Atención primaria. Principios, organización y métodos en medicina de familia Amando Martín Zurro, Juan Francisco Cano Pérez, Joan Gené Badia, 2024-07-15 - Esta novena edición, como las anteriores, introduce cambios significativos en sus contenidos y autoría. En el primer tomo del libro, Principios, organización y métodos en Medicina de Familia, se han añadido tres capítulos nuevos que tratan los aspectos esenciales de la Enfermería Familiar y Comunitaria, las actuaciones en las situaciones de crisis sanitaria y el papel de las nuevas tecnologías en la consulta diaria de los profesionales. - En el segundo tomo, Problemas de salud en la consulta de Medicina de Familia, también se han añadido dos nuevos capítulos. El primero de ellos aborda la identidad de género en las consultas de Atención Primaria y Comunitaria, un campo sujeto aún a controversias ideológicas, éticas y técnicas, que se trata de forma objetiva, para que los profesionales de este ámbito dispongan de información que les permita diseñar correctamente las actuaciones diagnósticas, terapéuticas y de seguimiento y control. Se incorpora también un capítulo sobre las técnicas ecográficas de bajo coste y de aprendizaje interpretativo que han ido ganándose un lugar prioritario entre las que han de estar disponibles habitualmente en las consultas de los centros y los equipos de Atención Primaria y Comunitaria. - Como viene sucediendo desde la segunda edición de esta obra, en un tomo independiente se incluye una nueva versión revisada de preguntas y respuestas razonadas sobre los temas de los distintos capítulos. Acercándose a los cuarenta años de vida, Atención Primaria se renueva presentando la actualidad en Atención Primaria de Salud y Medicina Familiar y Comunitaria para continuar siendo un instrumento de referencia para la formación y la consulta de los profesionales interesados en esta parte nuclear de los sistemas sanitarios. En esta novena edición, además de la actualización del contenido, se han incluido cinco capítulos nuevos, que tratan la Enfermería Familiar y Comunitaria, la consulta no presencial, la Atención Primaria en las crisis sanitarias, el cuidado de la salud en las personas transgénero y la ecografía de cabecera.
