Musical History as Seen through Contemporary Eyes Benjamin Knysak,Zdravko Blažeković,2022-02-04 Musical History as Seen through Contemporary Eyes, edited by Benjamin Knysak and Zdravko Blažeković, is a Festschrift published in honor of the musicologist H. Robert Cohen. Born in Baltimore, educated in New York, and with a career spanning France, Canada, and the United States, Cohen is the founder of the Répertoire international de la presse musicale (RIPM), the international project focused on the historic musical press. With research interests spanning print culture, music iconography, Hector Berlioz, musical France, and Giuseppe Verdi, this volume presents a collection of essays written by many friends and collaborators exploring these themes and many others. Musical History as Seen through Contemporary Eyes is a tribute to Cohen's contributions to musicology, librarianship, and information science spanning more than fifty years.

Epistolary Poetry in Byzantium and Beyond Krystina Kubina,Alexander Riehle,2021-05-04 Letters were an important medium of everyday communication in the ancient Mediterranean. Soon after its emergence, the epistolary form was adopted by educated elites and transformed into a literary genre, which developed distinctive markers and was used, for instance, to give political advice, to convey philosophical ideas, or to establish and foster ties with peers. A particular type of this genre is the letter cast in verse, or epistolary poem, which merges the form and function of the letter with stylistic elements of poetry. In Greek literature, epistolary poetry is first safely attested in the fourth century AD and would enjoy a lasting presence throughout the Byzantine and early modern periods. The present volume introduces the reader to this hitherto unexplored chapter of post-classical Greek literature through an anthology of exemplary epistolary poems in the original Greek with facing English translation. This collection, which covers a broad chronological range from late antique epigrams of the Greek Anthology to the poetry of western humanists, is accompanied by exegetical commentaries on the anthologized texts and by critical essays discussing questions of genre, literary composition, and historical and social contexts of selected epistolary poems. Chapters 3 and 4 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution (CC BY) 4.0 license available at <https://www.taylorfrancis.com/books/10.4324/9780429288296>

Culture and Content in French Aurélie Chevant-Aksoy,2022-03-16 Instructors in today's language classrooms face the challenge of preparing globally competent and socially responsible students with transcultural aptitude. As classroom

content shifts toward communication, collaboration, and problem solving across cultural, racial, and linguistic boundaries, the teaching of culture is an integral part of foreign language education. This volume offers nontraditional approaches to teaching culture in a complex time when the internet and social networks have blurred geographical, social, and political borders. The authors offer practical advice about teaching culture with kinesthetics, music, improvisation, and communication technologies for different competency levels. The chapters also explore multi-literacies, project-based learning, and discussions on teaching culture through literature, media, and film. The appendices share examples of course syllabi, specific course activities, and extracurricular projects that explore culinary practices, performing arts, pop culture, geolocation, digital literacy, journalism, and civic literacy.

Vietnam's Prodigal Heroes Paul Benedikt Glatz, 2021-01-12 Vietnam's Prodigal Heroes examines the critical role of desertion in the international Vietnam War debate. Paul Benedikt Glatz traces American deserters' odyssey of exile and activism in Europe, Japan, and North America to demonstrate how their speaking out and unprecedented levels of desertion in the US military changed the traditional image of the deserter.

Popular Music in France from Chanson to Techno Hugh Dauncey, 2017-07-05 In France during the 1960s and 1970s, popular music became a key component of socio-cultural modernisation as the music/record industry became increasingly important in both economic and cultural terms in response to demographic changes and the rise of the modern media. As France began questioning traditional ways of understanding politics and culture before and after May 1968, music as popular culture became an integral part of burgeoning media activity. Press, radio and television developed free from de Gaulle's state domination of information, and political activism shifted its concerns to the use of regional languages and regional cultures, including the safeguard of traditional popular music against the centralising tendencies of the Republican state. The cultural and political significance of French music was again revealed in the 1990s, as French-language music became a highly visible example of France's quest to maintain her cultural 'exceptionalism' in the face of the perceived globalising hegemony of English and US business and cultural imperialism. Laws were passed instituting minimum quotas of French-language music. The 1980s and 1990s witnessed developing issues raised by new technologies, as compact discs, the minitel telematics system, the internet and other innovations in radio and television broadcasting posed new challenges to musicians and the music industry. These trends and developments are the subject of this volume of essays by leading scholars across a range of disciplines including French studies, musicology, cultural and media studies and film studies. It constitutes the first attempt to provide a complete and up-to-date overview of the place of popular music in modern France and the reception of French popular music abroad.

Chanson Peter Hawkins, 2017-09-29 En France, tout finit par des chansons' is the well-known phrase which sums up the importance of chanson for the French. A song tradition that goes back to the Middle Ages and troubadours of the twelfth and

thirteenth centuries, chanson is part of the texture of everyday life in France - a part of the national identity and a barometer of popular taste. In this first study of chanson in English, Peter Hawkins examines the background to the genre and the difficulties in defining what is and what is not chanson. The focus then moves to the development of the singer-songwriter of chanson from 1880 to the present day. This period saw the emergence of national icons from Aristide Bruant at the end of the nineteenth century through to internationally recognized musicians such as Jacques Brel and Serge Gainsbourg. Each of these figures used chanson to express the particular moral dilemmas, tragic situations and moments of euphoria particular to themselves and their times. The book provides bibliographies, discographies and details of video recordings for each of the singer-songwriters that it discusses. It is both an essential reference guide to the genre and a useful case history of the adaptation of an ancient form to the demands of the modern mass media.

BORIS VIAN : 25 CHANSONS ET LE DESERTEUR. Boris Vian, 1964

Boris Vian Transatlantic Christopher M. Jones, 1998 Boris Vian lived during a period of redefinition in France, from the instability of the Thirties, through the German Occupation, then into the friendly if overwhelming presence of the American liberators. Vian resisted identification with the movements now associated with mid-century French literary and intellectual history - surrealism, existentialism, the absurd - while creating a multifaceted oeuvre that owed and contributed something to them all. This study concentrates, however, on the importance of American influences on Vian's extensive jazz activities and his mock translations of American noir novels under the name Vernon Sullivan. Vian personally embodied the increasingly transatlantic nature of Western culture and the melding of elite and popular forms of expression. The diverse components of this synthesis shed light on the construction of both individual and national identity in post-war France.

Troubadours, Trumpeters, Troubled Makers Gregory B. Lee, 1996 In the view of Gregory Lee, approaches to the study of modern Chinese culture based on a mythical orientalist China constructed by its dominant Other (the West) have run their course, and it is time to break free from them. Here he critically re-examines Chinese poetry in the 20th century and aims to restore it as a cultural form equal to any other and thus worthy of examination in its own right.
