The Graphic Novel Classroom Maureen Bakis, 2014-08-05 Every teacher knows that keeping adolescents interested in learning can be challenging—The Graphic Novel Classroom overcomes that challenge. In these pages, you will learn how to create your own graphic novel in order to inspire students and make them love reading. Create your own superhero to teach reading, writing, critical thinking, and problem solving! Secondary language arts teacher Maureen Bakis discovered this powerful pedagogy in her own search to engage her students. Amazingly successful results encouraged Bakis to provide this learning tool to other middle and high school teachers so that they might also use this foolproof method to inspire their students. Readers will learn how to incorporate graphic novels into their classrooms in order to: Teach twenty-first-century skills such as interpretation of content and form Improve students' writing and visual comprehension Captivate both struggling and proficient students in reading Promote authentic literacy learning Develop students' ability to create in multiple formats This all-encompassing resource includes teaching and learning models, text-specific detailed lesson units, and examples of student work. An effective, contemporary way to improve learning and inspire students to love reading, The Graphic Novel Classroom is the perfect superpower for every teacher of adolescent students!

Handbook of Research on Aestheticization of Violence, Horror, and Power Erdem, M. Nur, Kocabay-Sener, Nihal, Demir, Tuğba, 2020-10-02 Individuals seek ways to repress the sense of violence within themselves and often resort to medial channels. The hunger of the individual for violence is a trigger for the generation of violent content by media, owners of political power, owners of religious power, etc. However, this content is produced considering the individual's sensitivities. Thus, violence is aestheticized. Aesthetics of violence appear in different fields and in different forms. In order to analyze it, an interdisciplinary perspective is required. The Handbook of Research on Aestheticization of Violence, Horror, and Power brings together two different concepts that seem incompatible—aesthetics and violence—and focuses on the basic motives of aestheticizing and presenting violence in different fields and genres, as well as the role of audience reception. Seeking to reveal this togetherness with different methods, research, analyses, and findings in different fields that include media, urban design, art, and mythology, the book covers the aestheticization of fear, power, and violence in such mediums as public relations, digital games, and performance art. This comprehensive reference is an ideal source for researchers, academicians, and students working in the fields of media, culture, art, politics, architecture, aesthetics, history, cultural

anthropology, and more.
