Ensayos sobre la nueva historia política de América Latina, siglo XIX Guillermo Palacios, 2007 Esta obra es resultado del Coloquio Internacional Los caminos de la democracia en América latina, siglo XIX: revisión y balance de la nueva historia política. Los propósitos estaban centrados en analizar, tanto desde el punto de vista teórico como del metodológico y a partir de estudios de situaciones empíricas, la naturaleza de las nuevas tendencias historiográficas que crecieron y se consolidaron en las últimas décadas del siglo pasado al amparo de una renovación de los enfoques y de los temas de la historia política del subcontinente, anclados casi todos ellos en la revaloración de la historia de la cultura política y en ejercicios de amalgama entre la historia de la cultura y la historia política propiamente dichas.

Nosotros, los más infieles Andrés Isaac Santana, 2007 Recopilación de escritos agrupados en torno a varios bloques temáticos. En palabras de Rufo Caballero, *Nosotros, los más infieles* dibuja un mapa sociocultural de máximo rigor, donde se anudan teoría y crítica, ensayo y reseña, escritura de autor y estilos más ortodoxos. Todos comulgan, sin embargo en la necesidad de razonar, de pensar el proceso de la sociedad y la cultura cubana durante las décadas recientes, en forma de contribución acerca de una identidad punzante y robusta. En días de mundialización, la historia plural que cuenta este libro viene a ser una muestra de cómo engranar lo local y lo universal de modo orgánico y valiente. ... es la más completa y múltiple de las antologías que sobre el arte cubano se hayan conformado jamás.

Artesana de sí misma Claudia Cabello Hutt, 2018-04-15 Artesana de sí misma reevalúa el lugar de Gabriela Mistral, premio Nobel de literatura, en la historia literaria e intelectual de América Latina. Cabello Hutt acerca a los lectores a la amplia, pero escasamente estudiada, prosa periodística de Mistral además de un conjunto de manuscritos, cartas e imágenes provenientes de archivos norteamericanos y chilenos así como del recientemente abierto archivo de su albacea y compañera, Doris Dana. Artesana de sí misma explora más allá de la ampliamente estudiada poesía de Mistral y demuestra que su prosa, representación visual y performatividad de género son claves para comprender la auto-construcción de esta

figura como una intelectual latinoamericana y una escritora de reconocimiento internacional. Artesana de sí misma by Claudia Cabello-Hutt reevaluates the place of Nobel laureate Gabriela Mistral in the literary and intellectual history of Latin America, illuminating and filling a number of lingering voids in the study of this canonical figure. Cabello-Hutt introduces readers to Mistral's vast but scarcely studied journalistic prose as well as her unpublished manuscripts, letters, and images held in the United States and in newly opened Chilean archives. Moving beyond her amply discussed poetry, Cabello-Hutt demonstrates that Mistral's essays, visual representations, and gender performance are key to understanding Mistral's self-construction as a Latin American female intellectual and internationally recognized writer.

Poéticas del duelo Víctor Vich,2015-04-09 Este libro se pregunta por la función que las representaciones culturales juegan en el contexto posterior a la violencia política en el Perú. ¿Cómo la sociedad peruana interpreta ahora dicha historia a través de las imágenes que produce? ¿Cómo se piensa el pasado desde los símbolos culturales? ¿Cuáles son las representaciones que un conjunto de artistas está introduciendo en la sociedad actual para darle mayor inteligibilidad al pasado y, sobre todo, para transformar los imaginarios sobre la nación en general? Los ensayos aquí reunidos sostienen que el Informe final de la Comisión de la Verdad y Reconciliación ha tenido una repercusión muy importante en el campo de la cultura y que muchas de sus principales conclusiones han ingresado al imaginario nacional a partir del trabajo que un conjunto de artistas realiza en el país. El libro propone que los objetos artísticos generan significativas preguntas de conciencia ciudadana y de memoria política. Se trata de imágenes que asumen el horror de lo vivido y que, gracias a la densidad de sus símbolos, abren diversos espacios de interpelación política en la sociedad.

With All, and for the Good of All Gerald E. Poyo,1989-03-28 Cuban-Americans are beginning to understand their long-

standing roots and traditions in the United States that reach back over a century prior to 1959. This is the first book-length confirmation of those beginnings, and it places the Cuban hero and revolutionary thinker José Martí within the political and socioeconomic realities of the Cuban communities in the United States of that era. By clarifying Martí's relationship with those communities, Gerald E. Poyo provides a detailed portrait of the exile centers and their role in the growth and consolidation of nineteenth-century Cuban nationalism. Poyo differentiates between the development of nationalist sentiment among liberal elites and popular groups and reveals how these distinct strains influenced the thought and conduct of Martí and the successful Cuban revolution of the 1890s.
