African American Women in the Oprah Winfrey Network's Queen Sugar Drama Ollie L. Jefferson, 2021-01-15 This critical study interrogates the intersection of race and gender media representations on screen and behind the scenes. The thought-provoking investigation on the Oprah Winfrey Network's Queen Sugar series shows the ways in which the television drama is a significant contribution to mainstream media that creates in-depth conversations concerning African American women's social roles, social class, and social change. Ollie L. Jefferson provides a unique analysis of the television production by using the exemplary representations conceptual framework to contextualize and theorize research contributing to systemic change. Jefferson highlights the best practices used by African American female executive producers, Oprah Winfrey and Ava DuVernay, by examining Queen Sugar as a case study. The investigation shows how the decision-makers produced multidimensional female characters to illustrate the complex humanity of Black lives. This book broadens understanding of the media industry's need for culturally sensitive and conscious inclusion of women and people of color behind the scenes—as media owners, creators, writers, directors, and producers—to put an end to the persistent and pervasive misrepresentations of African American women on screen. Scholars of television studies, film studies, media studies, race studies, and women's studies will find this book particularly useful.

African American Women Playwrights Christy Gavin, 2012-10-12 This Guide includes the primary and secondary works and summaries of plays of 15 prominent African American women playwrights including Lorraine Hansberry, Ntozake Shange, Adrienne Kennedy, Alice Childress, Zora Neale Hurston, Georgia Douglas Johnson. During the last 10 to 15 years, critical consideration of contemporary as well as earlier black women playwrights has blossomed. Plays by black women are increasingly anthologized and two recently published anthologies devote themselves solely to black women dramatists. In light of the growing interest in scholarship concerning African American women playwrights, researchers and librarians need a bibliographical source that brings together the profiles interviews, critical material and primary sources of black female playwrights. This guide will provide a bibliographical essay reviewing the scholarship of black women playwrights as well as for each playwright: a biography, summaries of each play detailed annotations of secondary material, and list of primary

sources.

Dramatic Movement of African American Women Yuvraj Nimbaji Herode, 2023-07-11 The book demonstrates the experiences of Alice Childress, Lorraine Hansberry, and Suzan-Lori Parks in comparison with the dramas of each other and those of other African American women. These women playwrights created a militant theatre and a theatre of experience that applied to both the African American community in general and African and African American women in particular. They have been encompassed within African American woman's aesthetics that shares the militancy and experience characterized by a triple factor: race, gender, and class.

African American Women's Literature in Spain Sandra Llopart Babot, 2023-05-31 This volume brings forward a descriptive approach to the translation and reception of African American women's literature in Spain. Drawing from a multidisciplinary theoretical and methodological framework, it traces the translation history of literature produced by African American women, seeking to uncover changing strategies in translation policies as well as shifts in interests in the target context, and it examines the topicality of this cohort of authors as frames of reference for Spanish critics and reviewers. Likewise, the reception of the source literature in the Spanish context is described by reconstructing the values that underlie judgements in different reception sources. Finally, this book addresses the specific problem of the translation of Black English into Spanish. More precisely, it pays attention to the ideological and the ethical implications of translation choices and the effect of the latter on the reception of literary texts.

Workers on Arrival Joe William Trotter, 2021-01-19 An eloquent and essential correction to contemporary discussions of the American working class.—The Nation From the ongoing issues of poverty, health, housing, and employment to the recent upsurge of lethal police-community relations, the black working class stands at the center of perceptions of social and racial conflict today. Journalists and public policy analysts often discuss the black poor as “consumers” rather than “producers,” as “takers” rather than “givers,” and as “liabilities” instead of “assets.” In his engrossing history, *Workers on Arrival*, Joe William Trotter, Jr., refutes these perceptions by charting the black working class's vast contributions to the making of America. Covering the last four hundred years since Africans were first brought to Virginia in 1619, Trotter traces the complicated journey of black workers from the transatlantic slave trade to the demise of the industrial order in the twenty-first century. At the center of this compelling, fast-paced narrative are the actual experiences of these African American men and women. A dynamic and vital history of remarkable contributions despite repeated setbacks, *Workers on Arrival* expands our understanding of America's economic and industrial growth, its cities, ideas, and institutions, and the real challenges confronting black urban communities today.

The Making of American Liberal Theology Gary J. Dorrien, 2006-01-01 In this first of three volumes, Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider, longer-running tradition than has been thought.

The tradition took shape in the nineteenth century, motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism/atheism. It is defined by its openness to modern intellectual inquiry; its commitment to the authority of individual reason and experience; its conception of Christianity as an ethical way of life; and its commitment to make Christianity credible and socially relevant to modern people. Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time, including William E. Channing, Ralph Waldo Emerson, Horace Bushnell, Henry Ward Beecher, Elizabeth Cady Stanton, and Charles Briggs. Dorrien notes that, although liberal theology moved into elite academic institutions, its conceptual foundations were laid in the pulpit rather than the classroom.

Handbook of Black Librarianship E. J. Josey, Marva DeLoach, 2000-07-12 E. J. Josey and Marva DeLoach have compiled a treasure trove of information about black librarianship. This volume includes history, statistics, and documentation of contemporary issues related both to African American participation in librarianship and to the organizations that they built to provide information resources for their people. Of interest to all librarians, bibliophiles, bibliographers, and students of American culture, this handbook fills a niche in American cultural history. Like the first edition, published in 1977, this new edition chronicles the history and achievements of black librarians in their chosen profession. Chapters documenting pioneering individuals and events are juxtaposed with historical descriptions of early professional organizations. Other sections provide important information related to diversity, including the language of diversity and salient statistical facts about African American librarians. New or revised chapters treat issues related to information technology and electronic resources, library services to African Americans, and library education. Of special interest is the section on African American resources, which covers archival and fugitive literature, library holdings, literature, oral history programs, and museums, with several chapters on awards. A complete section is devoted to the important issue of health sciences libraries and blacks. Another new section covers libraries, library education, and publishing in Africa. The final section highlights the role of African Americans in selected areas of the knowledge industry.

Driven by the Movement JoNina Abron-Ervin, 2025-08-05 A collective portrait of the Black Power movement by radical journalist and former Black Panther JoNina Abron-Ervin *Driven by the Movement* collects the stories of twenty ordinary people who did extraordinary things for the Black liberation struggle during the pivotal decade of 1965–1975. These activists came from across the US and all walks of life—single working mothers, clergy, students, teachers, military veterans—to organize against police brutality, poverty, hunger, substandard schools, and colonialism in Africa. Drawing from her own experience at the heart of the movement, JoNina Abron-Ervin’s on-the-ground reporting offers a rare look into the pragmatism, optimism, compromise, and contradiction and the everyday acts of dedication that animated the Black Power era. This new edition includes expanded material on the history of the Black Panther newspaper as a source of mass political education and on the Black Panther Party’s legendary survival programs, such as its Free Breakfast for Children and healthcare programs. A foreword by writer and organizer William C. Anderson connects two torchbearers of the Black radical tradition across generations.
