se establecen en la Psique del mismo.
