

L'animal Que Donc Je Suis

Albert A Gayle

L'animal que donc je suis Jacques Derrida, 2006 Cet ouvrage rassemble des textes de conférence déjà publiés, «L'animal autobiographique» et «Et si l'animal répondait», ainsi que des textes non publiés. L'un portant sur les schèmes de pensée concernant l'animal, de Platon à Levinas, le second est issu d'un enregistrement sonore lors d'une conférence sur la question de l'animal chez Heidegger.

The Animal that Therefore I Am Jacques Derrida, 2008 The Animal That Therefore I Am is the long-awaited translation of the complete text of Jacques Derrida's ten-hour address to the 1997 Cérisy conference entitled The Autobiographical Animal, the third of four such colloquia on his work. The book was assembled posthumously on the basis of two published sections, one written and recorded session, and one informal recorded session. The book is at once an affectionate look back over the multiple roles played by animals in Derrida's work and a profound philosophical investigation and critique of the relegation of animal life that takes place as a result of the distinction--dating from Descartes--between man as thinking animal and every other living species. That starts with the very fact of the line of separation drawn between the human and the millions of other species that are reduced to a single the animal. Derrida finds that distinction, or versions of it, surfacing in thinkers as far apart as Descartes, Kant, Heidegger, Lacan, and Levinas, and he dedicates extended analyses to the question in the work of each of them. The book's autobiographical theme intersects with its philosophical analysis through the figures of looking and nakedness, staged in terms of Derrida's experience when his cat follows him into the bathroom in the morning. In a classic deconstructive reversal, Derrida asks what this animal sees and thinks when it sees this naked man. Yet the experiences of nakedness and shame also lead all the way back into the mythologies of man's dominion over the beasts and trace a history of how man has systematically displaced onto the animal his own failings or bêtises. The Animal That Therefore I Am is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the questions and definitions of life to which he returned in much of his later work.

Yet the experiences of nakedness and shame also lead all the way back into the mythologies of man's dominion over the beasts and trace a history of how man has systematically displaced onto the animal his own failings or *bêtises*. The *Animal That Therefore I Am* is at times a militant plea and indictment regarding, especially, the modern industrialized treatment of animals. However, Derrida cannot subscribe to a simplistic version of animal rights that fails to follow through, in all its implications, the questions and definitions of life to which he returned in much of his later work.

Derrida and Other Animals Judith Still, 2015-07-13 Judith Still analyses Derrida's late writings on animals, especially his seminars *The Beast and the Sovereign*, to explore ethical questions of how humans treat animals and how we treat outsiders, from slaves to terrorists.

Animal Encounters Susan Crane, 2012-11-29 Traces of the living animal run across the entire corpus of medieval writing and reveal how pervasively animals mattered in medieval thought and practice. In fascinating scenes of cross-species encounters, a raven offers St. Cuthbert a lump of lard that waterproofs his visitors' boots for a whole year, a scholar finds inspiration for his studies in his cat's perfect focus on killing mice, and a dispossessed knight wins back his heritage only to give it up again in order to save the life of his warhorse. Readers have often taken such encounters to be merely figurative or fanciful, but Susan Crane discovers that these scenes of interaction are firmly grounded in the intimate cohabitation with animals that characterized every medieval milieu from palace to village. The animal encounters of medieval literature reveal their full meaning only when we recover the living animal's place within the written animal. The grip of a certain humanism was strong in medieval Britain, as it is today: the humanism that conceives animals in diametrical opposition to humankind. Yet medieval writing was far from univocal in this regard. Latin and vernacular works abound in other ways of thinking about animals that invite the saint, the scholar, and the knight to explore how bodies and minds interpenetrate across species lines. Crane brings these other ways of thinking to light in her readings of the beast fable, the hunting treatise, the saint's life, the bestiary, and other genres. Her substantial contribution to the field of animal studies investigates how animals and people

interact in culture making, how conceiving the animal is integral to conceiving the human, and how cross-species encounters transform both their animal and their human participants.

Italy and the Ecological Imagination: Ecocritical Theories and Practices Damiano Benvegnù, Matteo Gilebbi, 2022-10-04
What can Italy teach us about our relationships with the nonhuman world in the current socio-environmental crisis? 'Italy and the Ecological Imagination: Ecocritical Theories and Practices' focuses on how Italian writers, activists, visual artists, and philosophers engage with real and fictional environments and how their engagements reflect, critique, and animate the approach that Italian culture has had toward the physical environment and its ecology since late antiquity. Through a comparative and interdisciplinary approach, the essays collected in this volume explore topics including climate change, environmental justice, animal ethics, and socio-environmental degradation to provide a cogent analysis of how Italian ecological narratives fit within the current transnational debate occurring in the Environmental Humanities. The aim of 'Italy and the Ecological Imagination' is thus to explore non-anthropocentric modes of thinking and interacting with the nonhuman world. The goal is to provide accounts of how Italian historical records have potentially shaped our environmental imagination and how contemporary Italian authors are developing approaches beyond humanism in order to raise questions about the role of humans in a possible (or potentially) post-natural world. Ultimately, the volume will offer a critical map of Italian contributions to our contemporary investigation of the relationships between human and nonhuman habitats and communities.

This is Not Sufficient Leonard Lawlor, 2007
Derrida wrote extensively on the question of the animal. In particular, he challenged Heidegger's, Husserl's, and other philosophers' work on the subject, questioning their phenomenological criteria for distinguishing humans from animals. Examining a range of Derrida's writings, including his most recent *L'animal que donc je suis*, as well as *Aporias*, *Of Spirit*, *Rams*, and *Rogues*, Leonard Lawlor reconstructs a portrait of Derrida's views on animality and their intimate connection to his thinking on ethics, names and singularity, sovereignty, and the notion of a common world. Derrida believed that humans and animals cannot be substantially separated, yet neither do they form a continuous species. Instead, in his staggered analogy, Derrida asserts that all living beings are weak and therefore capable of suffering. This controversial claim both refuted the notion that humans and animals possess autonomy and contradicted the assumption that they possess the trait of machinery. However, it does offer the foundation for an argument-which Lawlor brilliantly and passionately defines in his book-in which humans are able to will this weakness into a kind of unconditional hospitality. Humans are not strong enough to keep themselves separate from animals. In other words, we are too weak to keep animals from entering into our sphere. Lawlor's argument is a bold approach to remedying the problem of the worst, or the complete extermination of life, which is fast becoming a reality.
