Audit Guide AICPA, 2016-11-07 Want to ensure effective and efficient execution of the Risk Assessment Standards? AICPA has the resources you need: Audit Risk Assessment Tool (available online only) Assessing and Responding to Audit Risk in a Financial Statement Audit - AICPA Audit Guide The Audit Risk Assessment Tool walks an experienced auditor through the risk assessment procedures and documents those decisions necessary to prepare an effective and efficient audit program. Designed to be used in lieu of cumbersome checklists, it provides a top down risk-based approach to the identification of high risk areas to allow for appropriate tailoring of audit programs which will result in audit efficiencies. The tool is available in the Online Subscription format and includes access to the full Risk Assessment Guide. The AICPA Audit Guide Assessing and Responding to Audit Risk in a Financial Statement Audit is the definitive source for guidance on applying the core principles of the risk-based audit methodology that must be used on all financial statement audits. This guide is written in an easy-to-understand style that enables auditors of all experience levels to find answers to the issues they encounter in the field. Unique insights, examples and a comprehensive case study clarify critical concepts and requirements. Disclaimer This Audit Risk Assessment Tool is designed to provide illustrative information with respect to the subject matter covered and is recommended for use on audit engagements that are generally smaller in size and have less complex auditing and accounting issues. It is designed to help identify risks, including significant risks, and document the planned response to those risks. The Audit Risk Assessment Tool should be used as a supplement to a firm's existing planning module whether in a firm-based or commercially provided methodology. The Audit Risk Assessment Tool is not a complete planning module. The AICPA recommends the Audit Risk Assessment Tool be completed by audit professionals with substantial accounting, auditing and

specific industry experience and knowledge. For a firm to be successful in improving audit quality and efficiencies, it is recommended that a 5+ years experienced auditor completes the Audit Risk Assessment Tool or the engagement team member with the most knowledge of the industry and client (often Partner in small/medium firms) provides insight to whomever is completing the ARA Tool. The AICPA recommends this should not be delegated to lower-level staff and just reviewed – it should be completed under the direction of the experienced auditor (if you delegate to inexperienced auditor you will be at risk for less effectiveness and efficiencies because the tool is intended to be completed by an experienced auditor). The Audit Risk Assessment Tool does not establish standards or preferred practices and is not a substitute for the original authoritative auditing guidance. In applying the auditing guidance included in this Audit Risk Assessment Tool, the auditor should, using professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the audit. This document has not been approved, disapproved, or otherwise acted on by a senior committee of the AICPA. It is provided with the understanding that the staff and publisher are not engaged in rendering legal, accounting, or other professional service. All such information is provided without warranty of any kind.

Financial Reporting Handbook Michael R. Young, 2003 Never before has a single reference provided such quick access to every critical aspect of financial reporting. In addition to covering the new Sarbanes-Oxley legislation, SEC rules and regulations, and corporate governance standards promulgated by the Independence Standards Board and the AICPA at institutions such as New York Stock Exchange, NASDAQ, and the American Stock Exchange, the Financial Reporting Handbook tackles important underlying themes such as the centrality of the audit committee, the individual responsibility of executives, and the integrity of the outside auditor. Best of all, the Financial Reporting Handbook will be updated every quarter with the relevant laws and regulations that are developed and implemented.
